Priority: 7-5-15.

STATE OF IDAHO

Water License No. 11615

Water District No. 99

WHEREAS, On the 5th day of July, A. D. 1915, Dover Lumber Co.

of Dover, County of Bonner, State of Idaho, duly made application (No. 16630) to me for a permit to use 25 cubic feet per second of the waters of

Carr Creek, in Water District No. 99

County of Bonner, State of Idaho, for domestic and logging purposes, and,

WHEREAS, On the 11th day of September, A. D. 1915, Permit No. 11615 was issued to said applicant for the diversion of said water and providing for the completion of the works of diversion therein described on or before the 11th day of March, A. D. 1916, and for the application to beneficial use of said water on or before the 11th day of September, A. D. 1916, and,

WHEREAS, On the 10th day of March, A. D. 1916, Dover Lumber Co.

the holder of said permit, duly made proof of the completion of adequate works for the diversion of 25 cubic feet per second of said waters, as evidenced by my Certificate No. 11615 dated March 21, 1916, confirming the completion of works of sufficient capacity for diverting and conveying to the place of intended use 25 cubic feet per second of said water with date of priority of July 5, 1915, and

WHEREAS, On the 10th day of March, A. D. 1916, Dover Lumber Co.

the holder of said permit, duly made proof of the application to beneficial use of 25 cubic feet per second of said water:

NOW, THEREFORE, By virtue of authority vested in me by the laws of the State of Idaho, I hereby grant and confirm to Dover Lumber Co.

of Dover, County of Bonner, State of Idaho, the holder and owner of said Permit No. 11615, a perpetual right, dating from July 5th, 1915 to the use of 25 cubic feet per second of the water of Carr Creek

in the County of Bonner and State of Idaho, or so much thereof as may be necessary for the purposes hereinbelow mentioned, to be diverted as follows, No. 1, in the SW $\frac{1}{4}$ of NE $\frac{1}{4}$,

Sec. 14, and No. 2 in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ Sec. 14, T. 57 N., R. 3 W., B.M.

and conducted ~~through flumes~~ through flumes from various holdings of the Dover Lumber Company, to the Pend d'Oreille River..

for the purpose of loggings and domestic use, subject, however, to the laws of the State of Idaho, applicable to a license for the use of the waters of the State, and subject, also, to the local or community customs, rules and regulations which have been or may be adopted from time to time by a majority of the users from a common source or supply, canal or lateral from which such water may be taken, when such rules and regulations have for their object the economical use of such water.

WITNESS, My hand and the seal of my office at Boise, Idaho, this 21st day of March A. D. nineteen hundred and Sixteen

J. H. SMITH

APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

1. Name of applicant: Dover Lumber Co.

Postoffice address: Dover County: Bonner State: Idaho.

I. If applicant is a corporation, give

- (a) Date and place of incorporation: Jan'y. 26, 1910 at Dover Idaho.
 (b) The amount of capital stock: \$750,000
 (c) The amount paid in: \$750,000
 (d) Names and addresses of directors: O. F. Noth, E. N. McDevitt and B. H. Hamby, Dover, Idaho, J. E. Lynds and J. C. Campbell, Cloquet Minn, Edgar Dalzell, Chicago and Mary W. Cranbie, Spokane, Wn.

II. The financial resources of the applicant are: (a) Cash on hand: May 31, 1915- 35842.50
 (b) Treasury stock: 30,000 (c) Bonds to be issued: none
 (d) Other resources: Timber plant etc. 900,000

2. The quantity of water claimed is Twenty-five (25) cubic feet per second.

3. Source of water supply: Carr Creek.

4. Location of point of diversion: SW of NE $\frac{1}{4}$ Sec. 14 Tp. 57 N. 3 W. B. M.

County of Bonner.

5. To be used for: Transportation of logs and timber products.

I. Irrigation and domestic use: (a) Amount of land to be irrigated: acres.
 (b) In the following legal subdivisions:

II. Mining, milling, power, manufacturing, transportation or other purposes:

(a) At what point:

- (b) Amount of power to be generated: H. P. under ft. head
 (c) Is water to be returned to any stream? yes (d) If so, name stream and locate point of return: Pend d'Oreille River Sec. 31, Twp. 57 -3 N- Lot 4 being NW $\frac{1}{4}$ of NW $\frac{1}{4}$ Sec. 31.

