Farmers Home Administration
Sandpoint, Idaho 83864

Dear Mr. Stigile:

The additional information in your letter of August 21, 1968, gives us enough information to locate the water license. The above numbered license was issued to Mr. McMurtrey and Jolley. It is for 1.02 c.f.s. or 51 miners inches, with a priority of October 24, 1951, for use on 86 acres of land in the NE¹/₄SW¹/₄, NW¹/₄SW¹/₄, SE¹/₄SW¹/₄, Section 14, Township 55 North, Range 4 West, B.M. from Hoodoo Creek.

If in the future you have to write regarding water rights and could give the source of water and the point of diversion we can locate from that, or even the name if it is the original holder.

Gentlemen:

We are trying to find evidence of water rights on the SW $\frac{1}{4}$ of Section 14, T55N., R4W., B.M. You have previously been unable to find any such water rights.

Upon further investigation on our part we have found evidence of permits to a Mr. McMurtrey, #22431, and to Mr. Gale Jolly, #23056, in Book 80 of permits.

Perhaps this information will help in finding a water right believed to be established on this farm. Any information that you have would be appreciated. Thank-you.

[Signature]

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Water is used for irrigation purposes

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 2.0 cubic feet per second from point of diversion

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Affiant acquired property hereinbefore described by Warranty Deed through purchase from one E. D. McMurtrey

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Affiant has used water for irrigation on the property yearly for ten years since he acquired property.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No water from any other source is diverted or applied to the foregoing property.

Proof of Application of Water to Beneficial Use

~~and Conditions of Works~~ Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. ROY McCLURE 66 Vay, Bonner County, Idaho, Farmer,

P.O. Address: Route #1, Priest River, Idaho

Ques. 2. Are you acquainted with George E. Jolley, the holder of Permit No. 22431? How long have you known him and where does he reside?

Ans. Yes. I have known him ten years. He resides in
Spokane, Washington.

Ques. 3. Have you read or heard read said Permit No. 22431, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is diverted from
/ Hoodoo Drainage District #7 by means of an electric motor
driven pump, through 6" pipeline from ditch to property of George E.
Jolley.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have watched the sprinkler system in operation and I would es-
timate that the system would safely conduct 2.0 cu. ft. per second to
the place of use, and would judge this amount was being so conveyed when *

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Water is used for irrigation purposes only

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Agricultural land of a sandy loam soil. I would estimate that profitable cultivation of said land requires 2.0 cu. ft. of water per second.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. My farm is contiguous to the property of George E. Jolley. I therefore have observed the application of the water diverted by him under the permit, every year for the past ten years. I can observe the system nearly every day it is operated.

Dear Mr. Jolley:

We acknowledge receipt of your Notice for Publication of Proof of Application of Water to Beneficial Use. There are some corrections to be made before sending the notice to the paper.

Line No. 3 - We assume you intend to make the proofs before a Notary Public in the First National Bank in Priest River. The Notary's name must be given, followed by Notary Public in the Idaho First National Bank.

Second paragraph, first line - You gave the address of the holder of said permit but not the name.

The point of diversion should read NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 14, Twp. 55 N., Rge. 4 W.B.M.

Legal description should read N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 14, Twp. 55 N., Rge. 4 W.B.M.

We are enclosing another set of Form 10 and ask you to fill out correctly and return to this office at once or the date of making proof will need to be changed to a later date.

We also enclose Form 11 which you must return with the new Form 10.

Re: Permit No. 22431

Geo. E. Jolley

Dear Mr. Jolley:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 22431 is due not later than Oct. 30, 1962. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

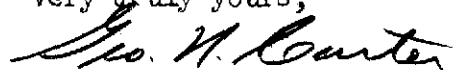

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

GEO. N. CARTER

RE: Permit No. 22431

Mr. George E. Jolley
806 N. Monroe
Spokane, Washington

Dear Mr. Jolley:

We acknowledge receipt of your letter of September 5, in regard to your Permit held in this Department. We know now why you were confused with a letter that was sent you under date of August 1, 1956, which it stated that you were to make your Completion of Works and application of water to Beneficial Use under your Permit No. 22431 at the same time. Evidently the wrong Form was mailed you on August 1, 1956, in regarding said Permit No. 22431. We are substituting herewith another Form letter, which should have been sent to you in place of the one sent on August 1. You may proceed under the instructions under this latest order. The status of Permit No. 22431 is as follows;

Filed October 24, 1951, Amount of filing - 2 cubic feet per second, Source of supply Hoodo Creek, point of diversion in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14 Township 55 North Range 4 West, the place of use NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14 Township 55 North Range 4 West. This filing was filed in the name of Ed McMurry. Completion of Works Proof due on October 30, 1956, Beneficial Use Proof due October 30, 1962.

We cannot give you an extension of time on this Permit, therefore in order to keep this Permit in good standing it will be necessary for you to fill out the affidavit enclosed herewith, Form No. 6, which describes your work in detail showing the point of diversion and the place of intended use, to be signed before a Notary and returned to this Department with a fee of \$5.00, which is the fee for recording Completion of Works.

