Re: Permit No. 17721

PRIEST RIVER TIMES,
Priest River, Idaho.

Gentlemen:

We are in receipt of your letter of November 15th, acknowledging receipt of Notice in connection with the above numbered permit; and have also received the tear sheet from your issue of November 14th.

We find this to be correct, with the exception of a slight typographical error in the first line of the paragraph commencing "the name of the canal" where, you will note the word "the" is spelled "ehh".

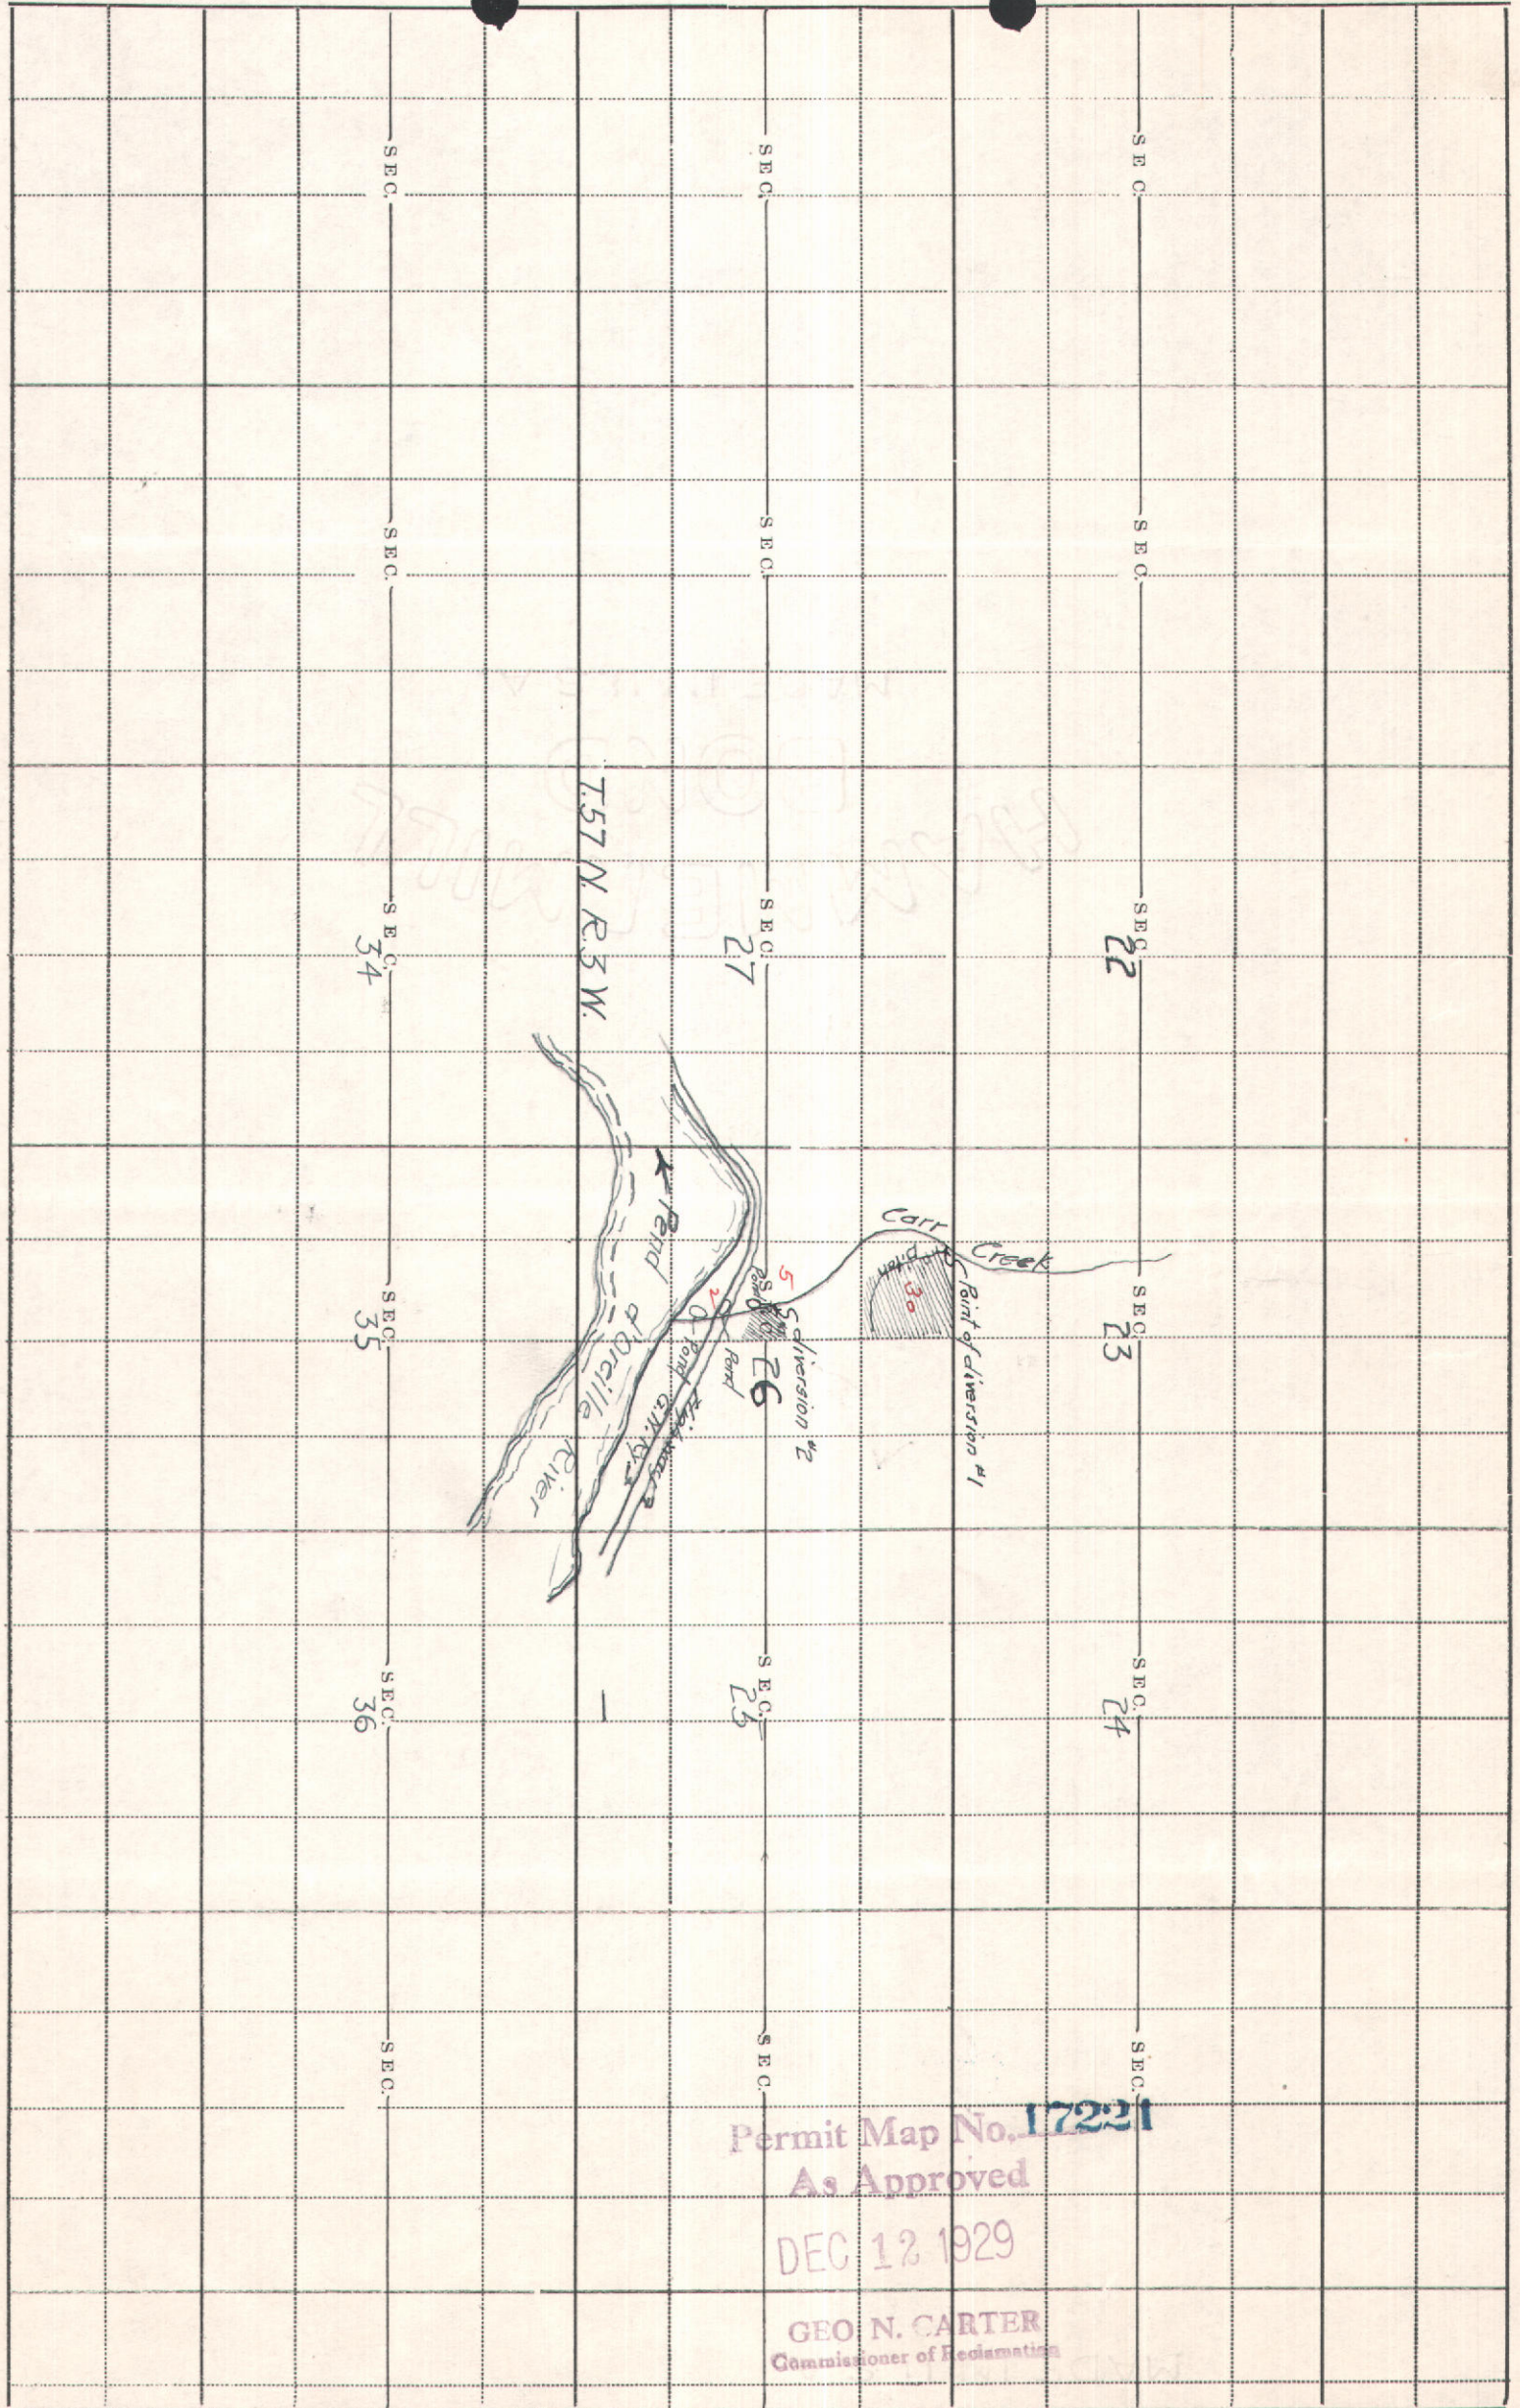

Very truly yours,

JAMES SPOFFORD
Commissioner of Reclamation

By

JLA

Chief Clerk

State of Idaho
License and Certificate of Water Right

Water License No. 17221
Water District No. _____

Amount 0.14 c.f.s.
Priority Dec. 11, 1929

THIS IS TO CERTIFY that H. L. BLOOD
of Route No. 2, Sandpoint, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated December 11, 1929 19 ; that Permit No. 17221
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
1.6 second feet, was issued thereunder on December 28, 1938 19 , showing that said works
were completed on the 15th day of December, 19 38; and that on the 14th
day of December, 19 40.

H. L. BLOOD

of Route No. 2, Sandpoint, State of Idaho, made proc^t to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of Carr Creek
, a tributary of Pend d'Oreille River, for the purpose of irrigation and domestic
, under Use Permit No. 17221 of the Commissioner of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is
hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 7
of Licenses, at page 4105, on the 27th day of March, 1942 ;

The right hereby confirmed dates from December 11, 1929, 19 ;

The Point of Diversion is located
No. 1-NE 1/4 NW 1/4
in the No. 2-SE 1/4 NW 1/4 1/4, Sec. 26, Tp. 57 N, R. 3 W, B. M. Benner County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid,
is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 0.14
cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
57 N	3 W	26	<u>NE 1/4 NW 1/4</u> <u>NE 1/4 SW 1/4</u>	<u>35.00</u> <u>2.0</u> <u>37.0</u>	<u>2.00 (NE 1/4 NW 1/4)</u> <u>5.0</u> <u>7.0</u>

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use
herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho,
this 27th day of March, 1942

96-2124

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 24251

Permit No. 17221

District No.