6. Estimated cost of works: \$15,000

7. Description of works for diversion:

I. Kind of works: Dams and flume.

II. Dimensions of works:

- (a) Height of dams 5 to 10 feet, length of dam at top 100 to 300 feet, length of dam at bottom 100 to 300 feet. Material used in construction: Logs, earth, lumber and stone.
 300 x 1000
 (b) Capacity of reservoir 100 x 300 acres feet. (c) Size of headgate, width 5 feet, or 6 to 8 inches
 Height same as dam (d) Conduit flume width at bottom V shape/feet, width at water line 7 feet, depth of water 3 to 7 feet; diameter of pipe V flume about 3 to 4 shaped / inches; average grade per mile is 150 feet. Length of conduit is / miles, and it crosses the following quarter sections: SE $\frac{1}{4}$ Sec. 14, SW $\frac{1}{4}$ Sec. 13, NW $\frac{1}{4}$, SE $\frac{1}{4}$ & NE $\frac{1}{4}$ Sec 24, NE $\frac{1}{4}$ Sec. 25 all in Twp. 57 N. 3 W. and NW $\frac{1}{4}$ and SW $\frac{1}{4}$ Sec. 30 and NW $\frac{1}{4}$ Sec. 31, Twp 57 - 2 W - as per plat herewith.

8. The time required for the completion of the construction of such work is 4 mos. years.

9. Time required for the complete application of the water to the proposed use is 6 months additional ~~years~~.

BE IT KNOWN That the undersigned hereby makes application for a permit to appropriate the public waters of the State of Idaho as herein set forth.

Dover Lumber Co.

Applicant.

By B. H. Hamby, Pres. Agent.

Date of first receipt at office of State Engineer 9.00a.m. July 5, 1915.

Returned to applicant for correction August 5, 1915.

Corrected application received September 7, 1915.

APPROVAL OF STATE ENGINEER

The number of this permit is 11615.

Recorded in Book 39 Page 11615 Approved September 11, 1915.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of _____ to be filed on or before

Work to begin on or before November 10, 1915 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before December 11, 1915.

The whole of said work to be completed on or before March 11, 1916.

Beneficial use of water appropriated in accordance herewith, to be made on or before September 11, 1916.

Witness my hand this 11th day of September, 1915.

J. H. Smith,
State Engineer.

Remarks:

We have a considerable body of timber in this vicinity probably 30 million feet or more to come out this way which may require 10 years or possibly 15 years due to varying seasons and after which time we have no further use for water rights. Point of diversion in Sec. 14 is owned by Dover Lumber Co.

PERMIT No. 11615.

CERTIFICATE OF COMPLETION OF WORKS.

To All Whom It May Concern:-

This is to certify that Dover Lumber Co., of Dover, County of Bonner, and State of Idaho, the holder of Permit No. 11615, issued upon Application No. 16630 bearing date of priority of July 5th, 1915, authorizing the diversion of 25 second feet of the waters of Carr Creek, County of Bonner, State of Idaho for domestic and logging purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of works of diversion set out and described in said permit; that said works are adequate for diverting and conveying to the place of intended use 25 second-feet of the waters of Carr Creek. That the points of diversion of said waters are as follows: No. 1 in the SW $\frac{1}{4}$ of NE $\frac{1}{4}$ Sec. 14. No. 2 in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ Sec. 14, T. 57 N., R. 3 W., B.M., and that the place of use of said water is through flumes from various holdings of the Dover Lumber Co., to the Pond d'Oreille R.

Witness my hand this 21st day of March, AD.1916.

J.E. SMITH, State Engineer of the
State of Idaho.

License issued for 25 second feet

Re: Permit No. 11615

MR. B. H. HORNEY, President
Dover Lumber Co.,
Dover, Idaho

Dear Sir:

Under date of October 9th we received an Abstract of Title from you accompanied by a letter requesting information relative to certain water rights. The rights to which you refer being listed on pages 14, 15 and 16 of the Abstract were filed under what was known as the Location Notice System. Under this system of initiating water rights the claimant was required to post a notice at the point of diversion stating the amount of water he proposed to appropriate the usage and the point of use. He was also required to file a copy of this notice in the County Recorder's office in the county where the works were to be located. He was not required to do anything further in the nature of offering proof of completion of his works or the application of the water to beneficial use. Consequently, under this system there was nothing placed on record to show usage of the water and a claimant must rely solely upon parol evidence in court in order to establish his right. If the water claimed under these particular notices has been used continuously from the date when the notices were posted then there should not be any difficulty for the present owners in obtaining a court decree.

In 1903 the permit law was passed which did away with this system of filing on water and from that time on control of the public waters has been vested in this office. You, no doubt, are familiar with the procedure under this law.

At the time when you filed application for permit No. 11615 you gave the purpose of the appropriation as transportation of logs and timber products. You complied with the terms of this permit and on March 21, 1916 a license was issued to you for 25 second feet of water, bearing date of priority as of July 5, 1915. You say that the timber has been removed and that the flume through which this water was diverted has been abandoned. In view of the fact that no other purpose was mentioned in the permit, other than the transportation of logs and timber, the water could not be used in any other manner. However, there are no objections, so far as this office is concerned, to your using the water for domestic purposes or for any other purposes, providing no other rights would be impaired by your so doing.

