10. Remarks This Application has been in my possession for three years during which time I have been using the water from the pond in back of my place. I am one user. There are others except for a small stretch of my property that touches the pond - The "shore line" is wrapped around by property now owned by Lynn Kenworthy - who do not feel that it should be used by me if it starts to dry up which it has done in the past. The water is putrid-foul smelling and thick with algae and growth of various natures. This is why I haven't sent in the application before - I can't see how the state could call it a resource, even though it gets used for gardens & lawns. The previous land owner gave me verbal permission to use it.

I want to sell my place. Who ever buys it needs to be able to use the water also - (the well only produces 3 gal per min, & when it runs for 90 min., it is dry for a time). I can't figure how much I use. I guess at 10 hours a week. I ran a 2 gal bucket in 25 seconds - which would average about 5 gal per minute - 300 gal per hr 10 hr per week (depending on rain & cloud cover & heat) 3000 gal in some weeks - none at all in others -

Dear Ms. Bursh:

We are returning your Check No. 92-325 in the amount of \$30.00 and your Applications for clarification of a few items.

Item No. 3 appears to list the point of diversion within the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$, Section 11. The map (Item No. 11) however, appears to show the diversion point within the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 11.

Item No. 7 must be assigned at least one year to allow the Department to meet the statutory requirements of processing an Application for Permit.

Item No. 8.a.1. need not be completed since you indicate no use other than irrigation.

Item No. 8.b. lists the place of use (irrigated lands) within the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 11. The map, however, shows the garden within the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 11 and the yard within the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 11.

In view of these discrepancies, I would recommend you seek professional help in determining the legal descriptions required. You may do this through the private sector, the County Assessor's Office or through this office. The Coeur d'Alene staff of the Idaho Department of Water Resources is small but there is usually someone in this office that can aid you in this matter.

Sincerely,

Dear Mr. King,

My husband and I have just purchased the property formerly owned by Mrs. Mildred Dursh, who gave me all of her correspondence concerning permit for water development.

We plan no changes in the present system, source, usage, or acreage.

Is there anything further that we must do, other than await the field examination?

Sincerely

RE: 96-8011

Dear Ms. Dursh:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Very truly yours,

TOM D. KING
Senior Water Resource Agent

Dear Sirs:

Please send me the Proof
form that I have to send in before
my irrigation system gets licensed.
my permit number 96-8011

my dead-line is Dec 1982. How-
ever, the system is assembled now-
until freeze-or before, when it is dis-assembled
& stored until the next summer. So I'd
like to have it checked sometime before
October 82, please, if that is possible.

Thank you
