

State of Idaho

License and Certificate of Water Right

Water License No. 20504

Amount 0.5 second foot

Water District No. _____

Priority June 15, 1948

THIS IS TO CERTIFY that HENRY L. SAMUELS
of Samuels, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated June 15, 19 48; that Permit No. 20504
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
3/4 second foot, was issued thereunder on March 17, 19 53, showing that said works
were completed on the 11th day of February, 19 53; and that on the 30th
day of June, 19 53,

HENRY L. SAMUELS
of Samuels, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of Pack River
, ~~xxxxxxxxxxxx~~ for the purpose of irrigation and dom-
estic use, under Use Permit No. 20504 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 5191, on the 1st day of December, 19 53;

The right hereby confirmed dates from June 15, 1948;

The Points of Diversion ~~are~~ located at various points along Pack River, in
~~xxxx~~ ~~xxxx~~ ~~xxxx~~, Sec. 24, Tp. 59 N., R. 2 W., B. M. Bonner County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 0.5 cubic foot per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11.00 A. M. on the 30th day of June, 1953,
at Sandpoint County of Benner, State of Idaho, before
Mr. Reeves of Sandpoint Branch, The Idaho First National Bank, proof will be submitted of the
application to beneficial use of 3/4 cubic feet per second of the waters of Pack River
in accordance with the terms and conditions of Permit No. 20504
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are _____

Henry R. Samuels, Samuels, Idaho.

The use to which said water has been applied is Irrigation

The amount applied to beneficial use is 3/4 cu ft. per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

E $\frac{1}{2}$ SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ all of Section 24, Township 59, N. Range 2

West of Boise Meridian.

The name of the canal or ditch or other works by which said water is conducted to such place of use is _____

Portable sprinkler irrigation.

The right to take water from such works is based upon Permit No. 20504

The source of supply from which such water is diverted is Pack River

The date of priority which said user is prepared to establish is June 15th 1948

State Reclamation Engineer.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

96-2171

APPLICATION No. 28142
 PERMIT No. 20504
 DISTRICT No.

1. Name of Applicant: HENRY F. SAMUELS

Postoffice address: Samuels

County: Bonner

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources:

- (a) Cash on hand:
- (c) Bonds to be issued:

2. Quantity of water claimed: One and two-thirds (1-2/3) cubic feet per second.

3. Source of water supply: Park River which is a tributary of

4. Location of point of diversion: feet distant from the

corner of Section , T. , R. , B.M., and is in the along Section 24,
 of Section , T. 59 N. , R. 2 W. , B.M., County of Bonner

5. Water is to be used for Irrigation and domestic purposes

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
 T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet
 distant from the corner of Section , T. , R. , B.M., in the
 of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 4,800.00

8. Kind of works: Permanent supply lines and portable sprinkler lines

9. Height of dam feet; length of dam at top feet; length of dam at bottom
 feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;
 dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is Three (3) years.

13. The time required for the complete application of the water to the proposed use is Five (5) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: permit No. 20405.

Dear Sir:-

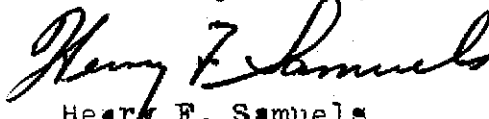

In answer to your letter of November 6, 1953, I believe that 225 gal.p.m. will be sufficient water for this initial installation. You may use this letter as my acceptance of 225 g.p.m. as the amount of water to be used under Permit No. 20404.

I now have one of the largest A. C. Bull Dozers working clearing land where I explained to you on your visit here. This should bring the cleared acreage up much higher. However I am quite satisfied with the above arrangements.

I appreciate your advice and hope that from time to time when you are in this country that you will drop in and see how this new ground is developing. I hope to move the location of the pump as per your suggestion. Plan to have a survey made of the new ground first.

I wish to thank you for your help.

Sincerely Yours,

Henry F. Samuels

RE: Permit No. 20504

Mr. Henry F. Samuels
Samuels
Idaho

Dear Mr. Samuels:

Enclosed find copies of bills submitted in your letter of September 24, 1953. These are not necessary for the file.

I went through Sandpoint and checked a map there regarding your farming land. It showed not over 25 acres being under cultivation. According to that, 225 g.p.m. is the maximum that you could receive on a license.

If you feel this is the correct amount of land I will turn in the report for regular processing.

I would have written you sooner, but have been very busy.

