RE: License 96-2028

Frank E. Hallett
Mayor
Village of Hope
Hope, Idaho 83836

Dear Mayor Hallett:

We have discussed the error on your license 96-2028, which you brought to our attention with your letter of June 14, 1968. If you will be so kind as to return your license we will issue a corrected copy.

Hope this meets with your approval.

Very truly yours,

M. RUSSELL BOSCH
Administrative Assistant

Permit 4981.

Mr. C. J. Chaffins,
Sandpoint, Idaho.

Sir:

Replying to your letter of the 31st ult. would say that it will be necessary for you to give more definite information as to just where the error occurs in the above numbered permit. Whether the description of the place of use or the location of point of diversion is wrong. It may be that affidavit will be sufficient to correct same.

Very truly yours,

Herbert King,

State Engineer.

REPORT OF ENGINEER

4981

1. State name of applicant and number of permit: Village of Hope, Permit No. 4981
2. State source of water supply: The NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 26 T.57 N.R.1 E.W.M.
3. Location of point of diversion: 1"= N8-24'E.1553'. 2"= N.19.14'E.2745'.
3"= N20.12'E.3039' from the corner to Sections 26-27-34&35 T.57 N.
R.1 E.W.M.
4. State whether or not the works of diversion are *fully* completed and in accordance with terms of permit:
.Works are completed to Intake No.1 and material on the ground
for Nos. 2&3 which are for purity of water, all water can be taken
5. Describe works as they exist, giving dimensions of same as follows:

---(a) Width of conduit at bottom: 3 inch iron pipe line

(b) Width at water line:

(c) Depth of water:

(d) 1000 feet Grade per mile:

(e) Capacity of ditch: 1 cu. sec. ft. second feet.

6. State whether or not water has been turned into works of diversion and if so, to what extent:

Yes to full capacity

7. Give exact location of lands to be irrigated. Give exact number of acres under cultivation in each forty acre tract:

8. Submit map on enclosed plat, source of supply, point of diversion, route of ditch or ditches and cross hatch lands to be irrigated.

Remarks: .The works are completed according to Permit and the water

is used by the Village of Hope. The new work going on is only

to maintain the purity of the water as all the water from the

springs above can now be taken by the works now completed

Notice of Proof of Completion of Works

(This blank must be filled out by holder of permit and forwarded by registered mail to the State Engineer at least 60 days before the time set for completion of works.)

RECEIVED

MAY 19 1910

OFFICE OF STATE ENGINEER

(P. O.) Hope, Idaho.

(Date) May 14, 1910.

TO THE STATE ENGINEER OF THE STATE OF IDAHO, BOISE, IDAHO:

DEAR SIR: Notice is hereby given that at 1 P.M. on the Twenty third day of July, 1910 at Hope County of Bonner State of Idaho, before J. G. Benchley (Justice of the Peace) proof will be submitted of the completion of works for the diversion of One cubic feet per second of the waters of Certain Springs in the NW 1/4 of the SW 1/4 of Sec. 36 T. 57 N. R. 1 E. in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is

The Incorporated Village of Hope

2. The postoffice address of such person or the place of business of such corporation is

Hope County of Bonner State of Idaho.

3. The number of such permit is 4981, and the date set for the completion of such work is July 24, 1910

4. Said water to be used for Domestic, Irrigation & Fire Protection purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use in accordance with the plans accompanying the application for such permit, is One cubic feet per second.

6. The amount of lands for which said water is available is about one hundred acres, particularly described as follows: In the W 1/2 of NW 1/4 of Sec 35 & the E 1/2 of NE 1/4 of Sec. 34 T. 57 N., R. 1 E. Val. of Hope

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer.)

I hereby certify that the facts set forth in the above notice are true.

Engineer.

