The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

MICROFILMED

JUN 12 1998

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

E. NARRATIVE/REMARKS/COMMENTS

This water delivery system consists of a well and pressure tanks. Water is produced from the well using a 3 Hp pump. This system supplies 2 existing homes and construction has been completed to 2 lots where the construction of 2 additional homes is intended.

Mr. Brenneman expressed that irrigation consists of lawn and garden for the two homes and that he would like to develop a small orchard on his property. He stated he did not know of the intent of development held by the owners of the other lots.

RE: Water Right No. 96-08855

Dear Mr. and Mrs. Brenneman:

I have enclosed a copy of the Proof of Beneficial Use statement you submitted in connection with the above referenced water right. The department can only accept a proof if it is filed by the permit holder of record. I have also enclosed a copy of the Assignment of Permit for the above referenced water right. The permit was assigned by the original permit holder (Marion Synder) to the Sonsie Subdivision Water Association at P.O. Box 1363, Coeur d'Alene, Id. 83816-1363.

Before the department can accept the proof, the water association will need to submit a list of the names and addresses of the association officers and the proof will need to be filled out and signed by an authorized officer.

If a new proof form needs to be filled out, I have enclosed a blank form for your convenience. I will hold the original proof form and license examination fee submitted for **thirty (30) days** to allow you time to submit the list of association officers.

If you have any questions regarding this matter, please contact me at (208)327-7953.

PROOF DUE NOTICE

RE: PERMIT NO. 96-08855

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

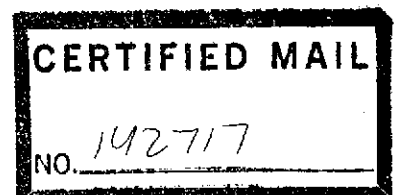

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH

Dear Ms. Synder:

The above referenced application has been sent to the State Office for final review and processing; however, before the application process can continue, I will need some additional information.

The application lists a domestic use for 4 homes, but a subdivision plat identifying the location of these homes was not included with the application. I need the subdivision plat to clarify where water will be diverted. Please provide a subdivision plat identifying the location of the well, the location of any common or non-domestic areas, as well as the size of each lot.

I will hold further processing on your application for 14 days pending your response. Please submit this information as quickly as possible within the 14-day period to prevent any further undue delay in processing your application.

Re: Water Appropriation Application No. 96-08855

Dear Ms. Snyder:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to Appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