1. Name of Applicant:

H. L. Blood

Postoffice address:

Rt. 2 Sandpoint

~~Dover~~

, County: Bonner

, State: Idaho.

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are:

(a) Cash on hand:

(c) Bonds to be issued:

(b) Treasury stock:

(d) Other resources:

2. Quantity of water claimed: 1.6 cubic feet per second.

3. Source of water supply: Carr Creek which is a tributary of Pend d'Oreille river

4. Location of point of diversion: feet distant from the
corner of Section , T. , R. , B. M., and is in the No. 1, NE $\frac{1}{4}$ of NW $\frac{1}{4}$
No. 2, SE $\frac{1}{4}$ of NW $\frac{1}{4}$
of Section 26 , T. 57 N., R. 3 W., B. M., County of Bonner.

5. Water is to be used for: irrigation and domestic purposes.

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
T. , R. , B. M., in the of Section , T. , R. , B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B. M., in the
of Section , T. , R. , B. M.

7. Estimated cost of works: \$1700.00

8. Kind of works: 2 pumps, ditch, and three ponds.

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom 1 feet; width at water line 2 feet; depth of water 0.5
feet; dimensions of flume

Diameter of pipe 4 & 5 inches; length of conduit 1/4 miles.

Average grade per mile 52.8 feet.

12. The time required for the completion of such work is five years.

13. The time required for the complete application of the water to the proposed use is two additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

H. L. Blood Applicant.

By Tiggelbeck Eng'r Co. Agent.
Chas. Tiggelbeck

Date of first receipt at Department of Reclamation: 9:00 A. M. December 11, 1929.

Returned to applicant for correction:

Corrected application received:

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is 17221

Recorded in Book 62 Page 17221 Approved December 12, 1929.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before February 10, 1930 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before June 12, 1932.

The whole of said work to be completed on or before December 12, 1934.

Beneficial use of water appropriated in accordance herewith, to be made on or before December 12, 1936.

Witness my hand this 12th day of December, 1929.

GEO. N. CARTER
Commissioner of Reclamation.

Remarks:

14.

Point of diversion #1 will be used to divert 0.6 sec. ft. of water to irrigate 30 acres in the NE¼ of NW¼. Point of diversion #2 will be used to irrigate about 7 acres lying adjacent to house and supply water for tourist camp, one frog pond, one duck pond and a fish pond besides the water for the house.																						
APPROVAL OF COMMISSIONER OF RECLAMATION																						
WHEREAS, Application for an extension of time for Completion of Works under Permit No. 17221 has been made by the owner thereof, which application was duly advertised in the Northern Idaho News of Sandpoint, Idaho, for a period of two consecutive weeks; and																						
WHEREAS, A hearing in regard to the said application was then duly held at Boise, Idaho, on December 21, 1934, as specified in the said advertisement above referred to; and																						
WHEREAS, After taking into consideration all evidence and testimony introduced at the said hearing, it appears that the owner of the said Permit is entitled to a further extension of time within which to complete work:																						
NOW, THEREFORE, I, R. W. FARIS, Commissioner of Reclamation of the State of Idaho, by virtue of the authority vested in me under House Bill No. 82, Session Laws of 1933, hereby extend the time for Completion of Works under Permit to Appropriate the Public Waters of the State of Idaho, No. 17221, to December 12, 1936.																						
WITNESS My hand this 26th day of December, 1934.																						
R. W. FARIS Commissioner of Reclamation																						

PERMIT NO. 17221

APPROVAL OF COMMISSIONER OF RECLAMATION

WHEREAS, Application for an extension of time for completion of works under Permit No. 17221 has been made by the owner thereof, which application was duly advertised in the Priest River Times of Priest River, Idaho, for a period of two consecutive weeks; and

WHEREAS, A hearing in regard to the said application was then duly held at Boise, Idaho, on December 28, 1936, as specified in the said advertisement above referred to; and

WHEREAS, After taking into consideration all evidence and testimony introduced at the said hearing, it appears that the owner of the said Permit is entitled to a further extension of time within which to complete work:

NOW, THEREFORE, I, R. W. FARIS, Commissioner of Reclamation of the State of Idaho, by virtue of the authority vested in me under Senate Bill No. 129, Session Laws of 1935, hereby extend the time for completion of works under Permit to appropriate the Public Waters of the State of Idaho, No. 17221, to December 12, 1938.

WITNESS My hand this 11th day of January, 1937.

R. W. FARIS
Commissioner of Reclamation

Permit No. 17221

CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that H. L. BLOOD, of Sandpoint, County of Bonner, and State of Idaho, the holder of Permit No. 17221, issued upon Application No. 24251, bearing date of priority of December 11, 1929, authorizing the diversion of 1.6 second feet of the waters of Carr Creek, County of Bonner, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 0.134 second feet of the waters of said Carr Creek; that the point of diversion of said waters is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, T. 57 N., R. 3 W., B. M.; and that the lands proposed to be irrigated by the use of said water are described as follows, to wit: 5 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and 2 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 26, T. 57 N., R. 3 W., B. M.

Witness my hand this 28th day of December, A. D. 1938.

Mr. Roger Hanlon
Attorney at Law
324 North First Avenue
Sandpoint, ID: 83864

Dear Mr. Hanlon:

We are returning your statement of adverse affect on a water right for Mr. Kenneth R. Pearlstein.

The mechanism of a Local Groundwater Board is to be used where a surface or ground water right is adversely affected by the use of water under a junior ground water right. As I understand the information contained in the petition, all rights involved are surface water rights. The Department of Water Resources has no authority to regulate diversion on a water source which has not been the subject of a court decree.

It would seem to me that the appropriate ^{forum} form for solving this dispute would be District Court.

If I can be of any further assistance, please do not hesitate to contact me.

Very truly yours,

ROBERT G. HAYNES, P.E.
District Supervisor

bl:RH

RECEIVED

DEC 19 1975

STATEMENT OF ADVERSE AFFECT ON WATER RIGHT Department of Water Resources
Northern District Office

TO: Director, Department of Water Resources.
RE: Water Rights - Carr Creek, Bonner County, Idaho.
CLAIMANT: Kenneth R. Pearlstein
Route #2, Sandpoint, Idaho.
RESPONDENT: W. N. Sherwood
Highway 2 West, Sandpoint, Idaho.