We desire that the above notice be published, according to law, in the Pend D' Oreille Review of Sandpoint published in the county in which said works are situated; the expense of which publication will be borne by Village of Hope

STATE OF IDAHO

Water License No. 4981

WHEREAS, On the 24th day of July⁰⁹, A. D. 1914,

The Incorporated Village of Hope

of Hope, County of Bonner, State of Idaho, duly made application (No. 7180) to me for a permit to use one (1) cubic foot per second of the waters of Springs in the NW $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 26, T. 57 N. R. 1 W.B.M.

County of Bonner, State of Idaho, for irrigation and domestic purposes, and,

WHEREAS, On the 24th day of July, A. D. 1909, Permit No. 4981 was issued to said applicant for the diversion of said water and providing for the completion of the works of diversion therein described on or before the 24th day of July, A. D. 1910, and for the application to beneficial use of said water on or before the 24th day of July, A. D. 1914, and,

WHEREAS, On the 23rd day of July, A. D. 1910,

The Incorporated Village of Hope

the holder of said permit, duly made proof of the completion of adequate works for the diversion of one (1) cubic foot per second of said waters, as evidenced by my Certificate No. 4981 dated September 16, 1914 confirming the completion of works of sufficient capacity for diverting and conveying to the place of intended use one (1) cubic foot per second of said water, with date of priority of July 24, 1909, and

WHEREAS, On the 15th day of July, A. D. 1914,
The Incorporated Village of Hope

the holder of said permit, duly made proof of the application to beneficial use of one (1) cubic foot per second of said water:

NOW, THEREFORE, By virtue of authority vested in me by the laws of the State of Idaho, I hereby grant and confirm to The Incorporated Village of Hope

of Hope, County of Bonner, State of Idaho, the holder and owner of said Permit No. 4981, a perpetual right, dating from July 24, 1909 to the use of one (1) cubic foot per second of the waters of Springs in the NW $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 26, T. 57 N., R. 1 W.B.M.,

in the County of Bonner and State of Idaho, or so much thereof as may be necessary for the purposes hereinbelow mentioned, to be diverted as follows: #1-N.8°24' E. 1553'; #2-N.19°14' E 2745'; #3-N.20°12'E. 3039 ft. all from corner of sections 26-27-34-35, T. 57 N., R. 1 E.B.M.,

and conducted to ~~and upon~~ the Village of Hope, Bonner County, Idaho,

for the purpose of irrigation and domestic use, subject, however, to the laws of the State of Idaho, applicable to a license for the use of the waters of the State, and subject, also, to the local or community customs, rules and regulations which have been or may be adopted from time to time by a majority of the users from a common source of supply, canal or lateral from which such water may be taken, when such rules and regulations have for their object the economical use of such water.

WITNESS, My hand and the seal of my office at Boise, Idaho, this 16th day of September A. D. nineteen hundred and fourteen.

F. P. King,

(Seal)

State Engineer:

No. 7180. 96-2028

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

1. Name of applicant: The Incorporated Village of Hope.

Postoffice Address; Hope.

County: Bonner, State; Idaho.

I. If applicant is a corporation give:

(b) The amount of capital stock: Municipal, Has none.

(d) The names and addresses of directors: E. Wanamaker, Chairman; A. W. Jordon,
J.F. V. Kiebert, L. Small, H. Horton, (Trustees) P. O. Address Hope, Idaho.

II. The financial resources of the applicant are:

(a) Cash on hand: Sufficient to complete the water system as shown hereon.

(c) Bonds to be issued: They have been issued.

(d) Other resources: Uncollected Taxes.

2. The quantity of water claimed is one cubic foot per second.

3. Source of water supply: Springs in the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ Sec. 26 T. 57 N. R. 1 W. B. M.
County of Bonner.

4. Location of point of diversion: In the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ Sec. 26 T. 57 N. R. 1 W. B. M.

5. To be used for:

I. Irrigation and domestic use: and fire protection.

(a) Amount of land to be irrigated: City lots.

(b) In the following legal subdivisions: In the village of Hope situated in the
W. half of the NW $\frac{1}{4}$ of Sec. 35 and the E. half of the NE $\frac{1}{4}$ of Sec. 34, T. 57 N.
R. 1 E. B. M.