The only permit which was issued to appropriate the waters of this stream, that is now in good standing, is in the name of H. L. Blood (17321). This permit authorized the diversion of 1.6 second feet of water and bears date of priority as of December 11, 1929.

11615

2. H. B. Hornby, Dover, Idaho

10-11-33

Should you care to make a new filing on the water in question, at the present time, we would be glad to forward the necessary blanks upon request.

We are returning the following papers: Abstract of Title, Water License No. 11615 and map of Pend Oreille National Forest.

Very truly yours,

R. W. FARIS

DOVER, IDAHO
October 8th. 1933.

Mr. R. W. Faris,
Commissioner of Reclamation,
Boise, Idaho,

Dear Sir:

We are sending you herewith the following papers:

Abstract of title to part of Sec. 30-57-2 W.
Water license #11615.
Pend d'Oreille National Forset map.

These papers are sent you for reference in connection with the following inquiry.

We still own most of SW $\frac{1}{4}$ pf section 30-57-2 W. and are desirous of securing additional water on other lands we own nearby.

Pages 14-15 and 16 of the abstract show application for water from Cold Springs Creek, shown on the map as a small creek and unnamed. Later water from Riners Creek (Page 15 of Abstract) is secured by the former owners of the land in S $\frac{1}{2}$ Section 30-57-2 W. Riners Creek is undoubtedly the one shown as Carr Creek on the diagram in connection with Water License #11615 and on the government map as Trout Creek.

The main purpose for which we secured Water License #11615 was for transportation of logs to our sawmill nearby and as the timber has been removed the flume has been abandoned.

What we should like to know is whether we have any of the rights granted under License #11615 even though the flume has ceased to be of value or whether these rights have since been granted to others?. We believe we had a right at one time to use water from these streams for domestic purposes in connection with the townsite of Dover, located on Sections 29 and 32-57-2 W. but as we sold our plant here in 1922 to the A. C. White Co. and gave them all our rights to water for the same purpose (domestic use for Dover) we are not clear on our standing regarding this feature.

The small creek running through Section 30-57-2 W. is sometimes called Linstrom Creek although it is shown without a name on the Forset Service map enclosed.

We would greatly appreciate any information you can give us on this matter.

Very truly yours,
Dover Lumber Co.

Re: Permit No. 11615.

Dover Lumber Co.,

Dover, Idaho.

Gentlemen:

Replying to your letter of the 13th, in regard to the use of water from Carr Creek for irrigation purposes, we beg to say that this would require a new filing taking a new priority.

Your permit No. 11615 states that the water is to be used for the transportation of logs and timber products and that the water is to be returned to Pond O'reille river. The use of the water for irrigation, would therefore be an entirely different proposition and would consequently have to take a different priority, than the priority of the above permit.

You could file your application for permit to use the water for irrigation at any time and if the application is completed within the required time, the permit would have the priority as the date upon which your application was first received here. Then if proof of completion of works and proof of beneficial use are made within the time allowed, your permit would retain same priority. You would then ~~surely~~ receive license with the same priority.

Eventually

Very truly yours,

J.H. Smith,

State Engineer,

DOVER, IDAHO. December 13, 1916.

State Engineer,
Boise, Idaho.

Dear Sir:

A permit, No. 11615, was issued us something over a year ago for the use of the water from Carr Creek in Township 57 - 3 West for the purpose of fluming logs. We have constructed four miles of logging flume and this flume passes through sections 14 and 24 of our holdings from which we have cut the most of the timber and which we expect to improve later making a ranch of it.

What procedure would be necessary to grant us the use of the water for irrigation purposes on these tracts even though we do not at this time avail ourselves of the permission to use it?

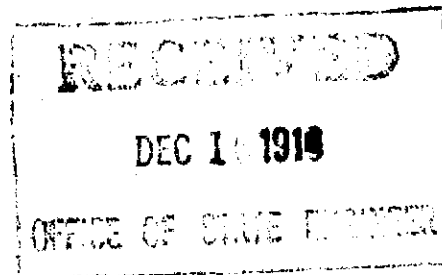

Your advice on this subject would be much appreciated.

Yours very truly,

Re Permit 11615.

Mr. B. H. Hornby,
Pres. Dover Lumber Co.,
Dover, Idaho.

Dear Sir:--

We are today in receipt of your letter enclosing depositions of yourself and two witnesses for proof of completion of works, depositions of two witnesses for proof of beneficial use of water, affidavit of publication and check in the sum of \$12250 for fees, for proof of completion and beneficial use of water under above permit. To complete the proof it will be necessary to have the deposition of the holder for the proof of beneficial use of water as well as the proof of completion of works, and I enclose herewith blank for same. The receipt for fees will be issued upon receipt of the affidavit.

