Mr. Clarence C. Russell

Dear Mr. Russell:

We are in receipt of your letter of June 12, 1970. Inasmuch as permit No. 96-2110 was personal property of Charles Kajander, the only way your name could be placed on the permit would have been for the deceased, or the administrator of his estate to have assigned the permit to you. Under Idaho water law, once the permit is licensed, it becomes vested in the property it covers. Therefore, whoever owns the property will own the water right vested in that property. We feel that if you have good title to the property, then this water right will be under your control.

You refer to a permit from the Forest Service, originally under the Kajander name, which was cancelled, and that the Forest Service then issued a permit under your name. We feel that this must be an easement or right-of-way, inasmuch as no federal agency deals in administering the water of the State of Idaho. All the waters of the State of Idaho are under a state jurisdiction, and this is entrusted in the Department of Reclamation.

If you have any questions on the matter, please contact us.

Very truly yours,

Donald W. McEldowney

We received the water permit
but you made it out to -

Chas. Kajander who is deceased
and the previous owner.

We have a water permit from
the forest service with the name

Clarence C. Russell which is
correct. We also have a letter
dated Nov. 2, 1951 from the Forest
Service saying the permit to Kajander
is cancelled and issuing one to
Clarence C. Russell. 96-2110

How come we had to send
you \$5- for a water permit that's
not in our name and we already

had one from the Forest Service,
since it's on their land.

At least kindly send us a
permit for Clarence C. Russell
for our \$3.00.

Is this state permit good
until such time that we ever
decide to sell?

Dear Mr. Russell:

A representative of this department has made an examination of the works covered by Permit 96-2110 and has found the following:

Quantity of water diverted: 0.02 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 0.02 c.f.s.

The maximum quantity diverted shall not exceed 0.57 acre feet per season.

Beneficial Use: Domestic purposes within the NW 1/4 Sec. 4, T. 54 N., R. 3 E., B.M.

The priority date established is: July 25, 1925

A fee totaling \$ 5.00 must be received within 30 days from the date of this letter in order that we can issue the Water License as described above.

Very truly yours,

Donald W. McElowney

Dear sir: -

In my application I stated that I would use one inch pipe, but used only $\frac{3}{4}$ in. which is large enough to carry all the water that comes out of spring.

Just below the spring I made a little reservoir or tank from which the water is piped. I didn't think it necessary to apply for storage permit for that. I have used the water about two years already. 16325-

wish to get some information
how to get the best proof
Would it really be necessary?

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Charles Kajander,
Cabinet, Idaho.

Boise, Idaho,
April 5, 1928

Dear Sir:—

Under the terms of your permit No. ~~16525~~..... you are required to complete your diversion works on or before **July 27, 1928**..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

GEO. H. CARTER

Commissioner of Reclamation.