6. Estimated cost of works: Thirty two hundred and thirty eight dollars (\$3238.00)

7. Description of works for diversion:

I. Kind of works: Dam.

II. Dimensions of works:

(a) Height of dam 3 feet, length of dam at top 10 feet, length of dam at bottom 3 feet
Material used in construction. Concrete.

(b) Capacity of reservoir: No reservoir at dam.

(c) Side of headgate; Width 8 inches, height 8 inches.

(d) Conduit, pipe, Diameter of pipe 4 inches. Average grade per mile is 1000 feet.

Length of conduit is 2936 feet, and it crosses the following quarter sections:

W. half of the SW $\frac{1}{4}$ Sec. 26, NW $\frac{1}{4}$ of NW $\frac{1}{4}$ Sec. 35, T. 57 N. R. 1 E. to a reservoir
with a capacity of 100,000 gallons, which is the point of intended use, and
from which the distributing system will start.

8. Time required for the completion of the construction of such work is 1 year.

9. Time required for the complete application of the water to the proposed use is 4 additional years.

BE IT KNOWN, That the undersigned hereby makes application for a permit to appropriate the public waters of the State of Idaho as herein set forth.

The Village of Hope,

Applicant.

By John K. Ashley, Agent and Acting City Engineer.

APPROVAL OF STATE ENGINEER.

The number of this permit is 4981.

Date of first receipt of application 9.00 a. m. July 24, 1909.

Recorded in Book 14, Page 4981, Approved July 24, 1909.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho and hereby grant the same, subject to the following limitations and conditions:

Work to begin on or before September 23, 1909, and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before January 24, 1910.

The whole of said work to be completed on or before July 24, 1910.

The time for proof of beneficial use of water appropriated in accordance herewith, to extend to July 24, 1914.

Witness my hand this twenty-fourth day of July, 1909.

Jas. Stephenson, Jr.,

State Engineer.

Proof of Completion of Works made July 23, 1910.

Certificate of Completion of Works held, pending receipt of report of Engineer.

Report received August 29, 1914.

Certificate issued September 16, 1914.

Permit No. 4981

CERTIFICATE OF COMPLETION OF WORKS

To All Whom It May Concern:

This is to certify that The Incorporated Village of Hope, of Hope, County of Bonner, and State of Idaho, the holder of Permit No. 4981, issued upon Application No. 7180, bearing date of priority of July 24, 1909, authorizing the diversion of one (1) second foot of the waters of Springs in the NW $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 26, T. 57 N., R. 1 W.B.M., County of Bonner, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use one (1) second-foot of the waters of Springs in NW $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 26, T. 57 N., R. 1 W.B.M.; that the points of diversion of said waters are as follows: #1-N.8° 24' E. 1553'; #2-N.19° 14' E. 2745'; #3-N. 20° 12' E. 3039', from corner of sections 26-27-34-35, T. 57 N., R. 1 E.B.M., and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: at the Village of Hope, in Bonner County, Idaho.

Witness my hand this 16th day of September, A. D. 1914.

P.O. Box 277
Hope, Idaho 83836

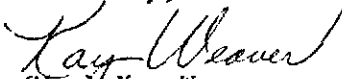

Dear Mr. Williams,

As you requested in your recent letter, we are enclosing a copy of the water license (#~~96~~-2028) issued to the city of Hope. At the time it was issued, it was numbered 4981, but the state has undergone a number of systems for keeping track of the various permits and licenses since then.

You may wish to note that the name of the department has been changed to the Department of Water Resources. During reorganization under former Governor Cecil Andrus, Water Administration and Reclamation merged to become the Department of Water Resources.

Please feel free to contact us at any time, if you have questions.

