Re: Permit No. 19759

Mr. Peter M. Thom
Hope, Idaho

Dear Mr. Thom:

In reply to your letter of March 19th:

We regret that we are limited by statute to one cubic foot per second to each fifty acres of land irrigated, both in the application for permit and in the issuing of licenses.

The amount of the appropriation is measured at the point of diversion from the public stream.

Examination of your appropriation showed 14 acres irrigated, or 0.28 of a second foot allowable, and .02 was added for domestic use.

Your situation is quite common, and similar protests are quite frequent, but under the statutes and court decisions they are all treated the same, and limited to the statutory amount, as yours has been.

Very truly yours,

MARK R. KULP

Re: Permit No. 19759

Department of Reclamation
Boise, Idaho

Dear Sir:

On re-reading your letter of March 13, 1947, there is a decided difference on what you are granting us and what we have asked for.

In the first place, we asked for 1.5 of a second foot of water to irrigate 17 acres of land in the SW $\frac{1}{4}$, NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 35, Township 57 North, Range 1 East, B. M. This was as asked in the old original application for permit to use this water.

In corresponding with you, you have cut us down to .35 of a second foot of water from Strong Creek.

In the last letter you wrote us, you have cut us down again to 0.3 of a second foot of water to irrigate 14 acres.

All this water is supposed to come to us through an open ditch as described in our Application for Permit to use of this water. Now, the way we see this, 0.3 of a second foot of water from Strong Creek, will not even get down to the ~~xxx~~ land to be irrigated, through an open ditch. It will all be used up in the ditch before it reaches the land.

Will you please check your letter and your papers, and see if this is the right interpretation that we have of this water business.

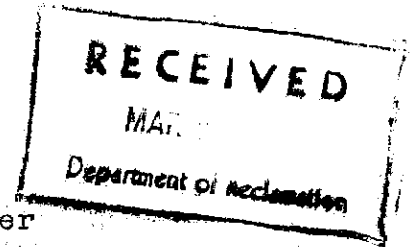

Yours truly,

Peter M. Thom

Dear Mr. Thom:

We now have on file the report of our Field Engineer upon examination for Beneficial Use under your Permit No. 19759.

This report shows that you are irrigating 14 acres of land in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 35, Township 57 North, Range 1 East, B. M.

Therefore upon receipt of the statutory fee of \$4.00 a license will be issued for 0.3 of a second foot of water from Strong Creek.

Dear Mr. Thom:

We acknowledge receipt of the affidavit of publication from the Sandpoint Bulletin, which together with the depositions of yourself and two witnesses previously received, completes your proof of beneficial use under the above numbered permit.

Before final action can be taken in the matter, however, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this Department, will try to contact you at the time he makes the examination, so that you may arrange to show him over the grounds.

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, April 20, 1946

Re: Permit No. 19759
Peter Thom

Mr. Alex T. Russell,
County Auditor,
Sandpoint, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. ~~19759~~-----

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On ~~April 30, 1946~~-----, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at-----
~~Sandpoint, Idaho~~----- before ~~Alex T. Russell, County Auditor~~-----

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

Mr. A. L. Pringle

Dear Mr. Pringle:

In reply to your letter of April 8th:

The Village of East Hope is the record owner of License No. 8276, for two (2) cubic feet per second of the waters of Strong Creek, with priority date of June 4, 1924.

The claim of Peter M. Thom under Permit No. 19759 has a priority date of February 2, 1946, and must necessarily be inferior to the earlier licenses, but will be superior to future appropriations.

Mr. Mark R Kulp
Boise, Idaho

Dear Sir:

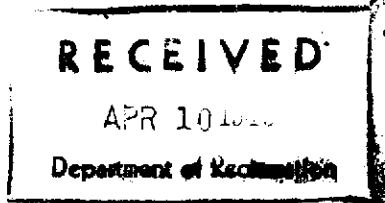

I am enclosing notice of application for water on Strong Creek.

The village of East Hope have most funds on hand to build a new concrete dam, and plan on building this dam some time during 1946. They also plan on a larger pipeline out of the dam, which could take most of the water during the dry season.

Will this have any effect as to amount of water that can be taken from new dam by East Hope, or will this party have to get his 0.35 cubic feet per second after the new dam and pipe line is installed.