It will be necessary for the company to file another application for irrigation purposes, as this permit was filed for logging purposes only. They can then obtain eleven years time for the beneficial use of the water for irrigation purposes, if they so desire. Application should be made upon the enclosed blank. Under the head of remarks, you should state that the same works are used for diverting and conveying the water as under the above permit.

Very truly yours,

J. H. SMITH,

State Engineer.

DOVER, IDAHO, March 10, 1916.

Mr. J. H. Smith, State Engineer,
Boise, Idaho.

Dear Sir:

We are now handing you Depositions of two witnesses in reference to Completion of Works and Application of water to Beneficial use as well as Deposition of Holder of Completion of Works all of which we trust will be found in order and will complete the information necessary for the issuance of final permit for diversion of the water under permit #11615.

I call your attention to the answer to question No. 4 in the Deposition of Holder, in reference to later on irrigating cut-over lands. As explained to you in some of our former correspondence we own a considerable body of timber to come out by means of this flume and later on will probably want to clear and cultivate some of the lands and irrigate them, conveying the water to the various locations with this flume, all of which we trust can be covered fully in the permit.

If, however, this is a matter which requires more formal information we would like the permit issued insofar as the permit applies to logging purposes.

If any further information is desired will you kindly advise us at once, and oblige

AFFIDAVIT OF PUBLICATION

STATE OF IDAHO, }
County of Bonner. } ss.

Wm Hallenback being duly sworn, says that he is the publisher of the PEND D'OREILLE REVIEW, a weekly newspaper printed and published at Sandpoint, Bonner County, Idaho, and that said newspaper during all the time herein mentioned is, and was a newspaper of general circulation, published weekly, and that the annexed is a true copy of the notice for publication in the case of

Proof of Completion of Application for Water right as it was published in the regular and entire issue of said paper for a period of four consecutive weeks, commencing on the 17th day of December, 1915 and ending on the 7th day of January, 1916 and that said notice was published in said newspaper proper, and not in supplement form.

Subscribed and sworn to before me this 8th day of

January, A. D. 1916.

M. J. M. Smith
Notary Public, State of Idaho--Sandpoint.

NOTICE OF PROOF OF COMPLETION of Works and Application of Water to Beneficial Use.—Notice is hereby given that at 10 a. m. on the 22nd day of January, 1916, at Dover, county of Bonner, State of Idaho, before O. F. Noth, notary public, proof will be submitted of the completion of works for the diversion of the waters of Carr creek and of the application to beneficial use of said water in accordance with the terms and conditions of Permit No. 11615, heretofore issued by the State Engineer of the State of Idaho.

1. The name and post office address of the person, or corporation, holding said permit are Dover Lumber Co., Dover, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of use, in accordance with the plans accompanying the application for such permit is twenty-five (25) cubic feet per second.

3. The use to which said water has been applied is irrigation and domestic and logging purposes, and the amount applied to beneficial use is twenty-five (25) cubic feet per second.

4. The place where said water is used is Sec. 24, T. 57 N., R. 3 W. B. M. and Sec. 30, T. 57 N., R. 2 W. B. M.

5. The date of priority which said user is prepared to establish is July 5, 1915.

J. H. SMITH, State Engineer.

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. B. H. Hornby, 47 years, Dover, Idaho, President Dover Lumber
Co., Dover, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Dover Lumber Co., Dover, Idaho, President of Corpor-
ation. Authority vested in By-laws.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. #11615, July 5th, 1915, 25 Cubic feet per second, S.W.
N.E. Section 14 - Twp. 57 N. R. 3 W.B.M.

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. For Fluming logs to Pend d'Oreille River for use in Dover
Lumber Co.'s mill, and later to irrigate cut-over lands.

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. Yes. Several times, but the signer of this deposition saw
25 Cubic feet or more running in flume March 8, 1916.

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. Yes.

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. _____

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. One dam 140 ft. long, 60 ft. wide at bottom, 18 ft. wide at top,
26 ft. high built of logs and sided with planking. One dam
150 ft. long 55 ft. wide at bottom 14 ft at top 22 ft. high
built of logs and sided with planking. Nearly four miles
of well constructed lumber flume with five feet sides at a 90°
angle at a cost of approximately \$20,000.00. *(Sign here)* B. H. Hornby

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, in Dover Idaho, County of

Bonner, State of Idaho, on this 10th day of March A. D. 1916

OFFICE OF STATE ENGINEER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. P. J. Campbell, 47 years, Woodman, Dover, Idaho.