Kenneth R. Pearlstein, first duly sworn, claims:

(1) That he is the owner of a parcel of property more particularly described as:

All that part of the Southeast Quarter of the Northwest Quarter and Government Lot 3 of Section 26, Township 57 North, Range 3 West, Boise Meridian, Bonner County, Idaho, lying East of the thread of Carr Creek and North of U.S. Highway No. 2.

(2) The property is adjacent to Carr Creek, and within the Carr Creek Drainage.

(3) There is a water license in the name of H. L. Blood, No. 962124, which authorizes the diversion of 0.14 cubic feet per second from two points of diversion located in the NE1/4 NW1/4, SE1/4NW1/4, Section 26, Township 57 North, Range 3 West, Boise Meridian. This right is appurtenant to claimant's property and has been exercised continuously, supply permitting, since 1929. Diversion is currently made by electrical pump.

(4) There is no record of any other license to divert water from Carr Creek. Claimant is without knowledge of the authority by which the respondent claims a right to divert the waters of Carr Creek.

(5) In the spring of each year the respondent constructs a temporary diversion dam in Carr Creek at a point upstream from claimant's point of diversion. The respondent's diversion

point is at a substantially greater elevation than claimant's, thereby permitting the respondent to divert the waters of Carr Creek from its drainage into the Hornaby Creek drainage where its use remains a mystery to claimant. During times that the water is so diverted, the rights of the claimant are adversely affected by the reduction and occasional cessation of flow.

(6) It is hereby requested that this matter be set for a hearing before a local ground water board for a determination of rights.

Kenneth Pearlstein
CLAIMANT

STATE OF IDAHO)
) ss.
County of Bonner)

On this 15th day of December, 1975, before me, a Notary Public in and for the said State, personally appeared KENNETH R. PEARLSTEIN known to me to be the person whose name is subscribed to the within instrument, and acknowledged to me that he executed the same.

Examination for Beneficial Use

County Bonner

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make a plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

Sandpoint, Ida., May 21, 1941.

Department of Reclamation,
Boise, Idaho.

Dear Sirs: Re 17221.

Enclosed please find M.O. for \$4., fee in connection with the Beneficial Use Proof, as per your letter of Jan. 20, 1941.

As the project we are proving up on does not cover 40 acres, am wondering if there was an error made in the amount charged.

Yours very truly,

Homer L. Blood.

Homer L. Blood,
Rte 2, Sandpoint, Idaho.

17221

January 20, 1941

Mr. Homer L. Blood
Route No. 2
Sandpoint, Idaho

Dear Mr. Blood:

Re: 17221.

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the newspaper, all in connection with Beneficial Use Proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds.

The statutory fee in connection with the Beneficial Use Proof amounts to \$4.00 being at the rate of \$2.00 for each forty acre tract or fraction thereof on which water is applied. You may send check for this amount at your convenience and when the Engineer's report is filed, a license will be issued in accordance therewith.

Very truly yours,

E. V. BERG.
Commissioner of Reclamation.

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL
USE

NOTICE IS HEREBY GIVEN that
at 10:00 A. M. on the 14th day of
December, 1940, at Sandpoint, Coun-
ty of Bonner, State of Idaho, before
Robt. S. McCrea, Notary Public,
Sandpoint, Idaho, proof will be sub-
mitted of the application to benefi-
cial use of 0.134 cubic feet per second
of the waters of Carr Creek in ac-
cordance with the terms and condi-
tions of Permit No. 17221 heretofore
issued by the Department of Recla-
mation of the State of Idaho.

The name of the canal or ditch or
of the person or corporation holding
said permit are H. L. Blood, Route
2, Sandpoint, Idaho.

The use to which said water has
been applied is Domestic and irriga-
tion.

The amount applied to beneficial
use is 0.134 cubic foot per second.

The place where said water is used
is SE $\frac{1}{4}$ of NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$,
Sec. 26, 57N, Range 3 W. B. M.

The name of the canal or ditch or
other works by which said water is
conducted to such place of use is
Typhoon Pump, 2" Pipe and hose.

The right to take water from such
works is based upon Permit No.
17221.

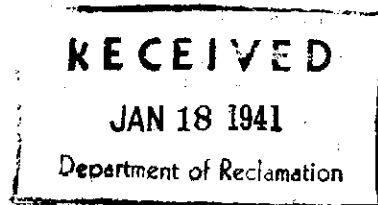

The source of supply from which
such water is diverted is Carr Creek.

The date of priority which said
user is prepared to establish is De-
cember 11, 1929.

JAMES SPOFFORD
Commissioner of Reclamation.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 17221

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Homer L. Blood, Route #2, Sandpoint, Idaho. Occupation-Farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not a corporation.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 17221, Dec. 11, 1929. Date of priority: Dec. 14, 1940. 11-1929

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Carr Creek. Exact location of point of diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$ and the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 26, T. 57, N. R. 3 W.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Typhoon Pump, 2" Pipe and hose. 0.134 cubic foot per second. Carr Creek.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation and domestic use. Place of use: SE $\frac{1}{4}$ NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 26, T. 57, N. R. 3 W. B. M. Seven acres in said tract. Cultivated land. Have been growing hay, grain and vegetables and fruit.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Only for irrigation purposes.

17221

MK -
450 per

Ques. 8. What is the minimum amount of water required for the purpose specified above?
Ans. 0.134 cubic foot per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.
Ans. I am the original owner.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.
Ans. I have used the full amount of the water for the past five years and upon the seven acres in tract.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.
Ans. I have never used any other waters.

(Sign) Homer L. Blood

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Sandpoint---, County of Bonner---, State of Idaho, on this 14th. day of December, A. D. 1940.

Farmer.

Ques. 2. Are you acquainted with Homer L. Blood, the holder of Permit No. 17221? How long have you known him and where does he reside?

Ans. Five Years. Route #2, Sandpoint, Idaho.

Ques. 3. Have you read or heard read said Permit No. 17221, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Carr Creek, SE $\frac{1}{4}$ NW $\frac{1}{4}$ and the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 26, T. 57, N. R. 3 W. B. M.
Typhoon Pump, 2" Pipe and Hose.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. At least 60 gallons per minute. I have seen that much conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. For irrigation and domestic use and on seven acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$
and the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 26, T. 57, N. R. 3 W. B. M. Five acres irrigated
in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and two acres irrigated in NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 26, T. 57, N. R. 3,
W. B. M. Cultivated land and is now used for the growing of hay, grain,
fruit and vegetables.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. Only for irrigation and domestic purposes.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam. A little rolling. 0.134 cubic foot per second.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Visited the land several times during the last four years.
I examined the water flow when I was on the land. 0.134 cubic foot
per second.

