Dear Mr. Wallace:

Once a permit becomes a water license it then becomes appurtenant to the land used on. It should be listed on the deed by number and in the amount of water as indicated on the license. Then the license should be given to the new owner. We do not require an assignment on licensed rights,

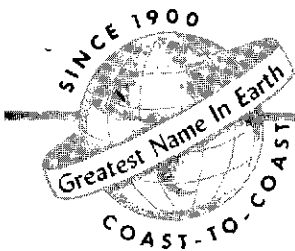

If we can be of further assistance please feel free to call on us.

Dear Mr. Shloupek:

We acknowledge receipt of your check in the amount of \$5.00, attached to letter addressed to Mr. Bert I. Raymond, in which he was advised that upon receipt of the above amount a license could be issued for water from an unnamed spring.

Before issuing the license we would like to have you advise us whether you have acquired this permit from Mr. Raymond, or whether the license is to be made to him.

If you are now the owner, and you wish the license made in your name, it will be necessary for you to submit an assignment from Mr. Raymond, on the form enclosed, or copy of a deed or other evidence that you are now the permit holder.

We shall await your further advice in this matter, and meanwhile we enclose Departmental Receipt No. 23019 for the \$5.00 fee.

Dear Mr. Raymond:

We have received from Mr. Everett E. Hunt, Notary Public, depositions of yourself and two witnesses, also affidavit of publication in the Sandpoint News Bulletin, all in proof of beneficial use under Permit No. 19233.

Before final action is taken in the matter the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Kenneth Neu Age: 43 years Residence: 1106 North Florence,
Sandpoint, Idaho. occupation: pasteurizer at creamery

Ques. 2. Are you acquainted with Bert I. Raymond, the
holder of Permit No. 19233? How long have you known him and where does
he reside?

Ans. Yes, about four (4) years. At present he resides at 713 River, Coeur d'Alene,
Idaho, and also Careywood, Idaho.

Ques. 3. Have you read or heard read said Permit No. 19233, and are you
familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Source is an unnamed spring, the water of which is diverted at the spring itself.
There is a large barrell sunk in the ground from which is a pipe that carries the
water to the place of use. The description of the source of supply is on the
Southwest Quarter of the Southeast Quarter (SW $\frac{1}{4}$ SE $\frac{1}{4}$), Section Thirty-two (32), Township
Fifty-five (55) North, Range Two (2) W.B.M., and the water is used on the Southeast
Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$), Section Thirty-two (32), Township Fifty-five
(55) North, Range Two (2) W.B.M.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. At least one cubic foot per second. This does not vary either way.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give
each subdivision in which water has been used and number of acres irrigated in each
subdivision.) State whether cultivated or natural meadow land and the nature of all im-
provements which have been made as a direct result of said use.

Ans. Domestic and stock purposes.

19233

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Home use, watering stock, watering small garden and other domestic uses.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have known Mr. Raymond about four years, and lived on the adjoining farm; had numerous business and social contacts, and we have talked of this water a number of times. Mr. Raymond took the water from this spring and applied it to use around his house for stock and domestic purposes. It was merely wasted before that time. I would see that it was being used every time I was on the Raymond place.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Unnamed spring on Southwest Quarter of the Southeast Quarter (SW $\frac{1}{4}$ SE $\frac{1}{4}$) Section
Thirty-two (32) Township Fifty-five (55) North, Range Two (2) W.B.M., and point
of diversion is at spring. He has a pipe to carry the water to place of use from
point of diversion.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. At least one cubic foot per second. I have seen it carry that much and the
flow is constant.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give
each subdivision in which water has been used and number of acres irrigated in each
subdivision.) State whether cultivated or natural meadow land and the nature of all im-
provements which have been made as a direct result of said use.

Ans. For the house, stock and the barn.

19233

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Used for household purposes and to water the stock. Piped to both barn and house.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Lived near Mr. Raymond number of years and visited him frequently at which times I have seen the application of the use of the water for domestic and stock puposes many times and know that it has been so used since the pipe was put in for that purpose.

Re: Permit No. 19233
Bert I. Raymond

Mr. Everett L. Hunt
Notary Public
Sandpoint, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 19233.

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On December 17, 1948, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Sandpoint, Idaho before Everett L. Hunt, Notary Public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

Gentlemen:

We are this morning in receipt of a copy of your issue of November 4 but on looking through it we fail to find our legal notice of beneficial use proof to be made under Permit No. 19233 (Bert I. Raymond) on December 17.

However, this notice was not sent to you until November 3 so no doubt the first issue containing same was November 11, and we shall appreciate receiving a copy of this issue.

Dear Mr. Raymond:

We are in receipt of your reply to office letter addressed you on October 26 stating that the correct location of the spring is on the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 32, Twp. 55 N., Range 2 W., but the place of use is on the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of this section.

We have accordingly corrected the notice of beneficial use proof to be made on December 17, 1948, before Everett E. Hunt, Notary Public, and have sent a copy of the notice to the Sandpoint News-Bulletin with instructions to publish it once a week for four consecutive weeks prior to that date and to send you the affidavit of publication together with statement of costs.

About ten days prior to the date set for proof we shall send Mr. Hunt the necessary forms of deposition consisting of one for yourself and one for each of two witnesses so that he may have them in ample time for the proof.

At the time set you should appear before the Notary Public together with two disinterested witnesses who are familiar with the terms of your permit and the work done thereunder for the purpose of executing the depositions.

Dear Mr. Raymond:

We acknowledge receipt of duplicate notice of beneficial use proof to be made under your Permit No. 19233 on December 17, 1948, before Everett E. Hunt, Notary Public.

However, we observe that this notice describes the location of the spring as in the $SE\frac{1}{4}$ $SE\frac{1}{4}$ of Section 32, Township 55 North, Range 2 W., whereas the permit locates the spring on the $SW\frac{1}{4}$ $SE\frac{1}{4}$ of this section and the place of use on the $SE\frac{1}{4}$ $SE\frac{1}{4}$.

Please advise if this is an error in the notice and if so we shall change same to show the location of the spring on the $SW\frac{1}{4}$ $SE\frac{1}{4}$ of Section 32 as described in the permit.

A copy of the notice will then be sent to the Sandpoint News Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for proof.

Meanwhile we return your Certificate of Completion of Works which was included with the notice.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. 19233 you are required to complete your diversion works on or before December 6, 1942. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
