Dear Mr. & Mrs. Kresge:

This office has received the assignments whereby William A. Greene conveys his interest in the above referenced permits and licenses to you.

We have recorded the assignments in connection with the permits and changed our records accordingly. Enclosed are copies of the permits; we direct your attention to the conditions of approval as listed on the fourth page of each permit.

We wish to advise you that the Department has no procedure for changing the records of ownership once a permit has been licensed. When a license is issued it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the sale transaction. We will, however, place the assignments in our files for future reference as to present ownership. We have enclosed copies of the licenses for your records.

Should you have questions regarding the permits or licenses, please feel free to contact us.

Sincerely,

William A. Greene
Ridgefield Public Schools
Clark County School District #122
Ridgefield, Washington 98642

Dear Mr. Greene:

This is in reply to your letter of November 14, 1966, I have checked over the records again and we find that the information we gave you previously is the only recorded right. This license was issued to a Mr. Charles Crocket with a priority date of April 2, 1908. The points of diversion were NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 12 and NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 1 all in Township 54 North, Range 4 West, B.M. This water is to be issued on 320 acres in Section 1 and Section 12, since the original right was for 320 inches of water each acre would then be entitled to one inch.

The license number is 3348 and the other number is 1581. This is the page it was filed on. So they are one and the same. It is possible that the other right for Lots 3 and 4 of Section 1 is recorded in a County Record book and we do not have any record of this. Our water book one, water right 144 has been cancelled and it was for land in Lemhi County.

Sorry we could not locate any other rights for your property.

Very truly yours,

M. RUSSELL BOSCH

Dear Mr. Bosch:

On August 24, 1966, I wrote your office making an inquiry as to whether there were any water rights of records on the following described property owned by me: All of Section 36, Township 55 North, Range 4 W.B.M.; Lots 3 and 4 in Section 1, Township 54 North, Range W.B.M.; the East $\frac{1}{2}$ of Section 35, Township 55 North, Range 4 W.B.M., lying South of the County Road as now established, all of the foregoing property being located in Bonner County, State of Idaho.

In my letter of August 24, 1966, I advised further that there was an unnamed, year around stream flowing through lot 3 and a portion of Section 36 as described above. I stated further that it was my intention to sprinkle or flood irrigate approximately three hundred of bottom land lying in Lots 3 and 4 of Section 1 and in a portion of Section 36.

On August 29, 1966 you wrote me advising that the only recorded water right is in a license, page no. 1581 where the Northeast quarter of the Northwest quarter, Section 1, which is the same as lot 3 Section 1. You stated further that this right is for one inch per acre, and that no other rights for the other ground as described above are filed. In addition, you provided me with an application for water permit and with the instructions and fees pertaining thereto.

Since your letter of August 29th, I have examined the abstracts on my property, and I have found that there was a water license No. 3348 dated April 30, 1914 and filed on May 13, 1914 and which provided some water rights on the unnamed stream for portions for lots 3 and 4 of Section 1 as well as a portion of Section 36. This water right is recorded in Book 1-WR 144. The water right is in the amount of 6.4 cubic feet per second and the right was issued to one Charles Crockett.

In view of the above I would very much appreciate your re-examining your records for purposes of determining whether this original water right issued to Charles Crockett is still in effect. It may be that the water right referred to in your letter of August 29th and recorded on Page 1581 is the same right that was originally issued to Charles Crockett. In any event I would appreciate your advising whether either of the two water rights referred to above are still in effect and whether they may be issued or
