Dear Sirs;

According to our records water right permit #19859 has been completed on land in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$ AND SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 28, Township 56 N, R3 W. The Certificate of Completion of Works was issued Sept. 14, 1951 by Mark Kulp, State Reclamation Eng. authorizing the diversion of one cubic feet per second from Cocalalla Creek.

I have no record of the field examination mentioned in the letter of October 30, 1951 or the final water liscence issued.

Can you give me the information?

Sincerely,

Floyd W. Innes

Remarks: No. 1 take-out is the only one taking out of the creek. 2 and 3 take-outs are taking out in overflow or back water periods- in other times of the year is meadow- therefore we did not mark them in the first map, thinking it not necessary. The shaded parts on the map is what is going to be irrigated, or can be irrigated. It may be several years before we irrigate more than 10 or 12 acres - It is new to us. We have 800 feet of main pipe (3 ins.) and 240 feet of lateral pipe.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 19859

Comes now A. G. Irish and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 19859.

That the point of diversion is described in said permit as being located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 28, Twp. 56 North, Range 3 West, B.M.

That he now requests that the point of diversion be changed to 2 points located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 28, Twp. 56 N. R. 3 West, B.M.

That his reasons for desiring to make such change are as follows: An error was made in the original filing.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Sagle, Idaho, this 8. day of September, 1952.

Dear Mr. Irish:

Upon return to this office, I have checked regarding the best method for getting license on additional water that you will use when you complete your system.

It will be possible to make a supplemental proof under this same permit up to a total of one cubic foot per second or 50 inches of water on lands that are included in this permit which are the NW $\frac{1}{4}$ NE $\frac{1}{4}$ and the SE NE $\frac{1}{4}$ of Section 28, Township 56 North, Range 3 West, B.M.

The supplemental proof will not have the same priority as the license that will be issued on the 22 acres covered in the inspection which I made in company with you the other day. The priority will be later and the difference will depend upon when you make your final proof.

If this does not fully answer your questions, do not hesitate to write us regarding this.

We acknowledge receipt of the affidavit of publication in the Sandpoint News-Bulletin which, with the depositions previously submitted complete your proof of beneficial use under Permit No. 19859.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

We return the receipted bill for the publication which no doubt, you will wish to keep in your own files.

Idaho

Dear Mr. Irish:

We are in receipt of your letter of August 14, 1951, enclosing depositions of yourself and two witnesses in proof of completion of works on Permit No. 19859, as required under the terms of said permit.

The permit will therefore be reinstated, and certificate of completion of works issued upon receipt of the statutory fee of \$5.00.

In order to make proof of beneficial use, the law requires publication once a week in a county newspaper. This notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof will be made. The time, of course, should be set sufficiently far ahead to allow for the four weeks publication, and the proof may be made at any place convenient for you and your two witnesses.

Both copies of Form 10 are to be returned to this department, together with Form 11, which is your authorization for us to have the notice published in the designated county newspaper at your expense. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Re: Permit No. 19859

Mr. A. G. Irish
Sagle, Idaho

Dear Mr. Irish:

We have your letter of July 21, 1951, in reply to Notice that Permit No. 19859 was held for cancellation for failure to make Proof of Completion of Works on or before September 27, 1946, as required under the terms of the Permit.

You doubtless did not understand the steps necessary to complete a water right. Permit No. 19859 is the first step, but in order to complete the water right, two proofs are required.

First, Proof of Completion of Works when the works described in the application are completed, and second, the Proof of Beneficial Use when the water has been completely applied to the beneficial use for which it is claimed.

The time required for making these two proofs is stated on the fourth page of this Permit, from which you will note that Proof of Completion of Works was due on or before September 27, 1946.

This Permit may be reinstated by submitting the enclosed forms of deposition, executed by yourself and two witnesses before a Notary Public, describing the works and stating that they were completed on or before September 27, 1946. Upon receipt and approval of these proofs, a Certificate of Completion of Works will be issued upon payment of the statutory fee of \$5.00.

When this has been done, you may proceed to make your Proof of Beneficial Use. This requires publication once a week for four consecutive weeks in a county newspaper, and we shall be glad to furnish the necessary forms upon request.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 19859

To: Mr. A. G. Irish

Sagle, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. 19859 to appropriate the Public Waters of the State of Idaho, have not been complied with as to

Completion of work September 27, 1946

you are hereby notified in compliance with Sec. 42-311, Idaho Code annotated that said Permit No. 19859 is hereby held for cancellation.

You are hereby required to show cause before the State Reclamation Engineer on or before forty days from date of this notice why said Permit should not be cancelled.

Said Permit No. 19859 claims the use of one cubic feet per second of the waters of Cocolalla Creek with point of diversion located in the SW 1/4 NE 1/4 Section 28, Township 56 North, Range 3 West, B. M. and was approved June 27, 1946.

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the 28th day of June 1951

Dear Mr. Irish:

We acknowledge receipt of your application for permit to appropriate one second foot of water from Cocolalla Creek.

However, we cannot quite reconcile the land description in Question 14, with the sketch map. You describe 10 acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, 4 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, and 26 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 28, Township 56 North, Range 3 West, B.M.; but with the point of diversion as shown in the sketch map, in the Northeast corner of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of this section, there would not seem to be that much land in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ that could be irrigated.

We are returning both the application and the sketch map, and will ask that you kindly cross-hatch or color in the land to be irrigated. We are enclosing another blank form of map, in case you may wish to make a new one. This should show plainly the point of diversion, the course of the pipe line, and the lands to be irrigated.

Also under Question 11 of the application, please give the approximate length of the pipe line.

The filing fee on this application amounts to \$5.00, which should accompany the application.

Very truly yours,