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

Boise, Idaho, December 4, 1940

Re: Permit No. 17221
H. L. Blood

Mr. Robert S. McCrea,
Notary Public,
Sandpoint, Idaho

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 17221

Deposition of Permit Holder,
Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On December 14, 1940, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Sandpoint, Idaho before Robert S. McCrea, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

JAMES SPURFORD

Commissioner of Reclamation.

PRIEST RIVER TILLS,
Priest River, Idaho.

Gentlemen:

We are in receipt of your letter of November 15th, acknowledging receipt of notice in connection with the above numbered permit; and have also received the tea sheet from your issue of November 14th.

We find this to be correct, with the exception of a slight typographical error in the first line of the paragraph commencing "the name of the canal"-
~~where~~ here, you will note the word "the" is spelled "ehs".

Very truly yours,

JAMES SPOFFORD

Commissioner of Reclamation

Chicago Restaurant Gives Idaho Spuds Top Billing

The following clipping was received from one of Priest River's former citizens and believing that it might be of interest to our readers it is reprinted. The clipping follows:

Fort Pearsons going to be out of Chicago for Saturdays football game, and Jim Campbell, ex-KGW, has been chosen to do the coast to coast commercial spiel for P & G on the Friday evening Light program. Now that Jim's working at NBC in Chicago he's getting homesick for the west.

Had a rather interesting experience yesterday (he says). I went over to the Triangle restaurant here in Chicago and saw the effect of publicity. They were plugging Idaho baked potatoes. On the front of the menu they had this:

"Triangle Baked Potato Rodeo—Rootin' tootin', they're ridin' in straight from the rich lava craters of Idaho . . . Massive they are, full of vigor and vitamins . . . sprung from the volcanic pits of the moon . . . into our two-hour ovens we pop them . . . bouncing hearty, exuberant. Jumbo Idaho Baked Potato served with plenty of butter, 15c.

Then they had cards on the walls around the restaurant with the following:

Your dream realized—just say—Baked Idaho.

For Vibratory Health—just say—Baked Idaho.

For an Enthralling Experience—just say—Baked Idaho.

For a Dream of Delectability—just say—Baked Idaho.

Enjoy the magic of the Western Air—just say—Baked Idaho.

There was also another sign:

"Large Wenatchee Baked Apple with rich cream, 20c." I fell for that one thinking that back in Washington we could get a half a box of apples for that price.

At The Theatre

"I want to be the man who eats the spiders." Such is Lew Ayres' description of the parts he likes best to play. The personable young band leader who leaped to fame as a screen idol doesn't want to be a screen hero all his life.

I want to play funny guys, screwballs, odd characters," he explains. "They're interesting. People like Cousin Henry in 'Rich Man, Poor Girl,' intrigue me. That's why I liked my part as Henry Twinkle in 'The Golden Fleece.' Here's a timid insurance clerk who sells a policy to a racesteer and gets into all kinds of funny troubles in trailing him.

Starting Sunday will be "The Sea Hawk", Errol Flynn's newest assignment to cinematic adventure in which he is seen as the daring captain of a buccaneer ship. His lovely new leading lady is Brenda Marshall.

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL
USE

NOTICE IS HEREBY GIVEN that at 10:00 A. M. on the 14th day of December, 1940, at Sandpoint, County of Bonner, State of Idaho, before Robt. S. McCrea, Notary Public, Sandpoint, Idaho, proof will be submitted of the application to beneficial use of 0.134 cubic feet per second of the waters of Carr Creek in accordance with the terms and conditions of Permit No. 17221 heretofore issued by the Department of Reclamation of the State of Idaho.

The name of the canal or ditch or of the person or corporation holding said permit are H. L. Blood, Route 2, Sandpoint, Idaho.

The use to which said water has been applied is Domestic and irrigation.

The amount applied to beneficial use is 0.134 cubic foot per second.

The place where said water is used is SE 1/4 of NW 1/4 and NE 1/4 SW 1/4, Sec. 26, 57N, Range 3 W. B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Typhoon Pump, 2" Pipe and hose.

The right to take water from such works is based upon Permit No. 17221.

The source of supply from which such water is diverted is Carr Creek.

The date of priority which said user is prepared to establish is December 11, 1929.

JAMES SPOFFORD
Commissioner of Reclamation.

Commissioner of Reclamation.

November 12, 1940

Re: Permit No. 17221

Mr. Homer L. Blood,
Route 2,
Sandpoint, Idaho.

Dear Sir:

We are this morning in receipt of your letter of November 9th, enclosing duplicate notices of intention to make beneficial use proof under your Permit No. 17221, and authorization to have same published in the Priest River Times.

As it is now too late for publication in this week's issue, December 14th, 1940, is about the earliest date this proof can be made, and we have set it for 10:00 A.M. on that day- December 14th.

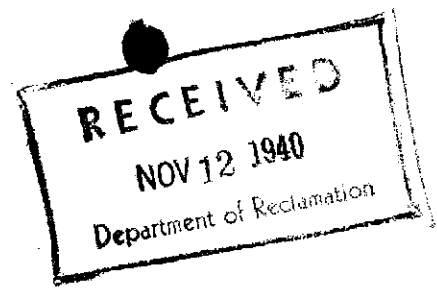

We have made one or two slight changes in the notice- inasmuch as your completion of works proof showed 0.134 second foot of water, and lands to be irrigated in both the SE $\frac{1}{4}$ and NE $\frac{1}{4}$ of Section 26- we have amended the notice accordingly, to cover the maximum amount that you can make proof on. We did this rather than lose time by writing you again- but of course your final proof will show both the actual amount of water used, and the acreage irrigated by the use of such water.

About ten days prior to the date of proof we shall send to Mr. Robt. J. McCrea, the Notary Public, the proper forms of deposition, consisting of one for the holder and one for each of two witnesses- so that he may have them in ample time for the proof. And on the day set- December 14, you should appear at Mr. McCrea's office, with two disinterested witnesses for the purpose of executing the depositions,

Very truly yours,

JAMES SPOFFORD
Commissioner of Reclamation
By
Chief Clerk

17221

Dec. 12, 1940

Sandpoint, Ida., Jan. 6, 1939.
Mr. R.W. Faris, Commissioner of Reclamation,
Boise, Idaho.

Dear Sir: Re Permit No. 17221.

I beg to acknowledge receipt of your letter of Dec. 31st, enclosing Certificate of Completion of Works and receipt for \$5. fee. Does this entirely complete our water right for this 7 acres of land? If not, what is the further procedure?

I thank you for your kind letter of Dec. 14th, saying we could have also included the 30 acre tract at this time on this completion of works, but I have decided that that point of diversion will not be as satisfactory and also I can probably use a gravity system by using another point of diversion, which will call for a new filing, as we understand it, which I will do in the near future.