Very truly yours,

E. N. Humphrey
Deputy State Reclamation Engineer
Boise, Idaho.

Dear Sir:-

Regarding Permitt No. 20504.

After you left I remembered that I did not give you proof of the Horse Power of the electric motor. I am enclosing the original Bill of Sale of the motor, which I have kept for the Farm Home Loan. We have no longer any use of the receipts so please destroy them when they are no longer of value to you.

The serial numbers are Craftsman 4972 , serial 12385, model 551.1944 , type HP, H. P. 5, single phase induction reduction. This motor was originally made by Lelan Electric Co., for Sears.

If you think it advisable I will now buy a 7½ horse power motor and place it on the pump as I will need one eventually. However I am very sure that this pump will deliver 250 gal per minute with this 5 horse power motor on this set up.

I thot perhaps this information will be of aid to you.

Sincerely Yours

Residing at Sandpoint, Idaho.

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 30th day of June, 1953, at Sandpoint, County of Bonner, State of Idaho, before A. P. Reeves, Notary Public, proof will be submitted of the application to beneficial use of $\frac{1}{2}$ cubic foot per second of the waters of Pack River in accordance with the terms and conditions of Permit No. 20504, heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Henry F. Samuels, Samuels, Idaho.

The use to which said water has been applied is Irrigation.

The amount applied to beneficial use is $\frac{1}{2}$ cubic foot per second.

The place where said water is used is $\frac{1}{2}$ SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ all in Section 24, Township 59 North, Range 2 West, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Portable sprinkler irrigation.

The right to take from such works is based upon Permit No. 20504.

The source of supply from which such water is diverted is Pack River.

The date of priority which said user is prepared to establish is June 15, 1948.

RE: Permit No. 20504

Mr. Henry Samuels
Samuels
Idaho

Dear Mr. Samuels:

We acknowledge receipt of your letter of June 30, 1953, enclosing depositions of yourself and two witnesses in proof of beneficial use on Permit No. 20504.

However, the affidavit of publication is an essential part of this proof and we shall hold the depositions awaiting receipt of the affidavit.

You are correct in assuming that this will complete your proof, but before final action is taken the law requires a field inspection to be made by an engineer from this department following which inspection and the filing of his report you will be notified of the amount for which license can be issued and the amount of the license fee.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

State House,
Boise, Idaho.

Dear Sir:-

Please find enclosed 2 Deposition of Witnesses, signed and Notarized before A. P. Keesee at 11: AM June 30, 1953 and also one Deposition of Holder also signed and notarized before Mr. A. P. Keesee at 11.00 AM. June 30, 1953.

These notices have had publication in the Sandpoint News Bulletin for four previous weeks. Will send affidavit to that effect from Sandpoint News Bulletin as soon received from them.

It is my understanding that when I present the affidavit of proof of publication of notices in paper along with these paper that this completes proof of Beneficial Use of water under permit no 20504. I will ofcourse continue to use the water on irrigated fields and pastures.

Sincerely yours,

Henry F. Samuels

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20504

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Henry F. Samuels, - Samuels, Idaho. Occupation Rancher

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permitt No. 20504, June 17, 1948; June 15, 1948. date of priority

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water supply, Pack River; point of diversion is along
Section 24, Township 59 North, Range 2 West of B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Water diverted from Pack River by direct drive electrical driven centrifugal pump, through 4" portable irrigation pipe (aluminum).
Pump discharge on 6' suction lift through tubing is 300 plus gal per minute. figure taken from manufacturers certificate.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigation. NW $\frac{1}{4}$ SE $\frac{1}{4}$, 5 acres irrigated, E $\frac{1}{4}$ SW $\frac{1}{4}$
25 acres irrigated, all of Section 24, Twp. 59, North, Range 2 West ,
B. M. :Cleared, cultivated meadow land, partial leveling of land,
fencing, construction of power line for pumping. Irrection of pumping
station on Pack River. An additional 20 acres of land is in the
process of being cleared and placed into suitable land to be irrigated
along with the 30 acres irrigated now. This will make this a practical
operating unit from the standpoint of economics.

20504

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. _____

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water used from Sept. to Oct. 1952, approx. 200 gal. per min. used used on 20 acres of ground through protable alumin. tubing and sprinklers.

~~Sprinkler system reopened June 10, 1953 used once over on 20 acres. is available for all 30 acres. Summer of 1953 very wet year so far.~~

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

PERMIT NO. 20504

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Grace M. Schwartz, 70 yrs, Samuels, Ida. Housewife,
Samuels, R.R. 1, Idaho.

