Notice is hereby given that at 11:00  
A. M. on the 9th day of March, 1956, at  
Sandpoint, County of Bonner, State of  
Idaho, before A. P. Reeves, Notary  
Public, proof will be submitted of the  
application to beneficial use of one  
cubic foot per second of the waters  
of Cocolalla Lake in accordance with  
the terms and conditions of Permit No.  
19783 heretofore issued by the Depart-  
ment of Reclamation of the State of  
Idaho.

The name and postoffice address  
of the person or corporation holding  
said permit are Lloyd P. Hatcher, Route  
No. 1, Sagle, Idaho.

The use to which said water has been  
applied is irrigation.

The amount applied to beneficial use  
is one second foot.

The place where said water is used:

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 19783. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than March 23, 1956, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Segle, Idaho

Dear Mr. Hatcher:

Your request for withdrawal of beneficial use proof made on Permit No. 19783 has been approved by the State Reclamation Engineer and we also return your application for amendment to the land list which has been approved and recorded in this department.

Since, under the terms of your permit, beneficial use proof is not required until March 23, 1956, an application for extension of time for making this proof is not necessary. However, this proof may be made at any time convenient for you after you have completely irrigated the lands upon which the water is to be applied.

Dear Sir:

Due to a mistake in the land list under permit No. 19783 I would like permission to withdraw the Beneficial Use Proof that was made. Then if possible I would like an extension of time, in order to get more of the land under irrigation, and permission to amend the land list to include all of the land we are irrigating and intended to include in the permit. No additional water is being asked for.

Yours truly,

Dear Mr. Hatcher:

All that is necessary in withdrawing a beneficial use proof is a letter to this Department requesting withdrawal and stating the reason for so doing. The amendment of place of use should then be made on a form furnished by this office.

I will be north again probably in August and will call on you if I am in your neighborhood.

E. M. Humphrey, Engineer.

Dear Sir:- I received your letter of June 8, in which you advised that it would be better for me to withdraw the Proof of Beneficial Use which I made this spring on Permit #19783.

Being unable to find anyone here who can tell me what action to take in doing this I am writing you to ask for this information, if forms are necessary to file with the Department would you please have them sent from that Department of Reclamation office.

Also, would you advise me at what time it will be necessary for me to file an amendment which will include all of the land which I may be irrigating from this source by the spring of 1956.

Thank you.

Mr. Lloyd P. Hatcher  
Route 1

Dear Mr. Hatcher:

Since returning to the office, I have checked regarding your Permit No. 19783 and find that you have ample time to complete your irrigation system before it is necessary to bring it to License, or until the spring of 1956.

I believe that it would be cheaper and best for you to withdraw your Proof of Beneficial Use that you made recently, then amend your place of use by including land in the other 40 acre subdivisions which you are irrigating or will be by that time, then as soon as you have your system completed and all land being irrigated that you intend to irrigate under this Permit, which must be by the spring of 1956, make your Beneficial Use Proof.

By doing this, the cost will be approximately the same that it would be any other way you choose, or even less.

Your priority right will remain the same as you first intended and you will have all of your irrigation covered by one License.

We enclose herewith a form for making amendment to your Permit.

Dear Mr. Hatcher:

We acknowledge receipt of your letter of February 20, 1951, enclosing corrected depositions of yourself and two witnesses in proof of Beneficial use under Permit No. 19783.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Very truly yours,

Re: Permit No. 19783.

Mr Mark R. Kulp.  
Boise, Idaho.

Dear Sir, I am in receipt of your letter dated February, 13, 1951, enclosing three depositions for correction.

I have taken all of these depositions before my Notary Public, Alex T. Russell and corrected them accordingly.

I have corrected my own Deposition as you have instructed in Paragraph two of this letter.

Mr Russell has corrected Question 7 of the two witnesses depositions as you have instructed in paragraph three of your letter dated February, 13, 1951.

Hoping that this will meet with your approval, I shall await further instruction.

Very truly yours, 19783

Dear Mr. Hatcher:

We are in receipt of a letter from Mr. Dale R. Sanner, County Supervisor, F.H.A., enclosing depositions of yourself and two witnesses, also Affidavit of Publication in the Sandpoint News-Bulletin, all submitted in Proof of Beneficial Use under your Permit No. 19783.