Ques. 2. Are you acquainted with B. H. Hornby, President Dover Lumber Co the holder of Permit No. 11615, authorizing the diversion of 25 second-feet of the waters of Carr Creek, at SW 1/4 NE 1/4 Sec. 14, T57N, R3W for Log Fluming purposes? How long have you known him, and where does he reside?

Ans. Since September, 1915. Dover, Idaho.

Ques. 3. Have you read or heard read said Permit No. 11615, and are you familiar with its terms and conditions?

Ans. Yes Yes.

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yea.

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. One dam 140 ft. long, 18 ft. wide on top, 60 ft. at bottom. Sided with Planking 26 ft. high built of logs cribbed. One dam 150 ft. long 14 ft. wide at top, 55 ft. wide at bottom. Sided with planking 22 ft. high built of logs cribbed. And nearly four miles of "V" shaped flume built with five feet sides at a 90° angle with capacity sufficient to carry all the water applied for.

Proof of Application of Water to Beneficial Use

P. 11615

Dover, Idaho,
January 25, 1916.

Mr. J. H. Smith, State Engineer,
Boise, Idaho.

Dear Sir:

I have your favor of January 18th relative to papers forwarded me some time ago in connection with proofs of completion of work and use of water under permit #11615 issued to the Dover Lumber Co.

I note that proof of completion of the work is not due until March 11th and that you authorize me to continue proof until that date.

This matter will have my close attention, and I beg to remain

Yours very truly,

O. J. Hook

11615

January 18th, 1916.

Re: Permit 11615.

Mr. N. F. Hoth,
Notary Public,
Dover, Idaho.

Dear Sir:-

Referring to the matter of proof of completion of works and beneficial use of water under the above permit for which blanks forms were recently sent to you: The permit holder advises that due to adverse weather conditions he has been unable to entirely complete the works in the time that it had been expected when the proof was advertised and the date set.

Inasmuch as the proof of completion of works is not due until March 11th, and proof of beneficial use later, you are hereby authorized and requested to continue the proof to March 10th, 1916.

If any one should appear on January 22nd the date originally set, for the purpose of filing protest or for any other purpose in connection with these proofs, please give notice of this continuation.

Kindly acknowledge receipt of this letter.

Very truly yours

JHS-NS
C.C. To Dover Lbr. Co

State Engineer.

11615

January 14th, 1916.

Re: Permit No. 11615.

Dover Lumber Co.,
Dover, Idaho

Gentlemen:-

Replying to your letter of the 11th regarding proof of completion of works, and proof of beneficial use of water under the above permit, wherein you advise that it has been impossible to entirely complete your flume at the lower end on account of weather conditions, and that for this reason water has not yet been carried through the flume: I would advise that you could hardly, under the circumstances offer proof of beneficial use of the water. I note however that the proof of completion of works is not due until March 11th, 1916, and that proof of beneficial use of water is not due until September 11th, 1916.

Without injury to the right which you have acquired under this permit, No. 11615, you could defer the proof of completion of works until March 11th, and proof of beneficial use of water to until September 11th. Moreover if it should be found that the weather still prevents the entire completion of the flume by March 11th, you would be entitled to extension of time for completion of the works and offering proof thereof.

Inasmuch as notice has already been published setting January 22nd as the date for proof, we are notifying Mr. O. F. Noth, the Notary Public, before whom proof is to be offered, that the date for proof is continued to March 10th; thus it will be unnecessary to make a second advertisement of intention to make proof, and the advertisement now being published for four weeks will be sufficient.

11615

D. Lbr. Co.#2.

We are enclosing herewith two blank applications for extension of time which should be used if you find that you are still unable to complete the work by March 11th.

Very truly yours,

State Engineer.

DOVER

DOVER, IDAHO, January 11, 1916.

Mr. J. H. Smith, State Engineer,
Boise, Idaho.

Dear Sir:

We are in receipt of your circular letter of the 6th in which you enclose various blanks for proof of Application of Water to Beneficial Use and Proof of Completion of Works under permit #11615.

For your information we have to advise that our flume is built "V" shape with five foot sides, has been completed from the point of diversion to Pend d'Oreille River with the exception of possibly 300 feet at the river end where considerable piling is necessary and which has not been completed on account of deep snow at this point.

The water has not yet been diverted to the flume for the same reason, that there are heavy snows in this region, and it was thought that in filling the flume with water it would form full of slush and freeze solid. Under these conditions some of the questions in these blanks cannot at this time be answered. Will you kindly, therefore, advise us what is necessary at this time to fully comply with the requirements of your office?

Your Mr. Hamilton can undoubtedly give you more definite information concerning the whole proposition. Thanking you for a reply by early mail in order that we may do all that is necessary before January 22nd, the date set for final proofs, we remain

Yours very truly,
DOVER LUMBER CO.

By

President.