Ques. 2. Are you acquainted with Henry F. Samuels, the holder of Permit No. 20504? How long have you known him and where does he reside?

Ans. _____

Ques. 3. Have you read or heard read said Permit No. 20504, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of Water - "Pack River" - Place of diversion, along
Section 24, Township 59N, Range 2 West B.M. - An Electric
Driven Centrifugal pump connected To 4" Aluminum (Portable)
Sprinkler Tubing

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. $\frac{3}{4}$ second Feet. I have witnessed approx 200 To 220 gal. Per
Minute Conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Use of water - (Irrigation) Land irrigated NW $\frac{1}{4}$ SE $\frac{1}{4}$
And E $\frac{1}{2}$ SW $\frac{1}{2}$ Section 24 Twp. 59, North Range 2 West B.M.
NW $\frac{1}{4}$ SE $\frac{1}{4}$ (5 acres); E $\frac{1}{2}$ SW $\frac{1}{2}$ (25 acres) all in Sec. 24, T 59,
N. R. 2 W. B.M. Improvements Cultivated Meadow Land -
Land has been Cleared, Fenced, Electric power installed,
irrigation pumping plant installed, portable Aluminum
Tubing Available. 20 additional acres in process of Being
Cleared & added To irrigated Land.

20504

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. land Varied From Clay loam To Sandy loam all underlying with gravel Subsoil. From 280 To 300 gal. per minute (or approx $\frac{3}{4}$ Second Foot) would be required.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. June 28, 1953 - Visual inspection of Sprinkler equipment in operation. About 200 gal per minute irrigating one sprinkler line across field.

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 30th day of June, 1953,
at Sandpoint, County of Bonner, State of Idaho, before
A. P. Reeves, Notary Public, proof will be submitted of the
application to beneficial use of 3/4 cubic feet per second of the waters of Pack River
in accordance with the terms and conditions of Permit No. 20504
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are
Henry F. Samuels, Samuels, Idaho

The use to which said water has been applied is Irrigation

The amount applied to beneficial use is 3/4 cubic foot per second.

The place where said water is used (~~for irrigation, pasture and domestic consumption on the lands irrigated~~)
E¹/₄ SW¹/₄ and NW¹/₄ SE¹/₄ all in Section 24, Township 59 North, Range 2 West, B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is

Portable sprinkler irrigation

The right to take water from such works is based upon Permit No. 20504

The source of supply from which such water is diverted is Pack River

The date of priority which said user is prepared to establish is June 15, 1948.

MARK R. KULP

State Reclamation Engineer.

Dear Sir:-

In answer to your letter of May 22, 1953, and regarding publication of notice of beneficial use proof on Permit No. 20504:- Any later date will be quite satisfactory with me providing it corresponds with legal regulations. I believe that I had until June 17, 1953 to complete proof of works. In setting a later date I wish you would take this into consideration. otherwise let us set June 30, 1953 if that date will be O. K. from the legal standpoint.

I thank you for the correction.

Sincerely Yours,

Henry F. Samuels

P. S. After June 1, 1953 I will be in residence at Samuels, Idaho.

Seattle 5, Washington

Dear Mr. Samuels:

We have your letter of May 18, 1953, in regard to publication of notice of beneficial use proof on Permit No. 20504.

On checking our records we find that your form of notice was filed when we sent you Certificate of Completion of Works on March 19, 1953, entirely overlooking the fact that this was to have been sent to the Sandpoint News Bulletin in time for four weeks publication prior to June 12, 1953.

We are very sorry for this oversight and if you will set a later date, allowing for the necessary publication, we shall send a copy of the notice to the newspaper as soon as we receive your reply.

Very truly yours,

Dear Sir:-

Referring to your letter of March 5, 1953 in regards to permitt No. 20504, issued to myself, you state "will send notice for beneficial use proof to the Sandpoint News Bulletin in time for four weeks publication prior to June 12, 1953." As yet I have not seen the notice inserted in that paper. It is quite possible that an oversite on the part of the paper or an misunderstanding on my part has occurred. Will you kindly run a check on this, and inform me if I have not complied with all requirements.

I would also like to know the nature of the papers you wish myself and witnesses to certify to at notice of beneficial use as stated and to be published in Sandpoint News Bulletin.

I have just recieved a copy of May 14, 1953 News Bulletin and do not see the notice.

Please advise me, regarding this matter.

State Reclamation Engineer
Department of Reclamation
Boise, Idaho.

