Dear Mr. Tyson:

Reference is made to your letter in regard to filings on a creek running through your property in Bonner County, Idaho.

The records in this Department show Permit No. ¹⁹⁶³⁶~~12268~~ in the name of Ben Ewen filed May 2, 1945, for 25 inches of water from an unnamed stream diverted from four different points in the NW¹/₄, Sec. 20, Twp. 54 N., Rge. 2 W., B.M. for irrigation of 25 acres in the W¹/₂ of this same Section.

Completion of works proof has been made under this Permit, also proof of beneficial use which was made May 22, 1948, after being advertised four times in the Bendpoint News Bulletin.

We note your statement that water from this stream has been used by a former owner to irrigate your land; and if the water has been so used continually over a period of years it is possible that such a right could be established by proving such use through the District Court as the State recognizes a use right as well as a right acquired by the permit method.

On the other hand if you wish to file for water remaining in the stream after Mr. Ewen's right has been filled, we will be glad to send you the necessary forms of application but the priority established under such filing would be the date the application is filed in this Department.

Very truly yours,

Dear Mr. Tyson:

Reference is made to your letter in regard to filings

Completion of works proof has been made under this Permit,

We note your statement that water from this stream has
been used by a former owner to irrigate your land; and if the water

Dear Sirs:

I came home from the service latter part of 1946, and since have bought Section 17, Bonner County, Idaho. and there is a small creek running across my place, and as I am to understand, this creek was used to irrigate with by the former owner some years ago, and now Mr. Ben Ewen who has the place below me has and, is in the process of filing a water right on this water. I would like to protest this, ~~and~~ that is to the extent that he does not get all the water as I would need some of it, and it would only be fair to share this. If you would advise me as to the best way to obtain results, I would

appreciate it very much.

This is and can be taken as a protest against giving all the water rights to the ranch below the one I have.

Dear Mr. Ewen:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Sandpoint News Bulletin, all in proof of beneficial use under your Permit No. 19636.

Before final action is taken in the matter the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

We return Permit No. 19636 and certificate of completion of works issued thereunder, which were forwarded to us by the Notary Public along with your beneficial use proofs.

DEAR ~~MR~~: Madam:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 19636

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On May 22, 1948, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Sandpoint, Idaho before Erma Carter, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

Dear Mr. Ewen:

Your letter of April 16, 1948, did not reach us in time to get the notice to the North Idaho News Bulletin before Wednesday of this week.

However, we have sent a copy of the notice to the newspaper with instructions to publish it once a week for four consecutive weeks prior to May 22, 1948, beginning with the next issue, which will still allow for the four publications.

About ten days prior to the date set, we shall send Erma Carter, Notary Public, the necessary forms of deposition consisting of one for yourself and one for each of two witnesses so that she may have them in ample time for the proof.

At the time set you should appear before the Notary Public together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, for the purpose of executing the depositions.

Dear Sir:-

Under the terms of your permit No. 19636-----you are required to complete your diversion works on or before May 23, 1947----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Re: Application No. 27157

Mr. Ben Ewen
Careywood, Idaho

Dear Mr. Ewen:

We acknowledge receipt of your application for permit to appropriate 0.5 of a second foot of water from an unnamed stream with point of diversion in Section 20, Township 59 North, Range 2 West, B.M.; also the \$5.00 filing fee, for which we enclose Departmental Receipt No. 18862.

We are returning the application for several corrections, as follows:

1. Under Question 4, you do not give the subdivision in which the point of diversion is located. We assume from the distance and also from your sketch map that it is in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 20, Township 59 North, Range 2 West, B.M.
2. Under Question 5, state the use to which the water is to be applied. In Question 15 you say for domestic purposes only, but under Question 14 you describe land to be irrigated.
3. Under Question 11, give the approximate length of ditches by which the water will be carried from the point of diversion to place of use.
4. In checking the topographic map of the U. S. Geological Survey we find that there are two streams flowing through Section 20, tributary to Caribou Creek, but neither of them seem to be in exactly the location shown on your sketch map.

We are enclosing a sketch map taken from the U.S.G.S. map, showing approximately the location of these streams. If this is correct, will you please complete same by marking the stream from which the water is to be taken, and indicate plainly the point of diversion, and also show the ditch or ditches by which the water will be carried from said point of diversion to place of use. If this map is not correct as to the location of the stream, please correct same.

Also, if the water is to be used for irrigation please either color or cross-hatch the land to be irrigated.

Very truly yours,
