Dear Mr. Dale:

We acknowledge receipt of your letter of April 19, 1949, returning corrected depositions of yourself and two witnesses, in Proof of Beneficial Use under your Permit No. 19780.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolson, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Re: Permit No. 19780

Mr. Archie E. Dale
Rt. 1
Segle, Idaho

Dear Mr. Dale:

We acknowledge receipt of the depositions of yourself and two witnesses and also Affidavit of Publication in the Sandpoint News-Bulletin, all submitted in Proof of Beneficial Use under your Permit No. 19780.

However, we find it necessary to return these depositions for correction, as follows:

1. Question 5 in your own deposition should describe the works of diversion which the Permit gives as a pump and sprinkler system, and question 6 should describe the land where the water is used, with the acreage that has been irrigated in each subdivision.
2. The depositions of your witnesses should also describe the land irrigated, under question 6 and should also more fully answer question 10 as to the amount of water that they have seen applied to beneficial use.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 19780

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On April 2, 1949, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Sandpoint, Idaho before Carl R. Tifft, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

Re: Permit No. 19780

Mr. Archie F. Dale
Sagle, Idaho

Dear Mr. Dale:

In accordance with your letter of February 19, we have completed the notice of Beneficial Use Proof to be made under Permit No. 19780 at 10:00 A.M., April 2, 1949, before Carl R. Tifft, Notary Public, at Sandpoint, Idaho.

We have had to change the notice, as to date of priority, to March 31, 1946 instead of March 7, 1946, as the proof is 24 days past due, and the law requires that in such a case, the priority must be that much later.

A copy of the notice has been sent to the Sandpoint News-Bulletin with instructions to publish it once a week for four consecutive weeks, prior to April 2, and to send you the Affidavit of Publication, together with statement of costs.

About ten days prior to the date, we shall send Mr. Tifft the necessary forms of deposition, consisting of one for yourself and one for each of two witnesses, so that he may have them in ample time for the proof.

At the time set, you should appear before the Notary Public, together with two disinterested witnesses who are familiar with the terms of your Permit and the work done thereunder, for the purpose of executing the depositions.

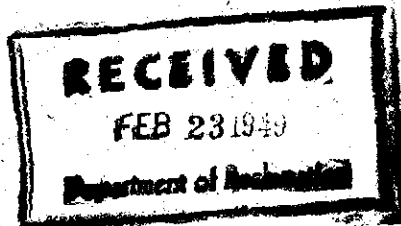

Very truly yours,

Dear Mr. Dale:

We enclose Certificate of Completion of Works issued under Permit No. 19780, for the diversion of 0.8 second foot of water from Cocolalla Lake, with point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 8, Township 55 North, Range 2 West, B. M., for irrigation and farm use on the W $\frac{1}{2}$ NW $\frac{1}{4}$ of said section. We also enclose Departmental Receipt No. 21251 for the \$5.00 fee paid by you in connection with Completion of Works proof.

In your notice of Proof of Beneficial Use, you failed to state the time and place when this proof would be made and the name of the Notary Public. This may be made at any place convenient to you and your two witnesses and the time should be set sufficiently far ahead to allow for the statutory four weeks publication.

Please let us have this information. We shall then complete the notice and send a copy to the Sandpoint News-Bulletin for publication.

Dear Sir:

Under the terms of your permit No. 19780 you are required to complete your diversion works and make proof of beneficial use on or before March 9, 1949.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public of Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is March 9, 1949, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Dear Mr. Dale:

It will be necessary for you to secure a permit if you wish to take water from Cocolalla Lake for irrigation purposes, and we enclose a form of application for your use, together with regulations and instructions in regard to filing same.

You state that you expect to irrigate a ten acre tract now, and then add to it later. Your application should cover the maximum use that you expect to make of the water, for which you may be allowed up to an inch to the acre.

When the application is approved, it will be returned to you as a use permit, under which you may proceed with the construction of the works described as necessary to divert and conduct the water to the place of use. When these works have been completed, you may make proof of such completion, and a Certificate of completion of works is issued. The time you will require for this is set out in Question 12 of the application.

When the water has been completely applied to the beneficial use for which it is intended, proof of beneficial use is made. In order to make this proof a notice is first published in the county newspaper once a week for four consecutive weeks, that on a certain day you will make such proof. On the date set the proof is made by deposit ions of yourself and two witnesses before a Notary Public.

A field examination is then made by an engineer from this department, and when his report is made, a license may be issued in accordance therewith thus completing the water right.

Dear Sir:

I have a small farm which adjoins the north end of Cocolalla Lake in Bonner County, Idaho. I am desirous of irrigating at least part of this tract by pumping water from the lake and applying it to the land by means of a sprinkler system. I should like to use from 75 to 150 gallons per minute during the dry part of the summer.

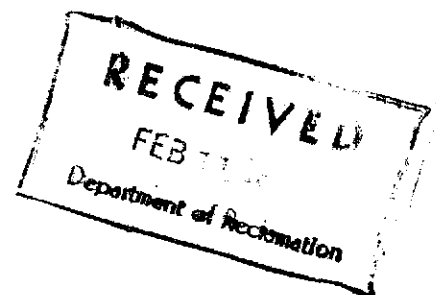

Will you kindly advise if a permit is necessary for this purpose and if so, just what must be done in order to secure one?

I am enclosing a small sketch of the exact location of the lake and the territory I should like to irrigate. To begin with, we will use an electric pump and irrigate a ten acre tract. Pipes will be put in so as to add to this acreage as I find practical.

Very truly yours,

Archie E. Dale.