Sincerely,

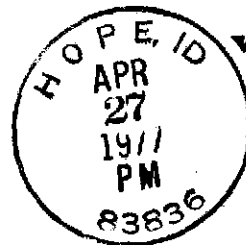

(Ms.) Kay Weaver
Records Supervisor

Att'n: M. Russell Bosch

Gentlemen:

It has been called to my attention that there is a descriptive error on our Village Water License made at time of original application, July 24th, 1909 and this error has never been corrected. The point of diversion is indicated as l, W.B.M. when it should have been l, E.B.M.

I would appreciate receiving information from your office as to what is required or procedure to be followed to correct this error.

Hope, Idaho 83836

Dear Mr. Rivers:

We have checked our records and the Village of Hope has a water license, a copy of which is enclosed. You will note the point of diversion is indicated as 1, W.B.M. when it really should have been 1, E.,B.M. This error was made in the original application and has never been corrected.

There is a 50¢ fee for the copy which you may remit to our office.

Very truly yours,

M. RUSSELL BOSCH
Administrative Assistant

State Hydraulic Engineer,
Boise, Idaho

Dear Sir:

I would like to obtain copies of documents pertaining to the water rights of the Village of Hope, Bonner County, Idaho. I was told water claims were filed either in the year 1907 or 1908 approximately. Can you please tell me how to go about getting this information and the cost? Any information you may give me as to the amount of water the Village is allowed to take under their present water rights will be appreciated and any other information about this matter you may give me. Thank you.

Sincerely,

Mark W. Rivers,
Box #308,
Hope, Idaho 83836

Re: Permit 4981

MR. ALLEN P. ASHER
Attorney at Law
Sandpoint, Idaho

Dear Mr. Asher:

Reference is had to your letter of February 4, regarding water rights which may have vested, said water originating on the homestead entry of Mrs. Anna E. Simmons.

The records in this office disclose that the Village of Hope received Permit 4981 to appropriate one cubic foot per second of the waters of springs situated in NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 26, Township 57 North, Range 1 West, B. M. The legal description of the location of point of diversion seems to be erroneous, as the map filed with the application for permit indicates that the Range should have been 1 East instead of 1 West. Proof of beneficial use, made in 1914, indicated that the Range was 1 West. No correction seems to have been made at the time and the license issued shows the appropriation to be on NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 26, Township 57 North, Range 1 West.

John Kennedy received Permit 10454 as the result of his application filed June 24, 1914 for 0.25 of a second foot of the waters of springs located on SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26, Township 57 North, Range 1 East. Later, the location of the point of diversion was amended to read NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 26, Township 57 North, Range 1 East. This permit was transferred to Anna E. Simmons, December 19, 1916, and proof of completion of works was made by her. Proof of beneficial use of water, which was due in 1920, has not yet been made.

From the records, it appears that the matter of the Village of Hope's right to the use of this water was in question in 1914. Enclosed are copies of two letters; one, from J. H. Martin, of Sandpoint, Idaho, and the other, the State Engineer's reply. The office records disclose nothing further in this case.

Yours very truly,

Commissioner of Reclamation.

ALLEN P. ASHER
ATTORNEY & COUNSELLOR AT LAW
SANDPOINT, IDAHO
February 4, 1930

Mr. George N. Carter
State Comm. of Reclamation
Boise, Idaho

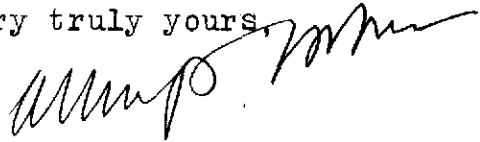

Dear Sir:

Mrs. Anna E. Simmons has consulted me relative to certain water rights in connection with her homestead near Hope, Idaho. Her homestead is described as follows: SE $\frac{1}{4}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 26, T. 57N., R. 1E., B.M. In 1914 she took out water right and permit No. 10454 to certain springs near this property. Later on the village of Hope obtained a water right adjacent to her property and piped across her land. She advises me now that the Village of Hope is using springs on her lands and sources of supply.

Will you kindly advise whether the application and license of the village of Hope authorizes the use of her springs and also by what authority.

Very truly yours,

ACP:AS

~~January~~ 4, 1915.