Dear Sir:-

Re:- Permitt No. 20504.

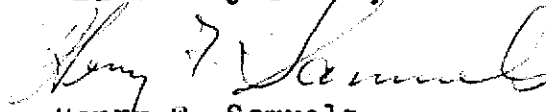

In answer to your letter of Feb. 24, 1953. I wish to state that my description of the property to be irrigated is a typeographical error and I kindly ask you to make the following corrections. The description of the land to be irrigated should read $E\frac{1}{2}$ SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ all of Sec. 24, Township 59 N. Range 2 West of Boise Meridian.

I find in reviewing my original permitt that I have listed 20 acres in the SW $\frac{1}{4}$ and 15 acres in the SE $\frac{1}{4}$ however since that time I have cleared land in these quarters and have 50 acres to be irrigated. Later there will be more. 30 acres of this land is now cleared and the rest in pasture.

I am enclosing two copies of Notice of Proof of Application of Water to Beneficial Use, together with my request to publish the same.

If I have not thus far complied with all necessary provisions regarding this water right please inform me.

Sincerely yours,

Henry F. Samuels

20504

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) March 3, 1953.

(P. O.) 7702 33 N. E. , Seattle 5, Washington.

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Sandpoint News -Bulletin of Sandpoint, Idaho. published in
the county in which the works are situated.

County of Benner

Henry F. Samuels

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

20504

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11.00 A. M. on the 30th day of June, 1953,
at Sandpoint County of Benner, State of Idaho, before
Mr. Reeves of Sandpoint Branch, The Idaho First National Bank submitted of the
application to beneficial use of 3/4 cubic feet per second of the waters of Paek River
in accordance with the terms and conditions of Permit No. 20504
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are _____

Henry F. Samuels, Samuels, Idaho.

The use to which said water has been applied is Irrigation

The amount applied to beneficial use is 3/4 cu ft. per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

E $\frac{1}{2}$ SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ all of Section 24, Township 59, N. Range 2

West of Boise Meridian.

The name of the canal or ditch or other works by which said water is conducted to such place of use is _____

Portable sprinkler irrigation.

The right to take water from such works is based upon Permit No. 20504

The source of supply from which such water is diverted is Paek River

The date of priority which said user is prepared to establish is June 17, 1948

State Reclamation Engineer.

20504

February 21, 1953

RE: Permit No. 20504

Mr. Henry F. Samuels
7702 33 N. E.
Seattle 5, Washington

Dear Mr. Samuels:

We acknowledge receipt of your letter of February 21, 1953, enclosing affidavit in proof of completion of works on Permit No. 20504, together with supporting affidavits of two witnesses.

We note that your land description is the $W\frac{1}{2}$ $SE\frac{1}{4}$ and $E\frac{1}{2}$ $SW\frac{1}{4}$ Section 24, Township 59 North, Range 2 West, B.M. Your permit describes the $NW\frac{1}{4}$ $SE\frac{1}{4}$, but does not include the $SW\frac{1}{4}$ $SE\frac{1}{4}$ which is part of the $W\frac{1}{2}$ $SE\frac{1}{4}$. If this forty is to be included, it will be necessary to amend the permit, or if this is a typographical error it can be corrected. We shall await your further advice and will be glad to send you the necessary form of application for amendment upon request.

When your proof of completion of works has been approved, Certificate of Completion of Works will be issued upon receipt of the statutory fee of \$5.00.

In order to complete the water right, proof of beneficial use must be made. This calls for publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 10 enclosed, setting time and place and naming the Notary Public before whom proof is to be made. The time, of course, should be set sufficiently far ahead to allow for the four weeks' publication and the proof may be made at any place convenient for you and your two witnesses.

Both copies of Form 10 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

Field inspection by an engineer from this department is not made until after these proofs have been submitted.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

AFFIDAVIT OF PROOF OF
COMPLETION OF WORK

STATE OF WASHINGTON)
) ss.
COUNTY OF King)

ADA M. JENKINS, being first duly sworn, upon her oath deposes and says:

1. That I am the mother of HENRY F. SAMUELS, the holder of Permit to Appropriate the Public Waters of the State of Idaho, No. 20504, and that my Post Office address is Samuels, Idaho.
2. That I was personally present and personally witnessed the installation and successful application of irrigation water to the fifty (50) acres lying within the $W\frac{1}{2}$ of SE $1/4$; and $E\frac{1}{2}$ of SW- $1/4$, all of Section 24, T 59 N R 2, West of B. M., and the installation of the pumps, tubing and sprinklers was completed on or before September 20, 1952, and that on September 20, 1952, water was turned into the sprinkler lines.
3. That I was personally present during the balance of the season and saw the sprinkler line in operation, sprinkling fields and pasture land until approximately November 8, 1952, when the system was dismantled and stored for the Winter. The water was pumped from Pack River to an elevation of 6' and delivered into a 4" sprinkler irrigation line by means of an electrically driven centrifugal pump; that the pump and sprinkler system worked in a very satisfactory manner and delivered adequate water for both sprinkler and surface irrigation.