Question 6 of your own deposition describes the place of use as 22 acres in the NW $\frac{1}{4}$  SW $\frac{1}{4}$  and 14 acres in the NW $\frac{1}{4}$  of Section 5, Township 55 North, Range 2 West, B.M. The 14 acres should be located more definitely as to what part of the NW $\frac{1}{4}$ , which the Permit describes as the SW $\frac{1}{4}$  NW $\frac{1}{4}$ .

Question 7 of the two witnesses describes the land as in the NW $\frac{1}{4}$  Section Section 5, whereas, as stated above, the Permit describes it in the NW $\frac{1}{4}$  SW $\frac{1}{4}$  and SW $\frac{1}{4}$  NW $\frac{1}{4}$  of said Section.

The depositions are returned herewith for correction, and we also return the receipted bill for the publication, which no doubt you will wish to keep in your own files.

After these corrected depositions have been received, and approved, no final action can be taken until a field examination is made by an Engineer from this Department, as required by Statute.

Dear Sirs:

In August 1947 the Farmers Home Administration financed Mr. Lloyd Hatcher for the purpose of installing a sprinkler irrigation system. He has used this system since that date for irrigation purposes.

The source of water supply is cocolalla Lake. The number of acres irrigated is approximately 27.

It is our recommendation that Mr. Hatcher be issued a permit to use one cubic foot of water per second for irrigation purposes. Proof of beneficial use has definitely been established.

Sincerely yours,

Dear Sir,

Received your letter of Dec, 15, 1950 with reference to an error in Proof of Completion of Works form under this Permit.

Yes, I have made some change in the acreage under irrigation since date of application for use permit.

Since then I have bought the 20 acres joining the pump location, or point of diversion, ~~with~~ which lies in the N.W.  $\frac{1}{4}$  of the S.W.  $\frac{1}{4}$  of Section 5, Township 35 N, Range 2 W, B.M. Re: Permit No. 19783

Mr. Lloyd P. Hatcher  
Rt. 1  
Segle, Idaho

Dear Mr. Hatcher:

We acknowledge receipt of your deposition in Proof of Completion of Works under Permit No. 19783, accompanied by your check for the \$5.00 fee; also Notice of Beneficial Use Proof to be made under this Permit on February 8, 1951, and authorization to publish in the Sandpoint News-Bulletin.

However, your deposition describes the land to be irrigated as 34 acres in the NW $\frac{1}{4}$  SW $\frac{1}{4}$  and SW $\frac{1}{4}$  NW $\frac{1}{4}$  of Section 5, Township 55 North, Range 2 West, B.M. Your Permit describes the NE $\frac{1}{4}$  NW $\frac{1}{4}$ , SW $\frac{1}{4}$  NW $\frac{1}{4}$  and SE $\frac{1}{4}$  NW $\frac{1}{4}$  of said section, but nothing in the NW $\frac{1}{4}$  SW $\frac{1}{4}$  of this Section. Please advise if there has been a change in the place of use, and if so, we will send you the necessary form of application for amendment.

Very truly yours,

MARK R. KULP

Re: Permit No. 19783

Mr. Lloyd P. Hatcher  
Sagle, Idaho

Dear Mr. Hatcher:

Reference is made to your letter of November 24, 1950, in regard to proofs on your Permit No. 19783.

It is not important to have your works comply exactly with the specifications stated in your Permit. We enclose a form of affidavit for making Proof of Completion of Works in which you may describe the works as completed, have the affidavit notarized and return to this Department with the statutory fee of \$5.00.

In order to make your Proof of Beneficial Use, the law requires that a notice be published in a county newspaper once a week for four consecutive weeks prior to the date set for making proof. This notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made. The time, of course, should be set sufficiently far ahead to allow for the four weeks publication and the proof may be made at Sagle or any place convenient for you and your two witnesses.

Both copies of Form 10 to be returned to this Department, together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Very truly yours,

Dear Sir: In reference to  
water use Permit No. 19783.

I understand it is in  
order to make proof of  
completion of works.