Permit 4981.

Mr. C. J. Chaffins,
Sandpoint, Idaho.

Sir:

Replying to your letter of the 31st ult. would say that it will be necessary for you to give more definite information as to just where the error occurs in the above numbered permit. Whether the description of the place of use or the location of point of diversion is wrong. It may be that affidavit will be sufficient to correct same.

Very truly yours,

Herbert King,

State Engineer.

Mr Herbert Wing

Acting State Engineer ,

Boise, Idaho.

Dear Sir:

The Village of Hope owning water license
4981 and certificate of proof find upon examination
that the legal descriptions are wrong . They are
in some legal tangle over it now . They have used
the water for a number of years ,but what process
is necessary to get the technical description
in the permit , license and certificate changed
so as to agree with the location of their water w
works . I am

Yours very truly

4981

Boise, Idaho, October 6, 1914.

Permit 4981.

Mr. G. H. Martin,
Sandpoint, Idaho.

Sir:--

Replying to yours of the first inst., would say that when same was received in this office Mr. King was in the eastern part of the state. He came home Sunday and is confined to his bed with a serious illness, which we are afraid may develop into a double pneumonia. That being the case, I will personally answer your letter with reference to the above permit.

I find on looking up the records that both proofs, towit: for completion and beneficial use have been made and that license was duly issued from this office on September 14th, last. I do not believe there is any way under the statute whereby the matter could be reopened and I very much doubt whether the State Engineer could properly pass upon the questions involved in your protest.

It appears to me that this is a matter which should be carried into the District Court where evidence can be taken and the issue squarely raised as to whether or not the village can take the water and waste a large portion of it into the lake.

In this connection I would call your attention to the provisions of Section 3265 of the Revised Codes, which provides for an appeal to the District Court within 60 days from the issuance of the license, such appeal to be taken by any one feeling himself aggrieved by the issuance of such license.

4981

I am sure that all things considered it would be better to obtain a judicial determination of the question than to obtain a ruling from the State Engineer and I am of the opinion that the State Engineer loses jurisdiction of such a matter ~~as~~ soon as he has issued a license.

I am sorry this matter could not be attended to sooner but I have desired to have Mr. King pass on this matter, but owing to his absence and his consequent illness, at this time it is impossible and I have done my best to cover the question raised.

Very truly yours,

Deputy State Engineer.

Eno. Plat.

W/G.

G. H. MARTIN
LAWYER
SANDPOINT, IDAHO

8 October 1st, 1914.

Mr. F. P. King,
State Engineer,
Boise, Idaho.

Dear Sir:

The undersigned represent Mr. John Kennedy, who on May 13th, 1911, made entry as a homestead of the Northwest quarter of Section 26, Township 57 North, Range 1 East B. M. and other lands adjoining comprising in all one hundred sixty acres. His serial entry number is 07500 and was made at Coeur d' Alene Land Office. Since that time Mr. Kennedy has established his residence upon said lands and has cleared about seven acres and is cultivating and irrigating the same. Some of his lands are irrigated by springs on the Northwest quarter of the Southwest quarter of section 26 aforesaid. There also flows from these springs a supply of water to his house and other buildings. He began using the water from the springs on said forty acre tract in 1911 and has used the same continually for the purposes above indicated. He has other lands which he expects to clear and irrigate from the same source of water supply. Under the provisions of Chapter 230 (page 782) of the 1911 Session Laws, with which you are undoubtedly familiar, no one has the right to appropriate the water or use the springs without his written consent subsequent to the date when he made his homestead entry.