Thanking you, I am

Yours very truly,

Homer L. Blood

Re: Permit Number 17221

Homer L. Blood
Sandpoint, Idaho

Dear Sir:

I have your letter of December 12 in which you inclosed a copy of a letter dated December 4, which I answered on December 12. The reason for the delay in answering was that I was out of town from December 4 to December 10, and did not see your letter until Monday, December 12.

After checking through your letter more closely, I find that my letter of December 12 was written through a misunderstanding, that is, I interpreted your letter to mean that you wish an extension of time on both points of diversion. However, I note that you wish an extension only on point of diversion number 1. Looking further into this letter, I find that you have your works of diversion completed for both points, however, you lack the desire to prove up on point of diversion number 1, due to the fact that you have not installed the type of prime-mover that you intend to install eventually. However, I wish to inform you that by completion means, the conducting of water to the place of use and whether this is done by a gas engine and pump, or an electric motor and pump is not of any material difference. Therefore, it will probably be alright for you to sign your affidavit of proof of completion of works for the whole amount naming both points of diversion. In any event, you may make an affidavit for the amount claimed for the even acre piece of land or at point of diversion number 2, and file a new application for permit for point of diversion number 1. However, the procedure outlined above, if at all possible, would be more advantageous.

I trust that you can have the affidavit executed in the next day or two and send it to this department with the fee as soon as possible.

Very truly yours,

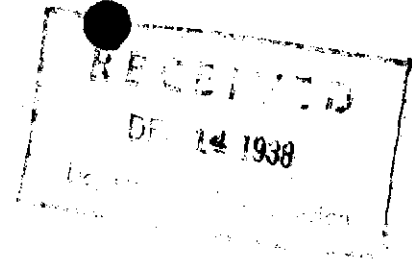

R. W. FARIS
Commissioner of Reclamation

By PAUL H. BERG
Deputy Commissioner

PHB:mh

17221

(Copy)

Sandpoint, Ida., Dec. 4, 1938.

Mr. R.W. Paris, Commissioner of Reclamation,
Department of Reclamation,
Boise, Idaho.

Bear Sir:

Re Permit No. 17221

I am in receipt of your letter of Dec. 1st and contents noted.

Can I reform permit and prove up on project for point of Diversion #2 for the 7 acre part of permit and then get extension of time on balance of permit for point of Diversion #1, or the 30 acre part? Or get extension on whole permit as it now stands?

My reason for asking for such extension is that when we bought this land we had the Post Office in Dover and business was humming. Then the Dover Mill closed down and we left Post Office work and went to live on this ranch. Before clearing this 30 acre plot we wanted to remove the fine cedar logs from same and build a log house and get all wood off of same before burning complete to clear. We also have been building a 24 X 32 ft. log house during this same time we were trying to prove up on water right. Have this house ready to move into within the month. Want to burn and clear this larger acreage beginning in the spring preparing to use this water right for point of diversion #1. Have all wood off of this acreage now also ready to burn so you can see we are ready to advance on this project too. To prove up on point of diversion #2, using gas engine instead of electricity is not as satisfactory to use either. What we want to do is to get set on just what kind of a permanent system we want here and prove up on that exact thing and then plan to make no more changes in any way.

When we feel that we have almost weathered through the situation and can see our way clear to do it right, we would feel badly to lose out on this water right. I would appreciate getting an extension of time on whole permit and then I could prove up on whole permit at once and have it done with.

Have you received any other filings on Carr Creek, dated since our filing?

If satisfactory to you, to apply for such extension, kindly send extension blank to sign.

Yours very truly,

(Copy) Homer L. Blood.

Re: Permit Number 17221 ✓

Homer L. Blood
Sandpoint, Idaho

Dear Sir:

We have your letter of December 4 in which you request an extension of time for completion of works under the above numbered permit. However, upon checking the permit we find that you have had two extensions already, and have taken more than the present time allowed for completion of works, since in 1933 the legislature passed a law permitting the Commissioner of Reclamation to grant extensions of time for periods of two years, however, at the 1937 session of the legislature, this law was repealed. Therefore, we cannot grant an extension of time.

We note that your proof was due December 12, 1938, therefore your permit will probably be cancelled in the near future, and your only recourse will be to file a new application.

Very truly yours,

R. W. FARIS
Commissioner of Reclamation

By PAUL H. BERG
Deputy Commissioner of Reclamation

RECEIVED

DEC 7 1938

Department of Reclamation

Sandpoint, Ida., Dec. 4, 1938.

Mr. R.W. Paris, Commissioner of Reclamation,
Department of Reclamation,
Boise, Idaho.

Dear Sir:

Re Permit No. 17221

No. Ext. Dec. 12 '38

I am in receipt of your letter of Dec. 1st and contents noted.

Can I reform permit and prove up on project for point of Diversion #2 for the 7 acre part of permit and then get extension of time on balance of permit for point of diversion #1, or the 30 acre part? Or get extension on whole permit as it now stands?

My reason for asking for such extension is that when we bought this land we had the Post Office in Dover and business was humming. Then the Dover Mill closed down and we left Post Office work and went to live on this ranch. Before clearing this 30 acre plot we wanted to remove the fine cedar logs from same and build a log house and get all wood off of same before burning complete to clear. We also have been building a 24 X 32 ft. log house during this same time we were trying to prove up on water right. Have this house ready to move into within the month. Want to burn and clear this larger acreage beginning in the spring preparing to use this water right for point of diversion #1. Have all wood off of this acreage now also ready to burn so you can see we are ready to advance on this project too. To prove up on point of diversion #2, using gas engine instead of electricity is not as satisfactory to use either. What we want to do is to get set on just what kind of a permanent system we want here and prove up on that exact thing and then plan to make no more changes in any-way.

When we feel that we have almost weathered through the situation and can see our way clear to do it right, we would feel badly to lose out on this water right. I would appreciate getting an extension of time on whole permit and then I could prove up on whole permit at once and have it done with.

Have you received any other filings on Carr Creek, dated since our filing?

If satisfactory to you, to apply for such extension, kindly send extension blank to sign.

17221
Yours very truly,

Homer L Blood

December 1, 1938

Re: Permit No. 17221

HOMER L. BLOOD
Sandpoint, Idaho

We have your letter of November 28, in which you ask for an extension of time so that you may replace the gas engine you are now using on your pump with an electric engine.

The Department is not particularly interested in the prime-mover for your pump. Since the law states, under Section 41-112, "Completion Defined.--By completion is meant conducting the waters to the place of intended use," if your works are completed so that you may conduct the water appropriated under the above numbered permit to the place of intended use, you may make proof of completion of works. It doesn't jeopardize your right merely by changing the method of diverting the water as long as the diversion is from the same point and the water carried through the works defined in your permit.

