Priest River, Idaho

Dear Mr. Hoop:

We acknowledge receipt of your Proof of Completion of Works and also the Money Order in the amount of \$5.00 as fee for same.

We are returning the Proof of Completion of Works for the land description to be given under Question 8.

In order to complete your water right, proof of application of the water to beneficial use is required.

Proof of beneficial use requires publication of a notice in a local newspaper once a week for four weeks before proof is made. Notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notayr Public before whom proof is to be made. Both copies of Form 10 to be returned to this department together with Form 11 which is authorization for us to have the notice published at permit holder's expense in the designated county newspaper. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

We shall hold the \$5.00 Money Order in the department until you return the Proof of Completion of Works.

Very truly yours,

Dear Mr. Wachter:

The Department of Water Resources does not as yet have a record of all of the water rights within the State. It is possible that unrecorded rights on Strong Creek (formerly Smith Creek) do exist. I have, however, located two licenses on the creek and have listed them below.

License No. 96-2014 issued to U. L. McDonell for domestic use and irrigation of 80 acres, with a diversion rate of 1.6 cfs and a priority date of 12/10/1906. The Point of Diversion is located within the NWSN, Sec. 28, T56N, R5W. The lands irrigated are: 15 acres in Lot 1, 5 acres in Lot 2, 15 acres in Lot 3 and 45 acres in the 1/4 SW all in Sec 28, T56N, R5W.

License No. 96-2189 issued to Rudolph A. Hoop for irrigation of 34 acres, with a diversion rate of 0.3 cfs, and a priority date of 10/15/1951. The Point of Diversion is within the SESW, Sec. 34, T56N, R5W. The lands irrigated are: 20 acres in the NESW, and 14 acres in the SESW, Sec. 34, T56N, R5W.

It is possible you may now have a part interest in License No. 96-2014. The Department files are open to the public and you may, if you wish, visit the office and view the records at 4055 Government Way, Coeur d'Alene, Idaho.

Dear Sir:

We have been using Strong

As far as I know there is no other water permit on this creek, as it is only about two miles long. Recently I read an article in the paper stating that I must file for a water permit or risk the right to use the creek for irrigation. Dear Dale:

Permit No. 22437 is in the name of Rudolf A. Hoop which we assume is the permit on which you say you have an assignment. Permit No. G-24437 is for irrigation of land in Power County.

Permit No. 22437 has been licensed for 0.3 c.f.s. from Strong Creek, priority October 15, 1951, for irrigation of 34 acres in E $\frac{1}{2}$ SW $\frac{1}{4}$ Section 34, Township 56 North, Range 5 West, B.M. Licensed water rights can be transferred to other property by the owners of the permit. Such transfer is not made until after notice of transfer has been published in two weekly issues of a local paper.

To help protect government money, we have noted your assignment on the license. We really hope your security is not Permit No. G-24437, it may be cancelled later this year.

Dear Mr. Hoop

Statutes requires a field inspection in connection with the proofs on Permit # 22437 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Wednesday

July 31st

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Dear Mr. Hoops:

We acknowledge receipt of your Proof of Completion of Works and also the Money Order in the amount of \$5.00 as fee for same.

We are returning the Proof of Completion of Works for the land description to be given under Question 8.

In order to complete your water right, proof of application of the water to beneficial use is required.

Proof of beneficial use requires publication of a notice in a local newspaper once a week for four weeks before proof is made. Notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom proof is to be made. Both copies of Form 10 to be returned to this department together with Form 11 which is authorization for us to have the notice published at permit holder's expense in the designated county newspaper. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

We shall hold the \$5.00 Money Order in the department until you return the Proof of Completion of Works.

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 22437 you are required to complete your diversion works on or before October 30, 1956. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

In reply to your request of September 6, 1951, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with the pamphlet giving regulations and instructions in regard to filing.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.
