Dear Sir:

Would you please advise whether or not there are any water rights filed on Riley Creek, which is located in Bonner County in Township 56, Ranges 3 and 4 West.

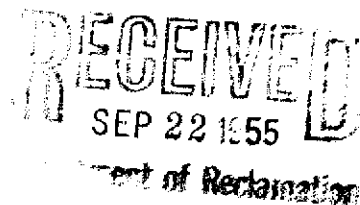

The Laclede water system, which system was formerly owned by the Great Northern Railroad, is served by the waters of this creek. I believe that the system and its users have a right by the prescriptive constitutional method; however, I understand that certain persons in that vicinity are contemplating sprinkler irrigation. Therefore, I am concerned whether or not other persons, other than Great Northern, have obtained rights to the waters of said creek.

Yours very truly

Dear Mr. Belwood:

Since writing you on July 6, we have received your check for the \$5.00 fee in connection with Proof of Completion of Works on Permit No. 21567.

Certificate of Completion of Works will be issued and sent you within a few days. Meanwhile, we are a little short of these forms and are awaiting a new supply from the printer.

We have sent to the Sandpoint Bulletin, Notice of Beneficial Use Proof to be made under this Permit at 10:00 A.M. August 6, 1951, before Erma Carter, Notary Public, with instructions to publish it once a week for four consecutive weeks prior to that date and to send you the Affidavit of Publication, together with statement of costs.

At the time set, you should appear before the Notary Public, together with two disinterested witnesses who are familiar with the terms of your Permit and the work done thereunder for the purpose of executing depositions, forms for which are enclosed herewith.

These depositions, together with the Affidavit of Publication, are to be returned to this Department upon completion.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Ernest C. Belwood
Box 88
Laclede, Idaho

Boise, Idaho **May 1, 1951**

Dear Sir:-

Under the terms of your permit No. ~~21567~~ you are required to complete your diversion works on or before ~~July 6, 1951~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

Laclede, Idaho

Dear Mr. Belwood:

We are in receipt of your letter of February 9, 1951, stating that you have completed your work and wish to make the statutory proofs required to complete your water right under Permit No. 21567.

The first proof or proof of Completion of Works should be made on Form 6 enclosed, executed before a Notary Public and returned to this Department with a fee of \$5.00.

Beneficial Use Proof requires publication once a week for four consecutive weeks in a county newspaper before making proof. This notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made. The place may be at Laclede or any place convenient to you and your two witnesses, and the time should be set sufficiently far ahead to allow for the four weeks publication.

Both copies of Form 10 are to be returned to this Department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Dear Mr. Belwood:

We have your letter of May 18, 1950, in regard to obtaining a water right from Riley Creek for use in a sprinkler system, to irrigate your land.

In reply, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with regulations and instructions in regard to filing same.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.
