Dear Mr. Turinsky:

This is in reply to your letter of March 13, 1968,
regarding the above numbered license.

It is permissible for you to use this right for the
four new homes being built on the original 50 acre tracts.
The license was issued September 14, 1920, in the amount
of 20 inches or 0.4 c.f.s. with a priority of December 1,
1911. So, as long as you do not exceed the amount of the
license you will have no trouble. Under ordinary condit-
ions one home with lawn for domestic use would be entitled
to .02 c.f.s. so your 0.4 would be ample water for 5 homes.

Very truly yours,

M. RUSSELL BOSCH
Administrative Assistant

Commissioner of Reclamation
Boise, Idaho

Dear Sir:

We own the property (SW $\frac{1}{4}$ Sec. 8 Tp. 57 N. R. 2 W. B.M.) originally homesteaded by Clara Peterson. A water right (permit No. 7917) authorizes the diversion of 1 sec ft of water from a creek (Springs) for domestic and irrigation purposes onto 50 acres (S $\frac{1}{2}$ of the SW $\frac{1}{4}$ Sec. 8 Tp. 57 N. R. 2 W. B.M.).

We do not irrigate but do use the water for domestic purpose. My question: Is it permissible for us to connect four more homes to be built within the above 50 acre area onto our line with all the homes using ~~water~~ ^{water} for domestic purpose only. I can not conceive of needing to use anything like a total of 1 sec ft of water. The point of diversion would be approximately at the west end of the SE $\frac{1}{2}$ of SW $\frac{1}{4}$ Sec. 8 or the east end of the SW $\frac{1}{2}$ or NW $\frac{1}{2}$ of SW $\frac{1}{4}$ Sec. 8.

An early reply will be greatly appreciated.

Sincerely,
Otto Turinsky
