WATER RIGHT LICENSE

License of Water Right No. 96-8006 Priority September 9, 1981 Amount 0.08 cfs

THIS IS TO CERTIFY, that G. D. Lambert
of Sandpoint, Idaho, has complied with the terms and conditions of Permit
No. 96-8006 issued pursuant to Application for Permit dated September 9, 1981,
and has submitted proof to the Department of Water Resources on January 14, 1983,
that he has applied water to a beneficial use, an examination by the Department indicates that the works have a
capacity for the diversion of 0.08 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>March 15</u> to <u>November 15</u>	at <u>0.04</u> cfs and	<u>18.0</u> acre feet
Domestic (1 Unit)	from <u>January 1</u> to <u>December 31</u>	at <u>0.04</u> cfs and	<u>0.6</u> acre feet
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 0.08 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
18.6 acre feet per year, said waters to be diverted within the NW1/4 Section 15,
Twp 57N, Rge 1E in the County of Bonner

Description and location of place of use:

CONDITIONS OF APPROVAL

a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.

c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

Dear Mr. Lambert:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Very truly yours,

RE: Permit No. 96-8006

Dear Mr. Lambert:

We are in receipt of your letter dated October 10, 1982.

First, regarding your request for an amendment, please find enclosed an Application for Amendment form. If you wish personal assistance in completing the form, you can visit our regional office in Couer d'Alene at 4055 Government Way.

Regarding your question about access ports, I have enclosed a set of instructions that explains how the ports are used. Due to the small size of your system we have not required an access port to be installed as a condition of approval for the permit.

Proof of beneficial use was due for your permit on December 1, 1982. Due to the delay in preparing this letter, the date has been extended to January 20, 1983. Please be advised that to maintain your permit in a valid status you must submit to this office either a statement of beneficial use postcard or a request for extension of time, both of which have been enclosed for your convenience.

Please advise me if you have any further questions about your permit.

Sincerely,

Dear Mr. Lambert:

I am returning your application along with your Check No. 92-58. The problem arises from the quantity of water appropriated for irrigation. The quantity you have listed is insufficient for irrigating 6 acres. Either the quantity must be increased or the irrigated acreage decreased.

In general, you are allowed to appropriate 0.02 cfs per acre. This would total 0.12 cfs for your 6 acres. The acres indicated should only be the acres you actually plan on irrigating. I mention this because some people list the total acreage of their property and not the portion that they actually plan to irrigate.

I should also mention that you are allowed to appropriate up to 0.04 cfs for single household domestic use. While this is not mandatory, it would be to your advantage to do this as it would not cost you any more money.

I have included a new application form. You can either use it or your original.

If you have any questions, please contact me at this office.

Sincerely,

LAWRENCE D. BEARD
