Permit No. 12073

STATE OF IDAHO)
 (ss.
County of Bonner)

Samuel Owen, being first duly sworn, deposes and says: That his postoffice address is Hope, Idaho. That he is the owner of and using a certain water right, for 0.1 cubic feet per second of the water of an unnamed stream, County of Bonner, State of Idaho, obtained by virtue of Permit to appropriate the public waters of the State of Idaho, No. 12073, issued by the State Engineer, dated April 22, 1916, bearing date of priority of February 21, 1916 for the purpose of irrigating the following described lands, situate, lying and being in Water District No. 96, in County of Bonner and State of Idaho, to-wit: For domestic use at mining cabin near an unnamed stream in NW $\frac{1}{4}$ of Sec. 20, Twp. 56 N., R. 2 E., and is the person (or representative of the person or persons) to whom such right was so issued, (or has become owner thereof in the following manner:§ That said waters are now diverted from said stream in the SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Sec. 20, Twp. 56 N., R. 2 E., and conducted to the above described lands through the private pipe line, as per map filed herewith and of this affidavit made a part;

That affiant desires to change the point of diversion of said waters from the point above described to a point located in NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Sec. 20, Twp. 56 N., R. 2 E., B. M. and thereafter conduct same to the above described lands through the pipe, as per map above referred to;

That his reasons for desiring to make such change are as follows: The description, SW $\frac{1}{4}$ of SW $\frac{1}{4}$, Section 20, T. 56 N., R. 2 E., B. M. is wrong, and should read NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 20, T. 56 N., R. 2 E., B. M.

That no one will be injured by such change and that such change will be made at affiant's own risk.

Re: Permit No. 12073

Mr. Sam Owen
Clark Fork, Idaho

Dear Mr. Owen:

As per your request of April 20, 1948, we enclose a copy of License No. 12073 for .1 of one second foot of water from an unnamed stream, tributary to Pend d' Oreille Lake, for domestic use on the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 20, Township 46 N., Range 2 E. B.M.

As you will note this license shows the point of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 20, Township 56 N., Range 2 E. B.M., but after the license was issued an amendment was made changing the point of diversion to the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of this section.

We have no record of any other filing on water in this same location.

Enclosed is also Departmental Receipt No. 20569 for the \$1.00 fee paid by you for this copy.

Re: Water License No. 12073

SAMUEL OWEN
Hope, Idaho

Dear Sir:

This will acknowledge receipt of your letter of January 20th which was accompanied by the above license. You stated that the point of diversion as described in this instrument is in error in that it shows it in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 20, T. 56 N., R. 2 E., B. M. whereas it is actually located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of said section. You further stated that you wished to have the records corrected accordingly.

We are sorry to advise you that this office can not correct any record merely upon an informal request. There is, however, a regular form of affidavit for changing the point of diversion. If you will therefore go before a Notary Public and execute the form which we are herewith enclosing for your convenience, and return it to this department, we shall be glad to make such change in the record. Also, kindly return your license with the affidavit.

BOISE, IDAHO, March 28, 1918.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under your Permit No. 12073.

DEPOSITION OF PERMIT HOLDER,

DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On ~~April 22nd, 1918.~~ April 22nd, 1918., the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at Hope, before John Dooley, notary public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$2.00 for each 40-acre tract, or fraction, to which water has been applied. When these have been received together with report of examining engineer, if everything is properly executed, License will issue.

Yours truly,

DEAR SIR:

Mr. Samuel Owen, residing at Hope
Idaho
County of _____, State of _____, has requested that
you make examination required under Permit No. 12073. Will you
therefore, arrange with the holder of said Permit to make such examination as will
enable you to answer the questions on the enclosed blank? Also, make a sketch on
the enclosed blank plat showing source of supply, point of diversion, route of ditch
and place of use. You should, also, arrange with the holder of said Permit for the
payment of your fee for your services, and such proper expenses as you will incur in
making this examination and report.

Please advise me promptly of receipt of this communication, and whether or not
you will be able to make the examination and report as required.

Re Permit 12073-

Mr. Samuel Owen,
Hope, Idaho.

Dear Sir:--

We have today authorized Mr. Dave Demars to make the examination and report on beneficial use of water under above permit.

As to cutting down the amount of water would say that one-tenth of a second foot would be many times more than you could possibly use for domestic use alone. One inch of water per second equals nine gallons per minute. One-tenth of a second foot, or fifty inches, would give you forty-five gallons per minute.

Notice of proof will be mailed to the Pand d'Oreille Review within the next few days.

Very truly yours,

FRED A. WILKIE,

State Engineer.

Re Permit 12073.

Mr. Samuel Owen,
Hope, Idaho.

Dear Sir:—

Replying to your letter of the 4th inst., in which you enclose notice of final proof under above permit, together with money order for fees for proof of completion of works, would say that the statutes refer to proof of completion of works only, where the amount claimed exceeds 6.4 second feet. Notice of final proof is required to be advertised regardless of the amount of water claimed. One copy of notice will, therefore, be mailed to the ~~Pend d'Oreille~~ Review for the required publication prior to April 22nd and deposition blanks will be mailed to Mr. John Dooley, notary public.

Certificate of completion of works will be issued and mailed to you soon, with receipt for fees.

Before license can be issued you upon final proof, it will be necessary for you to have the works examined by some competent person, not necessarily a licensed engineer but some one familiar with such work. If you can send us the name of some one near you who can do this work for you, the report blank will be sent to him.

The amount of water has been cut to one-tenth of a second foot instead of one second foot, as the proof of completion of works show the capacity of the works to be insufficient.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

S. Owen,
Hope, Idaho.

Jan. 8, 1918.

Boise, Idaho,

Dear Sir:—

Under the terms of your Permit No. **12073**, you are required to complete your diversion works on or before **April 22, 1918**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J. H. SMITH,
State Engineer.