I have laid the pipe line,  
installed the pump and motor  
and used the water from  
this source the last season.

I have found it to my  
advantage to make a few minor  
changes in the system from the  
application plans.

19783

If these changes are needed in detail as proof of completion please let me know with instructions and I will be glad to co-operate accordingly.

If it is in order at this time I would as soon complete the water right by making the proof of beneficial use.

Please instruct me as to this matter.

Very truly yours,

Lloyd F. Hatcher

Dear Mr. Hatcher:

In reply to your letter of February 28, 1950,  
inquiring as to the status of Permit No. 19783:

Our records show that this Permit was approved  
March 23, 1946, and Proof of Completion of Works is not  
due until March 23, 1951. The Permit is therefore in  
good standing at the present time.

Dear Mr. Hatcher:

We enclose Amendment to the land list described in Permit No. 19783, which has been approved by the State Reclamation Engineer and duly recorded.

We also enclose Certificate of Completion of Works issued under this Permit for the diversion of one (1) second foot of water from Cocolalla Lake, with point of diversion in the NW<sup>1</sup> SW<sup>1</sup> Section 5, Township 55 North, Range 2 West, B.M., for the irrigation of land in the SW<sup>1</sup> NW<sup>1</sup> and NW<sup>1</sup> SW<sup>1</sup> of said Section.

We also enclose Departmental Receipt No. 22909 for the \$5.00 fee paid in connection with this proof.

We have sent the Sandpoint News-Bulletin, copy of Notice of Beneficial Use Proof to be made under this Permit on February 8, 1951, with instructions to publish it once a week for four consecutive weeks prior to that date and to send you the Affidavit of Publication, together with statement of costs.

We shall send Mr. Alex T. Russell, County Recorder, the necessary forms of deposition for making this proof, consisting of one for yourself and one for each of two witnesses, and at the time set, you should appear before him together with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder, for the purpose of executing same.

Dear Mr. Hatcher:

We are in receipt of your letter of February 19th, in regard to filing on water from Cocolalla Lake for use in a sprinkler irrigation system which you wish to install on your farm.

We enclose a form of application for your use, and also a pamphlet giving regulations and instructions in regard to filing same. This is the first step in securing a water right, and since the license when finally issued cannot cover more land than is included in the application, you should cover the maximum amount of land that you expect to irrigate from this source.

When this application is approved, it will be returned to you as a use permit, under which you may proceed with the construction of the works described as necessary to divert and conduct the water to the place of use.

When these works have been completed, you may make proof of completion, and a certificate of completion of works will be issued. Question 12 of the application designates the time you will require in order to complete the works and make such proof.

The last step is the proof of beneficial use, which is made after the water has been applied to all the land on which you expect to use it. In order to make this proof a notice is first published once a week for four consecutive weeks in a county newspaper; and then, on the date set for proof depositions are executed by yourself and two witnesses before a Notary Public.

A field examination is then made by an engineer from this department, and when his report is made a license may be issued in accordance therewith—thus completing the water right.

Dear Sirs:-

I am planning to install a sprinkler irrigation system on my farm here and want to know if and how I can get a water right to use the water from Cocolalla lake for this purpose. My county AAA. chairman told me it would be necessary to make this arrangement.

This property is located in the N.W.  $\frac{1}{4}$  Sec. 5. Twp. 55. N Range 2 W.B. M. in Bonner county and now there is approximately 33. acres in crop that I would plan to irrigate.

About 20 acres more to clear and improve.

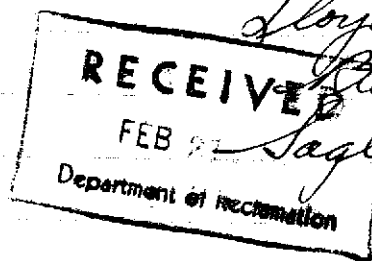

19783

I would appreciate it if you would inform me of any additional information needed on the matter, and if it is needed mail me an application to fill in so that I can get the water right.

As I have a chance now to contact a cost and survey engineer in the near future I would greatly appreciate a reply in this matter at your earliest convenience.

Respectfully yours,

Lloyd P. Hatcher.