I am not opposed to this application in any way, providing it does not effect the future water supply for the village of East Hope.

I would appreciate an early reply

Yours respectfully
D L Thingle

Re: Permit No. 19759

Mr. Peter Thom
Hope, Idaho

Dear Mr. Thom:

We acknowledge receipt of duplicate notice of your intention to make beneficial use under the above numbered permit on April 30th, and your authorization to have same published in the Sandpoint Bulletin.

We have had to change this notice a little, and enclose a copy of the notice which we are today sending to the newspaper, with instructions to publish it once a week for four consecutive weeks, and to send you the affidavit of publication, together with bill for publication cost.

We call your attention, however, to the fact that you have not yet made your proof of completion of works, the form for which was sent you in office letter addressed you on February 19th. In case this has been misplaced, we are enclosing another Form 6 herewith. This should be executed before a Notary Public, or other officer authorized by law to administer oaths, and returned to this Department with the statutory fee of \$5.00, upon receipt and approval of which a certificate of completion of works will be issued.

About ten days before the date set for your beneficial use proof we shall send to Mr. Alex T. Russell, County Auditor, forms of deposition for yourself and two witnesses, so that he may have them in ample time for the proof.

At the time set you should appear at Mr. Russell's office, together with two disinterested witnesses, who are familiar with the terms of your permit, and what has been done thereunder, for the purpose of executing the depositions.

Very truly yours,

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10.00 A. M. on the 30 day of April, 1946,
at County Auditors Office County of Bonner, State of Idaho, before
Alex T. Russell, proof will be submitted of the
application to beneficial use of .35 cubic feet per second of the waters of STRONG CREEK
in accordance with the terms and conditions of Permit No. 19759

heretofore issued by the STATE RECLAMATION ENGINEER of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are

PETER E. THOM, HOPE, IDAHO

The use to which said water has been applied is IRRIGATION AND DOMESTIC

The amount applied to beneficial use is .35 CUBIC FEET PER SECOND.

The place where said water is used (if for irrigation, give full and accurate description of the
lands irrigated) 296 feet distant from the N.E. corner of Section 35 T 57N
Range 1E R.M. and is in the NE $\frac{1}{4}$ - NE $\frac{1}{4}$ of Sec 35 T. 57N R. 1E B.M.
County of Bonner and is about 50 Ft. below the intake dam of the Village of
Hope, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of
use is DITCH AND SHORT SECTIONS OF FLUME

The right to take water from such works is based upon Permit No. 19759

The source of supply from which such water is diverted is WATER TO BE TAKEN FROM
OVERFLOW OF CITY DAM.

The date of priority which said user is prepared to establish is FEB. 15, 1946

State Reclamation Engineer.

19759

February 19, 1946

Mr. Peter M. Thom
Hope, Idaho

Dear Mr. Thom:

We enclose herewith Permit No. 19759, which you will note has been reduced to 0.35 of a second foot of water, from Strong Creek, since the statutes allow a maximum of one inch per acre, and your application only describes 17 acres of land to be irrigated.

We also enclose Departmental Receipt # 19307 for the \$5.25 filing fee paid by you.

Your attention is directed to the limitations and conditions of this permit, as given on the fourth page, which requires that the proofs of completion of works and beneficial use shall be made on or before May 15, 1946.

Your application states that no time will be required for making these proofs, but we have allowed three months time, or until May 15th.

The first or completion of works proof is made by executing the enclosed Affidavit (Form No. 6) before a Notary Public, and returning to this office, with the statutory fee of \$5.00; and upon receipt and approval, a Certificate of Completion of Works will be issued and sent you.

The proof of beneficial use must be advertised for four consecutive weeks- once each week- in your county newspaper. Notice should be made out in duplicate, on Form 10 enclosed- setting the date sufficiently far ahead to allow for the four publications- naming the time and place, and designating a Notary Public, or other officer authorized by law to administer oaths, before whom the proof is to be made.

Both copies of the notice are to be returned to this Department, together with Form No. 11, which is your authorization for us to have the notice published at your expense in the designated newspaper.

When this proof has been made, by yourself and two witnesses, and an examination of the project made by a Field Engineer from this Department, a license can be issued, thus completing and confirming your water right.

Very truly yours,