INSTRUCTIONS

Proof of Completion of Works

Dover Lumber Co., By
B.H. Hornby, President. and
Proof of Beneficial Use of water.

c/o O. F. Noth,
Dover, Idaho.

Boise, Idaho, January 6, 1916.

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of completion of works and beneficial use of water under Permit No. 11615.

Deposition of Permit Holder,

Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On January 22nd, the date set for proof, the enclosed forms (two for permit holder and two each for two disinterested witnesses) should be filled out and sworn to, at
Dover before O. F. Noth, notary public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fees as follows: Fee for proof of completion of works is \$5.00 for ten second feet or less. Over ten second feet a charge of 30 cents a second foot is made. The fee for beneficial use of water, for power purposes is \$5.00; if for irrigation, \$2.00 for each 40-acre tract, or fraction, to which water has been beneficially applied.

When these have been received, together with report of the Water Commissioner, if everything is properly executed, Certificate of Completion of Works and License will issue.

Yours truly,

J. H. SMITH, ~~A. E. ROBINSON~~
State Engineer.

11615

REPORT OF ENGINEER

1. State name of applicant and number of permit: DOYER LUMBER CO. - PERMIT 11615
2. State source of water supply: Carr Creek.
3. Location of point of diversion: *1: SW 1/4 of NE 1/4 Sec. 14; *2: SE 1/4 of SE 1/4 Sec. 14 - T. 52 N. - R. 3 W.
4. State whether or not the works of diversion are fully completed and in accordance with terms of permit: Not entirely complete on date of examination.
5. Describe works as they exist, giving dimensions and capacities of same: At P.O.D. *1: Log crib dam 25' high, 160' long on top, 42' long on bottom. At P.O.D. *2: Crib dam 20' high, 150' long on top, 50' long on bottom. Timber flume from dams to Pend Oreille River, except as noted below. Flume is built in "V" shape with 5' sides, 7' wide at top and 3.5' deep. Flume is about 4 miles long, average grade 3%, capacity 50 cusec. for depth of water of 2 feet.
6. State whether or not water has been turned into works of diversion: No.
7. Give exact location of lands to be irrigated. Give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): To be used for domestic purposes (stock) and for the transportation of logs from both dams to Pend Oreille River, where mill is located. At least 25 cusec. will be required to float the logs.
8. Submit map on enclosed plat, showing location and details of above description.

Remarks: On the date of examination the following work remained to be done; At upper dam (P.O.D. *1): 200' log flume to build. 75' of waste flume and "frog" connecting same to log flume to be built. Plank facing on upper side of dam 60% completed. Control gates to be placed at dam. At lower dam (P.O.D. *2): 80' log flume and "frog" to connect same to flume from upper dam. to be built.

This examination was made on the 31st day of December 19 15

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) December 6th 1915
(P. O.) Dover, Idaho

To the State Engineer,
Boise, Idaho.

Dear Sir:

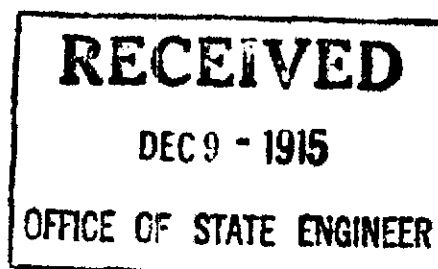

You are hereby authorized to have the attached notice published at my expense in the
Sandwich Review, of Sandpoint, Ida., published in the
county in which the works are situated.

Lars Lumber Co.
By B. H. Hamby, Pres.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

11615

**NOTICE OF PROOF OF COMPLETION OF WORKS
AND
APPLICATION OF WATER TO BENEFICIAL USE**

Notice is hereby given that at 10 A.M. on the 22nd
day of January, 19 16, at Dover, County of
Bonner, State of Idaho, before O. F. Noth, notary public,
proof will be submitted of the completion of works for the diversion of twenty-five (25)
cubic feet per second of the waters of Carr Creek,
and of the application to beneficial use of said water in accordance with the terms and conditions
of Permit No. 11615, heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person, or corporation, holding said permit, are
Dover Lumber Co., Dover, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and
the amount of water which said works are capable of conducting to the place of use, in accord-
ance with the plans accompanying the application for such permit, is twenty-five (25)
cubic feet per second.

3. The use to which said water has been applied is irrigation and domestic & logging
purposes, and the amount applied to beneficial use is twenty-five (25) cubic feet per second.

4. The place where said water is used is Sec. 32 & 33, T. 57 N., R. 2 W.B.M.
and Sec. 30, T. 57 N., R. 2 W.B.M.

5. The date of priority which said user is prepared to establish is July 5, 1915.

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. **11615**

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which it is to be submitted, which proof **MUST** be made on or before **March 11, 1916.**

Upon receipt of this blank properly filled out, notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

~~F. P. KING~~ J. H. Smith,
State Engineer.

