Dear Mr. Mazatko:

We wish to acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of publication from the Northern Idaho News, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, field engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

When the engineer's report is filed, you will be notified of the amount due for beneficial use and completion of works proofs. Upon receipt of your remittance for same, a license will be issued.
