Dear Mr. Hawkins:

Inspection is required by law in connection with any permit being brought to license in the State of Idaho. If weather and roads permit I intend to make inspection in connection with your Permit on Friday morning, April 20.

Please be prepared to accompany me on the inspection. I will try and contact you when I arrive in that area or if I fail to find you I will drive to the farm where the water is used.

Dear Mr. Hawkins:

In checking your Permit No. 22538 we note that Completion of Works Proof has been made and a Certificate issued for same. Therefore, your Permit is in good standing and will remain so. The only disadvantage in not making the Beneficial Use Proof on Jan. 2, 1956, is in the loss of the original priority date which will be advanced for the length of time that the Beneficial Use Proof is late.

It may be that you will be able to make Beneficial Use Proof at a later date.

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 22538. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than January 2, 1956, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

RE: Permit No. 22538

Mr. Lyon E. Hawkins  
Route 1  
Sagle, Idaho

Dear Mr. Hawkins:

Reference is made to your letter of April 14 requesting information for making final proof on the above numbered permit.

Before final beneficial use proof is made, the law requires publication of a notice once a week for four weeks in the county where the water is diverted. This notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the notary public before whom the proof is to be made.

The proofs may be made at any place convenient for you and your two witnesses but the time must be set sufficiently ahead to allow four weeks publication. Both copies of Form 10 to be returned to this department together with Form 11 which is your authorization to have the notice published in the designated county newspaper at your expense.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall then send you the necessary forms of deposition to be used in making the proof.

Very truly yours,

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 22538 you are required to complete your diversion works on or before January 2, 1954. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