Dear Sir:

We are in receipt of your telegram of the 8th inst., advising us that our application for diversion of the water from Carr Creek has been approved and permit will be issued shortly.

Please accept our thanks for your prompt attention to this matter which was of considerable importance due to the fact that the season is becoming late.

We assure you that this was much appreciated.

Yours very truly,

DOVER LUMBER CO.

CHECK

DAY LETTER

THEO. N. VAIL, PRESIDENT

SEND the following Day Letter, subject to the terms on back hereof, which are hereby agreed to

A 16630

Boise, Idaho, Sept. 8, 1915.

Mr. B.H. Hornby, Pres.,
Dover Lumber Co.,
Dover, Idaho.

Your application sixteen six thirty has been corrected in this office and will now be approved and pass to permit in due course. Will be week or ten days before permit can be returned, but you can proceed under authority this telegram.

J.H. Smith,
State Engineer.

COLLECT.

2

11615

ALL DAY LETTERS TAKEN BY THIS COMPANY SHALL BE SUBJECT TO THE FOLLOWING TERMS:

The Western Union Telegraph Company will receive **DAY LETTERS**, to be transmitted at rates lower than its standard telegram rates, as follows: one and one-half times the standard night letter rate shall be charged for the transmission of fifty (50) words or less, and one-fifth of the initial rate for such fifty words shall be charged for each additional ten (10) words or less.

To guard against mistakes or delays, the sender of a day letter should order it **REPEATED**, that is, telegraphed back to the originating office for comparison. For this, one-half the unreported day letter rate is charged in addition. Unless otherwise indicated on its face, **THIS IS AN UNREPEATED DAY LETTER AND PAID FOR AS SUCH**, in consideration whereof it is agreed between the sender of the day letter and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any **UNREPEATED** day letter, beyond the amount received for sending the same; nor for mistakes or delays in the transmission or delivery, or for non-delivery, of any **REPEATED** day letter, beyond fifty times the sum received for sending the same, unless specially valued; nor in any case for delays arising from unavoidable interruption in the working of its lines; nor for errors in obscure day letters.

2. In any event the Company shall not be liable for damages for any mistakes or delay in the transmission or delivery, or for non-delivery, of this day letter, whether caused by the negligence of its servants or otherwise, beyond the sum of **FIFTY DOLLARS**, at which amount this day letter is hereby valued, unless a greater value is stated in writing hereon at the time the day letter is offered to the Company for transmission, and an additional sum paid or agreed to be paid based on such value equal to one-tenth of one per cent. thereof.

3. The Company is hereby made the agent of the sender, without liability, to forward this day letter over the lines of any other Company when necessary to reach its destination.

4. Day Letters will be delivered free within one-half mile of the Company's office in towns of 5,000 population or less, and within one mile of such office in other cities or towns. Beyond these limits the Company does not undertake to make delivery, but will, without liability, at the sender's request, as his agent and at his expense, endeavor to contract for him for such delivery at a reasonable price.

5. No responsibility attaches to this Company concerning day letters until the same are accepted at one of its transmitting offices, and if a day letter is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

6. The Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within sixty days after the day letter is filed with the Company for transmission.

In further consideration of the reduced rate for this special "**DAY LETTER**" service, the following special terms are hereby agreed to:

A. **DAY LETTERS** may be forwarded by the Telegraph Company as a deferred service and the transmission and delivery of such **DAY LETTERS** is, in all respects, subordinate to the priority of transmission and delivery of regular telegrams.

B. **DAY LETTERS** shall be written in plain English. Code language is not permissible.

C. This **DAY LETTER** may be delivered by the Telegraph Company by telephoning the same to the addressee, and such delivery shall be a complete discharge of the obligation of the Telegraph Company to deliver.

D. This **DAY LETTER** is received subject to the express understanding and agreement that the Company does not undertake that a **DAY LETTER** shall be delivered on the day of its date absolutely and at all events; but that the Company's obligation in this respect is subject to the condition that there shall remain sufficient time for the transmission and delivery of such day letter on the day of its date during regular office hours, subject to the priority of the transmission of regular telegrams under the conditions named above.

No employee of the Company is authorized to vary the foregoing.

THE WESTERN UNION TELEGRAPH COMPANY
INCORPORATED

THEO. N. VAIL, PRESIDENT

CLASSES OF SERVICE

TELEGRAMS

A full-rate expedited service.

NIGHT TELEGRAMS

Accepted up to 2.00 A.M. at reduced rates to be sent during the night and delivered not earlier than the morning of the next ensuing business day.