We trust that this will enable you to make proof of completion of works as soon as this matter has been clarified.

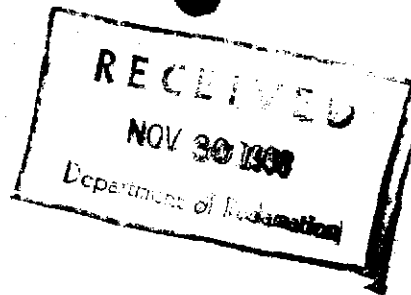

Yours very truly,

R. W. FARIS,
Commissioner of Reclamation

By PAUL H. BERG,
Deputy Commissioner

PHB/ci

17221

Sandpoint, Ida., Nov. 28, 1938.

Mr. R.W. Faris, Commissioner of Reclamation,
Department of Reclamation,
Boise, Idaho.

Dear Sir:

Re Permit 17221

I am undecided as to what to do about my water right, so will write you for information. When asking for last extension, I said we were expecting to get electricity on our farm from rural line. We got such electricity this past year, but since the kind of pump I want is an electric-driven centrifugal pump, and I also want a tank to store water in so I can use a spray system over part of this front 7 acres, I would appreciate it if I could get another two years extension of time to do just that and I think I can make it for I am very desirous of getting this matter completed.

The cost of changing gas engine to electric power was just a little too much for me to stand this time after just putting in electric power on place. We have a 220 line wired into place anticipating getting this electric pump.

If I was to prove up on this gas engine and pump I now have, it would not be what I feel would work out to best advantage, and as I understand a water right, I could not change to electric driven pump later because it would be different than what I had proven up on, and having the electric power, now, we would like to use that and would much prefer to prove up that way.

Your advice will be appreciated.

Yours very truly,

Homer L. Blood

P.S.- As I am called to jury service, Monday, Dec. 5th, would appreciate hearing from you, so I can make reply before that time.

17221

State of Idaho
DEPARTMENT OF RECLAMATION
BOISE

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

H. L. Blood
Route 2
Sandpoint, Idaho

Boise, Idaho, **October 7, 1938**

Dear Sir:—

Under the terms of your permit No. 17221 you are required to complete your diversion works on or before December 12, 1938 I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS
Commissioner of Reclamation.

17221

June 10, 1937

Re: Permit 17221,
H. L. Blood.

Mr. Marine Johnson
Sandpoint, Idaho

Dear Sir:

I have your letter of May 3rd, but it was only recently received in this office.

In checking the records I find that H. L. Blood has a permit for 1.6 second feet from the waters of Carr Creek. The permit is in good standing at the present time, as proof of completion of works will not be due until December 12, 1938. It originally was due several years ago, but he has obtained two 2-year extensions of time.

As long as this permit remains in good standing, I know of no way by which you can take it from Mr. Blood. However, in the event that he does not offer his proof on or before December 12, 1938, it will be cancelled. Furthermore, if you remove him from the property, he would not be able to make beneficial use proof, at least not for the lands at present described in the permit.

The only fees he has had thus far through this department was the filing fee of \$5.25, but he has been required to pay the newspaper for two publications. I imagine that the total amount would be about \$25.00.

I shall not attempt to answer the rest of your questions, since they are strictly of a legal nature. I therefore suggest that you consult an attorney for this information.

Very truly yours,

Deputy Commissioner of Reclamation

PLH:j1

17221

Landpoint Idaho May 3rd 1937
Department of Reclamation
Bureau of water rights, State Office
Boise Idaho
Gentlemen; 17221

Will you kindly advise me as to
the State law regarding water-
rights on streams for irrigation.

I am the owner of the following
described property in Bonner County,
South half of the northwest quarter,
The Northeast quarter of the Northwest quarter
& lots 3 and 4, Section 26, T. 57, North, of Range 3
West of Boise Meridian, on Carr Creek,

My tenant, Homer L. Blood, now in
default on contract to purchase the land
and now subject to removal from place.
Claimer he has applied water right
on Carr Creek, and has the water right
in his name, and will hold same.
(Carr Creek runs down through property)

Sheet
#6

Dept. of water rights

2 May 3rd '37

What I now wish to know is, has Homer L. Blood applied for the water right, and has his application been approved, or, proved up on, and at what cost to him in money,?

If Mr. Blood is removed from the property through default, can he continue to hold the water right on Carr Creek, and must I purchase the water right from him, or does he lose his right when he moves from the premises?

Can I apply for the water right now and get it in my name?

I will be thankful for some information in regard to the above questions.

Enclosed please find stamped envelope for prompt reply.

yours Truly

Commissioner of Reclamation

17221

November 25, 1936

Re: Permit 17221.

Mr. H. L. Blood
Route 2
Sandpoint, Idaho

Dear Mr. Blood:

Reference is made to your letter of November 17th. I note what you say with regard to the possibility of your securing power to operate your pump, rather than with the gas engine, as you originally contemplated doing.

As you know, one two-year extension beyond the regular statutory period has been granted for the proof of works under this permit. However, that was in the last biennium, and as a new emergency act was again renewed in the 1935 session, it is quite possible that you may secure another two-year extension of time.

The form which we are herewith enclosing should be executed before a notary public and returned to this department immediately. We shall then make publication, as required by law.

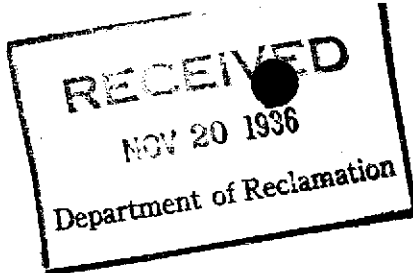

If no one objects to the granting of this extension, it will be approved immediately after the date set for hearing. If some one does file a protest, the Department's action will be entirely dependent upon whatever testimony is introduced at the hearing.

Very truly yours,

17221

Chief Clerk & Office Engineer

PLH:j1
Enc.

Sandpoint, Ida., Nov. 17, 1936.

Department of Reclamation,
Boise, Idaho.

Dear Sir: Re Permit 17221.

I have your letter of recent date with reference to the expiration of the above permit on Dec. 12, 1936.

The reason I haven't written sooner in answer to same is that I am trying to get a loan and was hoping to complete same before this date would expire and for this reason I don't know just what to say about advising whether or not I will be ready to prove up at this time. As it is we have pump and gas engine for front 7 acres and we want to complete this project for balance of 30 acres also, if we get loan.

Another thing we have to take into consideration is that, as you probably know, there is a Rural Rehabilitation Electric Project now being worked at that will supply electricity for this place when in. They tell us it is expected to be finished by Christmas. What we are thinking of is that we might want an electric pump for our system instead of the gas engine and would like to prove up in that way.