Notary Public in and for the State of Wash-
ington, residing at Seattle
My commission expires May 9, 1955

Samuels, Idaho
Dec. 11, 1952.

State of Idaho
Department of Reclamation
Boise, Idaho.

Dear Sir:-

This is to certify that I, W. W. Schwartz of Samuels, Idaho, did witness on Dec 22, 1952 the successful application of water to a 30 acre field and surrounding pasture land situated along Pack River on the South Central par of Sec. 24 T.59 N. R. 2 W. of B. M. The above mentioned water was raised 6 feet from Pack River by means of an Electrical driven centrifugal pump and delivered for irrigation purposes through a 4" pipe making this water available for both sprinkler and surface irrigation. The land is owned by and the irrigation system was installed by Henry F. Samuels of Samuels, Idaho.

Department of Reclamation

Dear Sir:-

Please find enclosed my affidavit of proof of completion of works under irrigation permitt No. 20504 and also two witnessing affidavits of proff of completion of works.

Please note that originally I filed on 1 2/3 second feet of water but under this permitt I wish to prove completion of only 3/4 second feet of water.

At present I am living at the abevr address will return to Samuels, Idaho brfore last of April, this year. If you wish to set a dat for actual local investigation of proof of works as I believe that June 17, 1953 would be most satisfactory as that is about when I will need irrigation water this year.

Will you kindly inform me the additional procecedure in completing the proof of works. Do I filemnetice by publishing in the local Sandpoint, Idaho paper. If so for how many weeks? Please give me all necessary information to complete this proof of beneficial use of irrigation water.

Sincerely yours,

Henry F. Samuels

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

BONNER

County of

ss.

HENRY F. SAMUELS

, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. 20504, and that his postoffice address is Samuels, State of Idaho.

Second: That the name of the stream which said water is to be ~~directed~~ ^{diverted} is Pack River.

Third: That the point of diversion of said water is Along Section 24

Sec. 24, T. 59 N. R. 2 West of B. M., Bonner County, Idaho.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by June 17, 19 53.

Fifth: That the use for which said water is intended is Irrigation.

Sixth: That on the date above mentioned, the works constructed under said permit were ~~complected~~ fully completed and consisted of the following:

I. Kind of works: Sprinkler irrigation, pumps and tubing

(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam feet, length of dam at top feet, length of dam at bottom feet. Material used in construction

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir acre feet.

(c) Size of headgate: Width feet, height feet.

(d) Conduit width at bottom feet, width at water line

(State whether ditch, flume or pipe)

feet, depth of water feet; diameter of pipe 4 inches, average grade per mile is feet. Length of conduit is 1/5 miles.

Seventh: That said works are capable of conducting to the place of intended use 3/4 second feet of water. or 337 gal per minute. 50 acres

Eighth: That water appropriated under said permit is available for lying within NW 1/4 of SE 1/4 and E 1/4 of SW 1/4, all of Section 24, T 59 N. Rn. 2 West of Boise Meridian.

Ninth: Remarks: That I state that the above system of sprinkler irrigation was installen as of September 20, 1952 and was in use the balance of the season (1952) until Nov. 8th when system was dismantaled and stered for minter. An electrical driven centrifugal pump is used to raise the water.

Re: Permit No. 20504

Mr. Henry F. Samuels
4109 Beach Drive
Seattle 6, Washington

Dear Mr. Samuels:

We acknowledge receipt of your Application for Extension of Time for Completion of Works under Permit No. 20504 and note the conditions which make it impossible for you to complete the works by June 17, 1951.

Since the Statutes allow a maximum of five years within which to make proof of completion of works, an extension will be allowed to June 17, 1953 and we enclose the State Reclamation Engineer's approval of such extension, which should be attached to your original Permit of which it now forms a part.

