Re: Permit No. 15624

Mr. William I. Garland
Route #1
Sandpoint, Idaho

Dear Mr. Garland:

In reply to your letter of October 17 regarding License No. 15624:

This license is for ten (10) inches, or 0.2 of a second foot of water from Switzer Creek for the irrigation of ten acres in the SE 1/4 Section 26, Twp. 58 N., Range 2 W. B.M., with priority of September 7, 1922.

This license is valid so long as the water is used for the purpose indicated and if it is included in your deed it is not necessary to have it recorded in your name in this Department.

The original filing was for 20 inches and if more than 10 inches has been used on this land a supplemental proof may be made for an additional 10 inches.

It is also possible for you to file a new application for a larger amount if you so desire.

Very truly yours,

Gentlemen:

I have purchased some land lying
in SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 26, T. 58 N., R. 2 W. B. M.

According to my abstract license
15624 was issued to W. W. Burdick
(a former owner) to appropriate
water from Salmon Creek.

I would like to inquire if this
license is still in effect, if it is
necessary to renew it in my name,
how much water it allows, and if
it would be possible to apply for
an additional amount?

I am the first user on this
creek, as it heads in the hills just
back of my place. There is an
abundance of water, and as far as
I can ascertain it is not being used
for any other purpose.

Yours very truly,
Wm. J. Garland

Re: Permits No. 14233 & 15624

MR. JOHN M. SHERWOOD
Sandpoint,
Idaho

Dear Sir:

Upon examination of the records of this department, we find that they verify the information given in your letter, with reference to the amount of water authorized by the license issued under Permit No. 15624 for the waters of Switzer Creek, to W. H. Burdick. We also find that Permit No. 15624 has a date of priority as of September 7, 1922.

Permit No. 14233 was issued to Mr. J. C. Hughes, the party of whom you speak in your letter. He has a licensed right and is entitled to divert 0.64 of 1 cubic foot per second, with a priority of August 21, 1919. Therefore, Mr. Hughes is entitled to divert the quantity of water authorized by his license before you, as purchaser of the Burdick property, would be entitled to any water. However, he has nothing to say about the water in the stream over and above the amount authorized by his license.

You further say that the water on Mr. Hughes' place has not been used for irrigation for the past 5 or 6 years, according to the neighbors, and that his ditch is not in any condition to carry water. If this is true, your only recourse is to bring an action in your district court to prove abandonment of the Hughes right. According to the laws of this state, 5 consecutive years non-use constitutes abandonment.

Dear Madam:

This is to inform you that the following rights on SWITZER CREEK in Bonner County are in good standing at the present time:

J. C. HUGHES, license 14833, for .64 of a second foot, filed August 21, 1919. The point of diversion is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, sec. 35, T. 58 N., R. 2 W.B.M.

W. H. BURDICK, license No. 15624 for 0.2 of a second foot, filed September 7, 1922. The point of diversion is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, sec. 26, T. 58 N., R. 2 W.B.M.

A number of other filings have been made on this stream, but all of them have been cancelled because of failure of the permit holders to offer proof of completion of works in accordance with the terms of their permits.

When a water right is acquired for a certain piece of land it becomes appurtenant to that land and it cannot be transferred or sold separately from the land until the owner has first secured permission from the Commissioner of Reclamation. The Department provides a regular form of application for transfer. Should you desire to transfer water, the necessary blanks will be forwarded to you upon request.

Dear Sir:-

Replying to yours received today would say that the papers in the matter of proof of beneficial use of water under the above permit were duly received and were in proper form. The license has been withheld pending the examination and report of our engineer. This examination has been made but the report of the engineer has not yet been made up. As soon as the engineer returns to the office, this matter will be attended to.

The fees due before issuing the license will be \$2.00, as there is part of only one forty cultivated and irrigated.

Re: Permit No. 15624.

Mr. W. H. Burdick,
Sandpoint, Idaho.

Dear Sir:-

Referring to yours of the 26th would say that the first step toward proof of beneficial use of water is to fill out the enclosed notices and return same to this office. The date for making the proof should be set far enough ahead to allow for five publications of the notice. The notice is required to be published in the county in which the lands are located but the proof may be made at any place most convenient to yourself and two witnesses, and before any notary public, or other officer authorized to administer oaths in the State. Deposition blanks will be mailed to the notary public prior to the date set for proof. The notice for publication will be sent to the paper from this office, upon receipt of the notices for you.

Very truly yours,

W. G. SWENDSEN,

Commissioner of Reclamation.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. W. H. Burdick,
Sandpoint, Idaho.

Boise, Idaho,
January 10, 1923.

Dear Sir:—

Under the terms of your permit No. 15624 you are required to complete your diversion works on or before Apr. 19, 1923. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

W. G. SWENDSEN.

Re: Applications. 22171

Mr. W. H. Burdick,

Dear Sir:

Receipt is acknowledged of your application to appropriate the waters of Switzer Creek. Before your application will be acceptable it must be made out in ink and signed on page 3 and the following corrections made.

State whether range 2 is East or West. On the map you have shown the $S\frac{1}{2}$ NW $\frac{1}{4}$ and the $S\frac{1}{2}$ NE $\frac{1}{4}$ of Sec. 23 as the land to be irrigated, while your application shows the $S\frac{1}{2}$ SW $\frac{1}{4}$ and the $S\frac{1}{2}$ SE $\frac{1}{4}$ of the same section. The map and the application should be made to agree in this respect.

Your application is returned herewith for correction.