This depression has blocked us considerably in what we had hoped to do before this. Possibly it would be best to ask for another extension of two years on the complete project, even if we have part of it covered. What would be your suggestion, under the circumstances?

Yours truly,

H. L. Blood

Re: Permit No. 17221

MR. H. L. BLOOD
R # 2, Sandpoint,
Idaho

Dear Sir:

This will acknowledge receipt of your application for an extension of time under the provisions of House Bill 82, for the completion of the works required under the above permit.

We have prepared a notice for publication, a copy of which will be mailed to the Northern Idaho News at Sandpoint, Idaho, today with proper instructions for its publication. We have set the date for hearing at 10:00 A. M. on the 21st day of December, 1934. However, if no protests are filed it will not be necessary for you to make any showing and the hearing will go on record merely as a matter of form.

After the two weeks publication has been completed, kindly contact the editor of the newspaper and request him to furnish this office with an affidavit of publication.

Very truly yours,

R. W. FARRIS
Commissioner of Reclamation

Mr. R.W. Faris, Commissioner of Reclamation,
Boise, Idaho.

Dear Sir:

Replying to your letter of Nov. 20th, re permit #17221,
I am returning herewith signed application and request that you
do the necessary advertising of such application for extension
of water right in the Northern Idaho News, Sandpoint, Idaho.

Thanking you, I am

Yours very truly,

H. L. Blood

17221

PERMIT No.

EXTENSION OF TIME FOR COMPLETION OF WORKS UNDER HOUSE BILL No. 82,
SESSION LAWS OF 1933

STATE OF IDAHO

County of Bonner } ss.

H. L. Blood, of Dover, State of Idaho,
being first duly sworn, upon his oath, deposes and says:

That he is the owner and holder of Permit to Appropriate the Public Waters
of the State of Idaho, No. 17221.

That under the terms and conditions of said Permit, Completion of Works
thereunder is required by December 12th, 19 34.

That he has heretofore in good faith performed the following work and taken
the following steps to bring about the completion of the said works described
under the said Permit, to-wit:

Procured a 5 Horse Power Gas Engin, for the purpose of operating
the pumps. The Ground has been prepared for the pipe line at the
points of diversion.

That he is unable to complete the remainder of the said works and submit
proof of Completion of Works within the required time for the following reasons,
to-wit:

have been unable to procure the pumps and the pipe, on account of
the lack of funds, caused by the depression.

WHEREFORE, he makes application to the Commissioner of Reclamation to extend
the time for Completion of Works under the said Permit to December 12,
1934, pursuant to the provisions of House Bill No. 82, Session Laws of 1933.

Subscribed and sworn to before me this 24th day of November, 19 34.
Applicant

My Commission expires:

H. L. Blood
Notary Public for Idaho, residing at
NOTARY PUBLIC FOR THE STATE OF IDAHO
SANDPOINT IDAHO
MY COMMISSION EXPIRES JUNE 3RD, 1938

Date of receipt at office of Department of Reclamation: November 30, 19 34.

APPROVAL OF COMMISSIONER OF RECLAMATION

WHEREAS, Application for an extension of time for Completion of Works under
Permit No. 17221 has been made by the owner thereof,
which application was duly advertised in the Northern Idaho News
of Sandpoint, Idaho, for a period of two consecutive weeks; and

WHEREAS, A hearing in regard to the said application was then duly held at
Boise, Idaho, on December 21,
19 34, as specified in the said advertisement above referred to; and

WHEREAS, After taking into consideration all evidence and testimony intro-
duced at the said hearing, it appears that the owner of the said Permit is
entitled to a further extension of time within which to complete work:

NOW, THEREFORE, I, R. W. FARIS, Commissioner of Reclamation of the State of
Idaho, by virtue of the authority vested in me under House Bill No. 82, Session
Laws of 1933, hereby extend the time for Completion of Works under Permit to
Appropriate the Public Waters of the State of Idaho, No. 17221
to December 12, 19 36.

WITNESS My hand this 26th day of December, 19 34.

Re: Permit No. 17221

MR. H. L. BLOOD
R # 2, Sandpoint,
Idaho

Dear Sir:

We are enclosing herewith an application upon which you may make application for an extension of two years time in which to complete the works required under the above permit. This application will be made under the provisions of House Bill No. 62 and immediately upon its receipt, notice of such application will be published, once a week for two consecutive weeks, prior to the date set for hearing. If you have any preference as to newspapers, kindly indicate which one you wish to have make the publication. This paper must be located within the county wherein your works are situated.

Very truly yours,

R. W. FARIS

Sandpoint, Ida., Nov. 15, 1934.

Mr. R.W. Faris, Commissioner,
Department of Reclamation,
Boise, Idaho.

Dear Sir: Re Permit #17221

I am in receipt of your instructions as regards Proof of Completion of Works- re above permit. As I have applied for a government loan and asked for a certain amount to complete this project and as it seems now we won't be able to get loan through before the expiration date of this permit, I am writing you to ask if it would be at all possible for your department to extend the time of completion of my diversion works for a term of two years.

Owing to the depression our plans have not materialized as we had hoped. Of course, it is understood that if we are able to complete this project before that time we will be glad to do so.

Yours very truly,

H.L. Blood

P.S.- Please change our address from Dover, Idaho, to Route 2, Sandpoint, Idaho.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

MR. H. L. BLOOD
Dover, Idaho

Boise, Idaho, **October 3, 1934**

Dear Sir:—

Under the terms of your permit No. **17221**.....you are required to complete your diversion works on or before **Dec. 12, 1934**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS
Commissioner of Reclamation.

Re: Permit No. 17221.

Mr. H. L. Blood
Dover, Idaho

Dear Sir:-

Referring to your letter of the 16th inst. would say that the only way to make the corrections set out in your letter would be by an affidavit of change of point of diversion, blank for which is enclosed. In this affidavit, you could also state the facts regarding the name of the stream from which the water is diverted. This affidavit will then be recorded under the permit here and be considered a part of same.

Your permit is, therefore, herewith returned to you without making any change. When your affidavit has been recorded here, the original will be returned to you for your own files.

Very truly yours
R. W. FARIS
Commissioner of Reclamation.
By
Chief Clerk.

Bover, Ida., June 16, 1931.

Department of Reclamation,
Boise, Idaho.

My dear Sirs:

Application #24251
Re Permit #17221-Dec. 16, 1929.

I am returning Application for permit and drawing to you for correction in two places.

First, I find that "Carr Creek" is also known by a few old timers as "Rimers Creek"; although "Carr Creek" is what it is called now and known by, so think "Formerly Rimer's Creek" should be inserted after "Carr Creek."

Second, as per drawing, pond changed to S.E. 1/4 of N.W. 1/4.

I have started work as per permit and have a good start on 1/5 of work done now.

Yours very truly,

N. L. Blood