You understand, of course, that this proof may be made at any earlier date that the works are completed.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

March 5, 1951

State of Idaho
Department of Reclamation
Boise, Idaho

Dear Sirs:

Regarding Permit 20504 for the division of 1-2/3 cubic feet per second for Pack River, to Section 24 Twp 59 N. R. 2 West of B. M., Bonner County, Idaho.

I respectfully request an extension of time to file Proof of Completion of Works. As of now, proof to be submitted on or before June 17, 1951. I need an extension of time for final proof to July 30, 1951, for the following reasons:

1. Due to rainfall of the locality, the water will not be needed for irrigation until after July 10th.

2. Power line was not completed until late last fall delaying work last year.

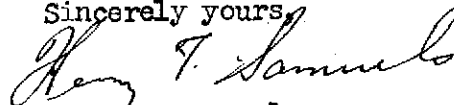

3. Having difficulty getting aluminum pipe as National Defense came first. Order for tubing on file.

I have already purchased a 400 gallons per minute electric pump and motor. I am trying to locate all pipe needed. If not able to, will build wooden flume to take its place.

Will you kindly grant me an extension of time for final proof of completion of works on Permit No. 20504 to July 30, 1951.

I find I am not financially able to complete all of my original plans so this installation will use only 400 gallons per minute which is the amount I wish to prove use of at this July 30, 1951 date.

Sincerely yours,

Henry F. Samuels

Mr. Henry F. Samuels
944 11th Avenue N.
Seattle 2, Washington

Dear Mr. Samuels:

We are in receipt of your letter of April 10, enclosing a letter from Mr. C. Gerald Mott, in regard to electric service in connection with your Permit No. 20504, which we return herewith.

We do not quite understand your request for a years extension, or until August, 1950, to complete construction and supply Proof of Completion of Works. Your Permit states that Proof of Completion of Works will be due on or before June 17, 1951, and therefore, no extension is necessary at the present time.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mark R. Kuap
State Reclamation Engineer
Boise, Idaho.

Dear Sir:-

Regarding permitt no. 20504 , book 74, issued on Sec. 24 T. 59 N.,
Range 2 West of Boise Meridian:-

I am enclosing a letter from C. Geral Mott, Manager of the Northern Idaho Rural Electrical R. Association. Mr Mott advises me that he will not be able to build the electrical power line down to my ranch this year in time to use on the sprinkler irrigation system. Since my irrigation , spray , system is dependent upon electrical power, I would like to request extension of the time of y one year before preliminary completion of the sprinkler system. I have already begun the ditches necessary for the first installation. I will continue this work and place a permanent concrete base for the pump, as well as purchase at least 10 sprinklers. However it is not economically possible for me to purchase a gas driven pump just for the one season.

May I have one more years time or until August, 1950 to complete the preliminary installation and supply proof of completion of same.

Sincerely yours,

Henry F. Samuels

Samuel, Idaho.
June 12 1948

Dear Sir:-

Please find enclosed a money order for \$5.25. as filing fee for permit to use water for irrigation.

To clarify this proposed spray irrigation system, I have enclosed some sketch maps. While these maps are not an accurate survey of the property, they have been taken from known corners (surveyed) and available County & U. S. Soil Survey maps, and should be reasonably accurate for the purpose.

This project is for portable spray irrigation. The source of water supply will be from Rock

20509

River at various convenient places as it
flows through Sec. 24, T 59 N. R. 2 W. 1 D B.M.
I would like to begin construction in the
summer of 1949.

I respectfully submit this application for
use of water for irrigation and stand by
to supply you with any additional information
you may think advisable.

Sincerely Yours,

Henry F. Samuels.

Notice for Publication
**NOTICE OF PROPOSED APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at 11:00 A. M. on the 30th day of June, 1953, at Sandpoint, County of Bonner, State of Idaho, before A. P. Reeves, Notary Public, proof will be submitted of the application to beneficial use of $\frac{1}{2}$ cubic feet per second of the waters of Pack River in accordance with the terms and conditions of Permit No. 20504 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Henry F. Samuels, Samuels, Idaho.

The use to which said water has been applied is Irrigation.

The amount applied to beneficial use is $\frac{1}{2}$ cubic foot per second.

The place where said water is used is E $\frac{1}{2}$ SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ all in Section 24, Township 59 North, Range 2 West, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Portable sprinkler irrigation.

The right to take from such works is based upon Permit No. 20504.

The source of supply from which such water is diverted is Pack River.

The date of priority which said user is prepared to establish is June 15, 1948.

MARK R. KULP,
State Reclamation Engineer
