Re: Permit No. 22300

Mr. Duane D. Davis

Sandpoint, Idaho

Dear Mr. Davis:

Our field engineer's report on his inspection of proof of beneficial use under the terms of Permit No. 22300 shows your works to be capable of conveying 15 miners' inches (.3 c.f.s.) of water from Sandpoint Creek for irrigation of 50 acres in the S $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 24, Township 58 North, Range 2 West, B.M. The record of the permit lists only the land in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 24, therefore, it is necessary that it be amended to include the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 24. We enclose an application for amendment to the land list for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fee of \$4.00, we will issue the License and Certificate of Water Right confirming the right with priority of August 8, 1951, to the use of .3 second foot of water from Sandpoint Creek, with the point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 23, for irrigation of 50 acres in the S $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 24, Township 58 North, Range 2 West, B.M.

Dear Mr. Davis:

Statutes requires a field inspection in connection with the proofs on Permit # 22300 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Thursday,

May 29th, 1958.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Dear Mr. Davis:

We have your letter of August 10, 1956, in regard to information of making Beneficial Use proof on your Permit No. 22300.

Before this proof is made, the statutes require publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the notary public before whom the proof is to be made.

The proof may be made at any place convenient for you and your two witnesses but the date must be set far enough ahead to allow for four weeks publication.

Both copies of Form 10 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper with instructions in regard to publishing and shall send you the forms of deposition to be executed by yourself and two disinterested witnesses in making these proofs.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Duane D. Davis
Route 1
Sandpoint, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 22300 you are required to complete your diversion works on or before August 15, 1956. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
