APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. 19633																			
Comes now JOHN SPRACKLEN, of Laclede, Idaho, and represents to the State Reclamation Engineer of the State of Idaho That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. 19633.																			
That the present point of diversion is described in said Permit as being located 420 feet West of the Northeast corner of Section 25, Township 56 North, Range 4 West, B.M., and in the NE ¹ / ₄ NE ¹ / ₄ of said Section, and conveyed to the place of use through a pump and pipe.																			
That he now requests permission to use an additional point of diversion, to be located in the same NE ¹ / ₄ NE ¹ / ₄ of Section 25, Township 56 North, Range 4 West, B.M., in order to divert water to seven acres (part of the original 20 acres) by a shorter route and at less expense. Water will be lifted to a new ditch through which it will be conducted to place of use.																			
That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.																			
Signed at Laclede, Idaho, this 27th day of Jan., 1947.																			
Date of receipt at Department of Reclamation Jan. 30, 1947.																			
APPROVAL OF STATE RECLAMATION ENGINEER																			
I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. 19633. This amendment constitutes a new permit and is issued as an amendment to the original permit to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Re: Water Right Nos. 96-2096 and 96-2158.

Dear Ms. Varga:

As of this date, Mr. McDonald has not filed for water rights with this Department. However, he apparently acquired a portion of Irrigation License No. 96-2096 when he purchased the SESESESE Sec. 24, T56N, R4W, consisting of 2.5 acres more or less. The portion of the license he may have acquired would entitle him to divert 0.05 cfs (22.4 gpm) from Manley Creek to irrigate the said 2.5 acres so long as the annual volume of water used does not exceed 7.5 Acre Feet (2,443,716 gallons).

Mr. McDonald may also have acquired a portion of Irrigation License No 96-2158 through his purchase of approximately 2.5 acres within the NENENE Sec. 25, T56N, R4W. If this property is a portion of the 15 acres irrigated under that license, he also acquired a diversion rate of an additional 0.05 cfs and an annual volume of an additional 7.5 acre feet.

This Department has no record of Mr. McDonald's irrigation system. However, I am currently attempting to get this information from him. When I receive this information, I will forward copies to you.

If I can be of any further assistance, please contact me at this office.

Dear Mr. King;

I would like to know if a Mr. Robert McDonald of Laclede, Idaho has filed for water rights to divert water from upper Manley Creek? This diversion would be in the South Half of Sec 24, T56N, R4W.B.M., Bonner County Idaho. Possibly going to the Northwest Quarter of Sec 30, T56N, R3W.B.M.. If Mr. McDonald has filed, I would appreciate a copy of a map showing approximately where water pipes are taking this water, also when Mr. McDonald filed, and how long the diversion has taken place. I appreciate your time in responding to this matter.

For your convenience I have enclosed a self addressed stamped envelope.

Re: 96-2036 and 96-2158

Dear Mr. McDonald:

It has come to the attention of this office that you may have acquired a portion of two separate irrigation water rights, through your purchase of property within Sections 24 and 25, T56N, R4W.

Since you apparently did not purchase the property described as the point of diversion on either of these licensed water rights, it will be necessary for you to file transfers to change the points of diversion to maintain the validity of these rights. These transfers can only be filed with this office.

I will furnish you with the necessary transfer forms, if you wish. However, I would advise you to contact this Department to insure that your water rights fulfill your water needs, since it is unlawful in the State of Idaho to divert water without a valid water right.

Dear Mr. Spracklen:

We acknowledge receipt of the depositions
of yourself and two witnesses, also affidavit of
publication in the Sandpoint News-Bulletin, all
in proof of beneficial use under Permit No. 19633.

Before final action can be taken in the
matter, the law requires that a field examination
be made by an engineer from this department.

We cannot say just when this examination
will be made, since this department has but one field
engineer, who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this
department, will try to contact you at the time he makes
the examination, so that you may arrange to show him
over the ground.

Re: Permit No. 19633

Sandpoint News-Bulletin
Sandpoint, Idaho

Gentlemen:

In checking the Notice of Proof of Application to Beneficial Use, in the name of John Spracklen, contained in your issue of October 9th, we find the following error:

The fifth line of the notice, reading "The use to which the water has" is out of place, and should appear farther down in the notice, between the lines reading " Clede, Idaho", and "been applied is irrigation".

In other words, the complete paragraph reading "The use to which the water has been applied is irrigation", should appear as the third paragraph in the notice, as you will see by referring to copy.

Please see that correction is made in subsequent publications.

Thank you.

Dear Sir:

Under the terms of your permit No. 19633 you are required to complete your diversion works and make proof of beneficial use on or before November 12, 1947.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public of Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is November 12, 1947, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. _____

Comes now John Spracklen and represents to
the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate
the Public Waters of the State of Idaho, No. 19633;

That the point of diversion is described in said Permit as
being located North E corner sec 23 T56 R 4W
and 1/4 NE of sec 25, and conveyed to the place
of use through Pipe and Engine ditch, as per map
filed herewith.

That he now requests that the point of diversion be changed
to a point located W corner of sec 23 T56 R 4W
and 1/4 NE of sec 25, and conducted to the place of use
through the Pot Gravel ditch ditch, as per map above referred
to.

That his reasons for desiring to make such change are as fol-
lows: Less expense as pipe is almost impossible
to get it and is broke practically

That no one will be injured by such change, and that such
change will be made at Permit Holder's own risk.

Signed at Laclede, Ida this 2 day of Jan 1947

Date of receipt at Department of Reclamation January 3, 1947

Re: Application No. 27151

Mr. John Spracklen
Laclede, Idaho

Dear Mr. Spracklen:

We acknowledge receipt of your application for permit to appropriate 20 inches, or 0.4 second foot, of water from Manley Creek; also money order for the \$5.00 filing fee, for which we enclose Departmental Receipt # 18850.

However, the sketch map which accompanied the application is not quite clear as to the exact point of diversion and the location of the land to be irrigated, so we are enclosing another sketch map on which we have attempted to show the course of Manley Creek, and also Riley Creek to which it is tributary.

If this is not exactly correct please pencil it in correctly; and please indicate on this sketch map the exact point of diversion, and also cross-hatch or color the land to be irrigated.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