On June 22nd, 1914, you sent me a copy of an application for permit No. 7180 and permit No. 4981 and from this it appears that the Village of Hope made an application for a water right on the springs in the Northwest quarter of the Southwest quarter of Section 26, Township 57 North, Range 1 West of the Boise Meridian, with the point of diversion in the Northwest quarter of the Southwest quarter of the same section and township and range, namely, section 26, township 57 north, range 1 West of the Boise Meridian. You will notice that the source of supply stated in this application and the point of diversion stated therein is six miles west of Mr. Kennedy's land. The Village board however have proceeded to construct a tank on the hill above the Village of Hope and extended an intake pipe from the tank up the hill to a point on the Northwest quarter of the Southwest quarter of section 26, township 57 north, range 1 east B. M., north eight degrees, twenty-four minutes east, 2100.5 feet from the corner common to sections 26, 27, 34 and 35, township 57 north, range 1 east. At that point they constructed a concrete dam across the mouth of an old mine tunnel and then diverted the water from a mountain stream about fifteen or twenty feet from that old tunnel mouth into the reservoir so provided. At this point they have been diverting sufficient water

G. H. MARTIN
LAWYER
SANDPOINT, IDAHO

#2---F.P.K.

to supply the Village of Hope and the water consumers therein. I have in my possession the affidavit of John K. Ashley, Jr., that on the 10th day of July, 1914, he measured the flow of the stream which was diverted into this reservoir seventy-five feet above the reservoir, which showed 183 of a cubic foot of water per second. The population of the Village of Hope does not exceed 250 people according to the last official census and the number has decreased since that census was taken and is not likely to increase. You will understand that the flow of water measured by Mr. Ashley will provide daily, even in the dry season, approximately 430,000 per day and under any reasonable allowance that might be made for each inhabitant the Village of Hope could not beneficially use more than one-quarter of that amount. As a matter of fact there is a waste pipe at the lake shore in the Village of Hope which is connected with the water system from which a large quantity of water flows each day into Lake Pend d' Oreille, which is absolutely wasted. The Northern Pacific Railway Company receives its supply of water from the Village and even after it is supplied with all that it needs there is still a large quantity of water, which is approximately one-half of the water diverted by the Village at the point near its reservoir, which is wasted and which flows into Lake Pend d' Oreille. The amount wasted is ample and abundant to supply Mr. Kennedy with all the water he needs for irrigation and domestic purposes. The Northern Pacific pays nothing for the water used by it, but was given the right to use the same by the Village if it would construct a supply pipe from the mains to its tank. The Village has never at any time had any other point of diversion from which it drew its source of water supply other than the one above indicated, which is shown at the point marked "old dam" on the plat enclosed herewith. The Village, however, proposes to construct additional works from the point marked "old dam" up the mountain side to the point marked "basin 25 x 25" and a ditch and dam extended therefrom 95 feet and a ditch northeasterly therefrom 306 feet to the point marked "dam B" and they propose thereby to collect practically all of the water available for use upon Mr. Kennedy's homestead, much of which they have not heretofore used and for which they have no use and carry the same down the hill through a pipe line to the point marked "old dam" and there connect with the present pipe line so that all of the water from the springs on the forty acre tract and carry it down the hill to the Village where the Village can use what it wants and run the rest into the Lake. I should have stated that originally there was a small stream flowing from a large spring located at the point on this plat marked "basin 25 x 25" down to the point near the reservoir marked "old dam" on the plat and practically in course of line indicated between the point marked "old dam" and "basin" on the plat and it was from this stream that the Village drew its water supply by diverting the water thereof near the point marked "old dam". It is proposed to construct a ditch 95 east of the point marked "basin" and divert the water which flowed down the hill southeasterly to Mr. Kennedy's

G. H. MARTIN
LAWYER
SANDPOINT, IDAHO

#2---F. P. K.

used and cleared land and will carry the same to the point marked "basin". At the point marked "Dam B" on this plat is a spring on which Mr. Kennedy recently filed a water right, which is of record in your office.