Our records also show that you have Permit No. 2318³, also filed in the Department for 1.2 cubic feet per second, with point of diversion in NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 14, from Hoodo Creek. The place of use being SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14, Township 55 North Range 4 West. This proof however is not due until October 29, 1957 and the Beneficial Use Proof is not due until October 29, 1963.

You also have a Permit filed in the name of Gale A. Jolley Permit No. 23056 for 4.3 cubic feet per second from Hoodo drainage ditch, with

22431

Mr. George Jolley

September 7, 1956

points of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 12, Township 55 North Range 4 West. The place of Use is described by the following; SE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ Section 12 and in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ of Section 13, Township 55 North, Range 4 West. This Application was assigned to George E. Jolley under date of November 3, 1955. The whole of said work to be completed on or before September 23, 1957. Beneficial Use Proof is due on September 23, 1963.

All that is required at this time is for you to fill out this Form No. 6, enclosed and return with your \$5.00, to this department.

We hope this explains the situation and hope it has not caused you any inconvenience by sending the wrong Forms.

Very truly yours,

Dear Mr. Kulp
I was quite a while
getting your letter of
Aug - 1st pertaining to
Notice of Proof of
Completion of work
on Water Permit
G22431.

I do not understand
for sure just what
was meant by this,
& did not know how
to figure how many
cu feet per second.
I went to Sand point
Idaho & am looking

22431

The papers over we
see. My Water Permits do
not have the same #
that you have on your letter
I have two Water Permits
one taken out By Ed,
Memmurey (permit # 22431)
But my permit # is
23189 on the same place
on the back of our
permit it states that
we have until Oct 29,
1957 to complete the
work we applied for and/or
we can extend the time
until Oct 29 1963.

We have some over 100
acres under sprinkler irrigation.

22731

have until Sept 23 1963
to complete the full amount
we have 108 acres.

Under Sprinkler Irrigation
on this permit now +
would like to have the
Extended time to
complete this work
if we can.

The work was commenced
before the required date
of commencement on both
permits.

At present ~~I am~~ my
address is 806 N. Monroe
Spokane WA But I still
own both places + have
men on them working them

22/31

Now but we would
like to put more under
Irrigation + would
like until Oct 1957 or
possibly extend the time
to 1963 if we cannot
complete the work by
next year.

I also have another place
with water permit #23056
dated Sept 23rd 1952.

I bought the property
+ had the permit transferred
into my name. + on the
back of this permit
it states we have until
Sept 23 - 1957 to complete
this work or we can

22/31

Sincerely yours

Geo E Jolly

And I am out there
quite often to see how
things are going but
if you will write me
here in Spokane

I will get you letter
sooner if you think
it necessary to fill out
these papers you sent
me on Aug. 1st please
notify me by Reg. Mail &
I will have time to get
them to you & you will have them
the 40 days before Oct 30th
But I'll need a set for
the other permit, #23056
Hoping to hear from you
soon I remain

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

August 1, 1956

Mr. George E. Jolley
Vay, Idaho

Dear Sir:

We enclose herewith blank notice for proof of completion of works and application of water to beneficial use under your Permit No. G-22431. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than October 30, 1956.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

Dear Mr. Jolley:

We return the assignment of Permit No. 22431 from Mr. Ed. McMurtrey and wife to you, for the reason that the Notary Public's certificate is in error in that it acknowledges your signature instead of the signatures of Mr. and Mrs. McMurtrey.

Please have this certificate corrected and return to this department for record.

Very truly yours,

RE: Permit No. 23183

Mr. George E. Jolley
Vay
Idaho

Dear Mr. Jolley:

We enclose Permit No. 23183 and direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose departmental receipt No. 25048 for the \$5.25 filing fee.

We note your statement that you have purchased the SW $\frac{1}{4}$ of Section 14, Township 55 North, Range 4 West, B.M., from Mr. Ed McMurtrey, who has already taken out a permit to irrigate 100 acres, being Permit No. 22431.

You should have an assignment from Mr. McMurtrey of this permit to you, the form for which is enclosed. There is a fee of 50 cents for recording the assignment.

No doubt Mr. McMurtrey has handed you the permit, but in case he has not we direct your attention to the fact that this is only the initial step towards procuring the water right, and proof of completion of works will be due on or before October 30, 1956.

Very truly yours,

MARK R. KULP

RE: Permit No. 22431

Mr. George E. Jolley
Vay
Idaho

Dear Mr. Jolley:

We have your letter of September 13, 1952, stating that you have purchased the McMurtry place together with his permit to take water from Hoodoo Creek, and that you would like an application to file for an additional 60 inches of water from said creek.

In order to have Mr. McMurtry's permit transferred to your name, the enclosed form of assignment should be executed and returned to this department with a fee of 50 cents for recording.

Meanwhile, we enclose a form of application for an additional permit, together with a pamphlet giving regulations and instructions in regard to filing same. This application should be accompanied by written permission from the drainage district to file on the water from Hoodoo Creek.

Very truly yours,

Dear Mr. McMurtrey:

In reply to your letter of September 8, 1951, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with the pamphlet giving regulations and instructions in regard to filing same.

You state that you wish to irrigate 80 acres and the law allows one inch per acre for irrigation. You may, therefore, apply for 80 inches or 1.6 cubic feet per second.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

Very truly yours,
