With reference to our discussion of including the spring, that is located in the approximate center of the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 36, Township 55 North, Range 2 East, to the Mosquito Creek permit, it will be impossible because the Completion of Works Certificate and the Proof of Beneficial Use depositions were made in 1941.

The publisher failed to send in the Affidavit of Publication is what held up the works.

The spring development will have to be a new permit.

I searched our records and could not find where a permit has been filed on this spring.

Dear Mr. Beebe:

Returned herewith are original and copy of Form No. 1 which you submitted along with the application for amendment to the point of diversion under Permit No. 19155.

Due to the fact that Permit No. 19155 has no previous mention of the spring, it has been decided that the amendment cannot be approved and has been destroyed. The proofs of completion of works and beneficial use of the water were made in 1941. The works on the spring are evidently of recent construction, or are to be made in the near future.

The Form No. 1 returned can be used for the new application for permit by crossing out the present remarks and inserting "Spring is on land in the National Forest", or some such remark. Only the original and two maps is necessary.

Will you divert water from the Spring and also Mosquito Creek, or from the spring only? There would be little value in a Water License on Permit No. 19155 if the water is not to be used in the future as non-use of the water would be abandonment of the water right.

Dear Mr. Carter:

Attached is our application for a permit to amend the point of diversion. We wish to retain the original point of diversion shown in Permit No. 19155 and also establish an additional point. The quantity of water claimed will remain the same.

Our purpose in establishing this new point of diversion is to obtain uncontaminated water for human consumption. The Forest Service recently purchased a forty acre tract containing a spring which we wish to develop to provide water for consumption at the Clark Fork Ranger Station. The original point of diversion on Mosquito Creek would provide water for purposes other than drinking.

Information relating to the location of this additional point of diversion, kind of works proposed, and the estimated cost thereof, is contained in the enclosed Application for Permit form.

If it is not possible to amend Permit No. 19155 to include an additional point of diversion we will apply for a new permit to cover this spring.

Your letter of August 15, 1961 mentioned that the \$1.00 fee for recording an amendment can be added to the fees for the Water License covering permit No. 19155. Final approval of this permit has been withheld pending a field examination by an engineer from your department.

Dear Sir:

This is in regard to Permit No. 19155 to appropriate the public waters of the State of Idaho. Under this permit the Forest Service is authorized to divert 0.25 second feet from Mosquito Creek at a point in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 36, Township 56 N., Range 2 E. We would like to divert part of this 0.25 second feet at an un-named spring tributary to Mosquito Creek and also located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 36, Township 56 N., Range 2 E. Both points of diversion will be used in conveying water for domestic purposes to the Clark Fork Ranger Station (formerly Antelope Ranger Station).

The spring is located on National Forest land recently acquired by purchase. In a letter dated October 19, 1960 you advised John P. McArdle that there was no record of a water right on any spring in Section 36, Township 56 N., Range 2 E.B.M.

We would like information on the procedure to be followed in amending Permit No. 19155 to include the additional point of diversion mentioned above.

License No. 5847 was issued to Lawrence Mining & Milling Company for 7.0 cubic feet per second, priority April 2, 1912 to divert from Mosquito Creek in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 36, Township 56 North, Range 2 East to place of use in NW $\frac{1}{4}$ of Section 1, Township 55 North, Range 2 East for power and mining.

License No. 18070 was issued to Edward B. Clark for 0.2 cubic foot per second, priority January 24, 1935 to divert from Mosquito Creek in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32 for irrigation and domestic use in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 31, Township 56 North, Range 3 East.

Permit No. 19155 to Kaniksu National Forest, Certificate of Completion of Works issued showing 0.25 cubic foot per second, priority August 7, 1941, diverted from Mosquito Creek in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 36, Township 56 North, Range 2 East for domestic use at Antelope Ranger Station in the NW $\frac{1}{4}$ of Section 1, Township 55 North, Range 2 East. Proof of beneficial use of the water was made; however the affidavit of publication was not received in this office and no further action. For your information, the legal notice of intention to make proof of beneficial use of the water was published in October 30, November 6, 13, 20, 1941.

Provided you furnished the affidavit of publication, the field examination can be made and the license issued.

No further water rights from Mosquito Creek were found of record in this office.

Very truly yours,

Dear Mr. Ryan:

We are in receipt of the deposition of the holder, and depositions of the witnesses but need the affidavit of publication from the newspaper before we can hand your file to the field engineer for an inspection of your works.

In looking through the statutes the other day, we discovered that we had slipped up on a point in making proof of completion of works after a cancellation notice had been mailed. It needs the depositions of two witnesses. We are enclosing forms for that purpose. Will you please have two individuals who are familiar with the works sign the depositions before a Notary Public and return to us?

Dear Sir:

Under the terms of your permit No. 19155 you are required to complete your diversion works and make proof of Beneficial Use on or before ~~Sept. 10, 1941~~.

I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of Completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

I also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is Sept. 10, 1941, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Yours truly,

E. V. BERG.