Mr. Kennedy had no notice other than the records in your office of the fact that the Village claimed a water right on all of these springs, except he knew when he filed that the Village obtained its water supply at the point marked on the plat "old dam" and of course he had the right to assume that the Village would not divert and carry away any more of that water than it needed for beneficial uses and I believe that your department holds that it would not be entitled to divert and carry away more of the water than it could beneficially use so that Mr. Kennedy when he made entry of his homestead had the right to assume that he had the right to the use of the waters from the springs on the forty acre tract in question, which was not being used beneficially by the Village of Hope unless he gave his written consent thereto upon written application to your office. He was not informed and did not have actual knowledge of the proceedings for making final proof on the part of the Village and therefore did not file protest in your office before the filing of final proof. Mr. Kennedy not being able to read, of course, could not and did not read the notice which was published.

It now develops that the certificate of completion of works indicates that your office has been informed through some source that the Village has actually constructed works of diversion at three different points, the records of which you have in your office and also appears from the license issued by you that you have given them permission to divert the water in three different points none of which is at the point marked "old dam" on the plat enclosed herewith. Mr. J. K. Ashley, who was employed by the Village of Hope will undoubtedly send you within a day or two, if he has not already, additional notes concerning these points of diversion. Now the village has never diverted any water at point three described in the license issued by you and has never constructed any works of diversion there and has not constructed any works to carry the water from that point to the point marked old dam on the enclosed plat. It began the construction of diversion works at the point marked "basin" on the plat but was stopped by Mr. Kennedy because it had no permit or license to divert the water at that point.

Now what we desire to know is if you will entertain an application to open up the question of final proof and give Mr. Kennedy an opportunity to file a protest and have a hearing upon the question of the quantity of water which the Village may

G. H. MARTIN
LAWYER
SANDPOINT, IDAHO

#4--F. P. K.

appropriate and the point of diversion from which it is to take the same. If so wire me immediately upon receipt of this letter to that effect and the application to open up the matter for hearing and the protest of Mr. Kennedy will be forwarded to you at once. If not also, kindly advise me by wire of your decision.

Very truly yours,

GHM KN

Mr F. P. King

State Engineer, Boise.

Dear Sir The Village Council of Hope is anxious to hear from you in regards to the water License after I recieved your letter of August 24 concerning Mr Ashley. I went to Sandpoint and saw him he then made out fresh papers and sent them to you I made him register the letter as I think there was something wrong with Mr Ashley in regards to them papers the village has a condemnation suite in Court and these papers may be useful in the case that is why the Council is anxious to have them I am your respectfully John Dooley

REPORT OF ENGINEER

4981

1. State name of applicant and number of permit: Village of Hope, Permit No. 4984/
2. State source of water supply: The NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 26 T.57 N.R.1 E.W.M.
3. Location of point of diversion: 1"= N8-24'E.1553'. 2"= N.19.14'E.2745'.
3"= N20.12'E.3039' from the corner to Sections 26-27-34335 T.57 N.
R.1 E.W.M.
4. State whether or not the works of diversion are fully completed and in accordance with terms of permit:
Works are completed to Intake No. land material on the ground
for Nos. 34335 which are for purity of water, all water can be taken
5. Describe works as they exist, giving dimensions of same as follows:

(a) Width of conduit at bottom 3 inch iron pipe line

(b) Width at water line:

(c) Depth of water:

(d) 1000 feet Grade per mile:

(e) Capacity of ditch: 1 cu. sec. ft. second feet.

6. State whether or not water has been turned into works of diversion and if so, to what extent:

Yes to full capacity

7. Give exact location of lands to be irrigated. Give exact number of acres under cultivation in each forty acre tract:

8. Submit map on enclosed plat, source of supply, point of diversion, route of ditch or ditches and cross hatch lands to be irrigated.

Remarks: The works are completed according to Permit and the water

is used by the Village of Hope. The new work going on is only

to maintain the purity of the water as all the water from the

springs above can now be taken by the works now completed

PERMIT NO. _____

Proof of Application of Water to Beneficial Use

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John Auble Age 44, Hope Idaho, Traysman and
Chairman of the Trustees of Village of Hope

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Village of Hope, Idaho. Appear as Chairman (acting)
of Board of Trustees

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. ~~7180~~, July 24, 1909 Application #7180 Permit #4981

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. NW 1/4 of SW 1/4 Sec 26. Twp 57. R. 1 E B.M.
N 8° 24' E. 2100.5' feet from corner to sections 26-27-34 & 35
Twp 57 N. R. 1 East B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Cement dam, ~~6 x 3 x 15~~ feet, Three inch calumine pipe, 5 tanks
General pipe line throughout Village. One second foot
Cement dam ~~to be~~ to be constructed with working.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used in the Village of Hope in sections 34 & 35
Twp 57 N. R. 1 East. For village water system.