DAY LETTERS

A deferred day service at rates lower than the standard telegram rates as follows: One and one-half times the standard night letter rate for the transmission of 50 words or less and one-fifth of the initial rate for each additional 10 words or less. Subordinate to the priority of transmission and delivery of regular telegrams. Must be written in plain English. Code language not permissible.

Telephonic delivery permissible. Day Letters received subject to express understanding that the Company only undertakes delivery of the same on the day of their date subject to conditions that sufficient time remains for such transmission and delivery during regular office hours, subject to priority of the transmission of regular telegrams.

NIGHT LETTERS

Accepted up to midnight for delivery on the morning of the next ensuing business day, at rates still lower than standard night telegram rates, as follows: The standard day rate for 10 words shall be charged for the transmission of 50 words or less, and one-fifth of such standard day rate for 10 words shall be charged for each additional 10 words or less. Must be written in plain English. Code language not permissible. Mail delivery, postage prepaid, permissible.

DOVER, IDAHO, September 6, 1915.

Mr. J. H. Smith, State Engineer,
Boise, Idaho.

Dear Sir:

We have your favor of the third inst., returning application #16630 for completion and we sincerely regret that this delay became necessary as we are particularly anxious to begin work on the construction of the flume immediately and have a man now waiting for advice to begin.

The map which accompanied this application showed the descriptions by forties where the water was returned to the river. The answer to question 7 II (a) in reference to the length of the dam at the bottom stated "Don't vary", the intention being to convey the impression that the width of the dam at the bottom and top did not particularly vary, and we had supposed that the answer to question 8, "Four months for completion of the work" to be a sufficient answer to that about which you inquire in reference to 9 as we are expecting to use the flume immediately upon completion if there is sufficient water to permit it.

May we ask that you give this matter immediate attention, wiring us at our expense if the application is approved so that we may start operations?

You will understand the absolute necessity for this when we state to you we are looking for 10,000,000' from this locality for sawing next season, and the weather at this time of the year is quite uncertain which makes it imperative that we start operations at once.

Your immediate consideration of this application will be very much appreciated.

Yours very truly,

DOVER LUMBER CO.

President.

16630

Dover Lumber Co.,
Dover, Idaho.

In paragraph 5 II (d) describe point of return by giving the legal description of the 40 acre tract in which point will be located.

In paragraph 5 II (a) state length of dams at bottom.

Paragraph 9 of the blank should state the time required after completion of diversion works and conduit within which to put the water to use, that is, to begin transporting logs. You can transport ~~logs~~ ~~logs~~ years thereafter as you desire.

DOVER, IDAHO, September 1, 1915.

Mr. J. H. Smith, State Engineer,
Boise, Idaho.

Dear Sir:

Supplementing our letter of yesterday enclosing application for certain water rights. After thinking the matter over we believe a more thorough explanation is necessary on account of the time asked for the use of this water. We have about 30 million feet of timber of our own besides a considerable number of poles and posts which would come out this way. The Humbird Lumber Co., has a number of sections adjoining our holdings and it is barely possible that an exchange of timber may be made whereby we would acquire this property in exchange for timber adjoining holdings of theirs accessible to railroads.

In addition to this there are some other sections which would also come out by way of this flume owned by other parties which we are figuring to acquire so that it is barely possible that instead of 30 or 40 million feet of timber there may be at least 100 million feet of timber besides other forest products to be delivered to Pend d'Oreille River by way of this flume.

We have asked for ten to fifteen years and would of course prefer fifteen years which would take care of all contingencies of possible delay or shut downs due to depressed business conditions and would give us an opportunity to log 10 million feet a year besides taking out the by-products.

If, however, this application will be delayed by reason of the increased time asked we would prefer to make it ten years if this will expedite the issuing of the permit. We are figuring on a good percentage of our cut for next season by this means and for that reason urge upon you the urgent necessity of giving this matter just as early attention as is possible.

Yours very truly,

~~11615~~

DOVER, IDAHO, August 31, 1915.

Mr. J. H. Smith, State Engineer,

Boise, Idaho.

Dear Sir:

We have your favor of the 28th inst., together with three copies of the application and as requested are handing you herewith 25¢ in stamps in payment of same.

We also enclose you completed application for the diverting of the water from Carr Creek and the construction of a flume from this point to Pend d' Oreille River. After going into the matter more thoroughly we have found that it is necessary to apply for a longer time than five years and the first survey did not properly show the lands crossed by the flume. In order, however, that you may compare the data from the preliminary application we are forwarding both to you and if the new application is found in order would be glad to have you substitute the number and return to us the old form.

As the fall season is quite wet here it is necessary that the construction of the flume begin as early as possible and we would esteem it a great favor if this matter would have prompt attention and the permit requested be issued at the earliest possible moment.

Yours very truly,

DOVER LUMBER CO.