Ques. 7. If for other than irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. _____

RECEIVED

JUL 18 1914

OFFICE OF STATE ENGINEER

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. One second foot

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. It was issued to Village of Hope. 4981

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Ever since first put in of the permit - All the water there was to 1 cubic foot. Used constantly and continuously.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

INSTRUCTIONS

PROOF OF BENEFICIAL USE

Clerk of Village of Hope,
o/o John Dooley,
Hope, Idaho.

BOISE, IDAHO, June 20, 1914.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under your Permit No. **4981.**

DEPOSITION OF PERMIT HOLDER,

DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On July 15th, the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at

Hope, before John Dooley, notary public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$2.00 for each 40-acre tract, or fraction, to which water has been applied. When these have been received together with report of examining engineer, if everything is properly executed, License will issue.

Yours truly,

F. P. KING,

State Engineer.

Sir:-

Your letter of the 6th inst. to hand and contents noted. In reply would say that the blank sent you should be filled out from the original permit as to the name of the stream, amount of water, place of use, etc. The date for making proof should be set far enough ahead to allow notice to be published the required thirty days prior to said date and the name of the officer before whom proof is to be taken should be inserted in the blank. As soon as the blank notice sent you has been returned to this office, deposition blanks will be mailed you and Mr. Ashley will be authorized to make examination of works and report to this office, if you so desire.

Trusting this will be satisfactory, I am

Very truly yours,

State Engineer.

Bonner County, Idaho

HOPE, IDAHO, May 6th 1910

Mr Jas. Stephenson Jr
State Engineer
Boise - Ida.

Dear Sir! - Coming home from a western trip, I found your favor of April 1st 1910. -

Before filling out the blank I beg to state to you what is done in regard to this work. -

The board has made a concrete dam, at the place where the water right was taken, to concentrate the small streams.

From this dam is made a ditch to the tank, which is 180 rods long and in this ditch is a pipe (4ⁱⁿ) to bring the water in the tank.

A tank is built, (and ready for use) of 24 x 16 ft.

At present we are digging a trench from this tank to the main street in which a 6ⁱⁿ pipe will be placed as soon as possible. -

For the tank, pipes and work, is all paid for. -

There was quite a delay in the work during the winter, on account of snow frost and weather, but from now on the work will be pushed as fast as possible. -

The board did send for Mr Ashley (the surveyor to fill the blank out in the proper way, but up to this day we have not heard from. -

After this statement please be so kind to inform me how to fill this blank out, to prevent that I make a blunder. -

Hoping to hear from you in the near future, I beg to remain

Respectfully yours

J. F. Warrington Kiebert
Clerk

STATE ENGINEER

INSTRUCTIONS

Proof of Completion of Works

Boise, Idaho, April 1, 1910

The Incorporated Village of Hope,

Hope, Idaho

Dear Sir:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your Permit No. 4981

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which is to be submitted, which proof MUST be on or before **July 24, 1910**. Upon receipt of the blank, properly filled out, notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place, convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

JAS. STEPHENSON, Jr.,
State Engineer.

Re Permit No. 4981.

Boise, Idaho, Aug. 10, 1909.

John K. Ashley,
SanPoint, Ida.

Dear Sir:-

Above permit was returned to you from this office yesterday. I beg to say that through some carelessness in this office, the maps belonging to this permit have been misplaced. Would it too much trouble or would it be possible for you to re-draw the same in duplicate and put one inside the permit and return the other to us.

Very truly yours,

C/M
