CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

RE: WATER RIGHT NO. 95-08936

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED
OCT 28 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

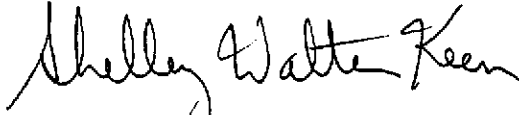

MICROFILMED

OCT 28 1998

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

E. NARRATIVE/REMARKS/COMMENTS

This system consists of a 5 horse power pump supplying water to a 50,000 gallon reservoir from Hayden Lake at the rate of 47 gallons per minute (0.10 cfs). A booster pump is used to transfer water from the reservoir to the homes.

Water is distributed from storage to 60 existing homes. This system is designed to supply a total of 81 homes.

There is approximately 8200 ft. of 6" PVC pipe as the main water line. This line is reduced down to service each home.

The average size of the lots being irrigated is 100 ft x 100 ft of lawn and garden. This calculates out to be 18.6 acres. When divided up amongst the 44 sections and rounded to the nearest acre the total area for irrigation = 19 acres

Mr Meyers stated to me that the pump output while in operation is 47 gallons per minute. This measurement coincides w/ the Theoretical Pump Efficiency calculation.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 95-08936

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since proof was submitted after the proof due date of February 1, 1997. Please note that the priority date has been advanced to March 3, 1996.

Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, contact the **NORTHERN** Regional Office in Coeur d'Alene at (208)769-1450.

Sincerely,

RE: Water Right Permit No. 95-08936 (Hayden Lake Rec. Water & Sewer)

Dear Jeanie:

I received your letter and the copy of the Proof of Beneficial Use statement which was signed on March 14, 1996. However, I can find no evidence in the water right file which shows that the department ever received the proof form. Additionally, there is no record of a receipt in the amount of \$125.00 for the license examination fee which should have been submitted with the proof statement.

The department will accept the proof statement you filed when the required \$125.00 license examination fee is submitted. I have enclosed a copy of the license examination fee schedule for your reference.

To address the question of additional rights for HLRWSD, you were correct that no additional rights have been filed for the HLRWSD.

Please be aware that this permit lapsed on February 1, 1997, since the Proof of Beneficial Use statement had not been received by the department on or before the proof due date of February 1, 1997. The department cannot accept the proof until the license examination fee is submitted, so it is imperative that you remit the \$125.00 fee as soon as possible. Please reference the permit number on your payment and address any correspondence to my attention.

Please contact me directly at (208)327-7953 if you have any questions concerning this matter.

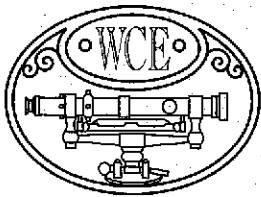

Sincerely,

Re: Hayden Lake Recreational Water &
Sewer District Permit # 95-08936

Dear : Julie

As requested in our phone conversation on January 30, enclosed please find the original Proof of Beneficial Use that was filed in March of 1996.

After talking with our engineer on this project, he made mention that prior to filing the Beneficial Use Permit in 1995, he researched whether HLRWSD had ever obtained a permit to appropriate water. According to the information he received from Water Resources, there were no permits issued to HLRWSD prior to this one.

I believe that this Proof of Beneficial Use is what your requesting. However, if it is not, call me right away and we will file another and resolve this issue.

Sincerely,

RE: PERMIT NO. 95-08936

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: Amended Application for Permit No. 95-08936

Dear Sirs:

The above referenced application for permit has reached the State Office for final review and processing. Our records show that on October 30, 1995 you submitted the above application for permit to divert 0.35 cfs for domestic use and at that time submitted a \$100.00 filing fee. On November 28, 1995, you amended your application to include irrigation of 57.5 acres and increase the proposed total rate of diversion to 1.16 cfs; however, no additional filing fees were submitted with the amended application. The filing fee for applications proposing the diversion of 1.01 to 2.00 cfs is \$120.00.

I will hold further processing of this application for 14 days pending your submittal of the additional \$20.00 filing fee. Idaho statute requires that the date of priority be advanced to the date the full filing fee is received. Please remit the additional fee as quickly as possible to prevent any further undue delay in processing your application for permit.

If you have any questions, you may contact me directly at (208) 327-7944.

Sincerely,

Cindy Zimmerman

Re: Water Appropriation Application No. 95-08936

Dear Hayden Lake Recreational Water & Sewer District:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N009640. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the local county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. State office personnel will then conduct a complete review, and you will be notified by mail of the outcome. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State office in Boise.

If your source is groundwater, a separate well drilling permit is required for all wells constructed after July 1, 1987.

IF, FROM THAT WELL, YOU WILL BE DIVERTING WATER FOR MORE THAN ONE HOME AND AT A RATE OF MORE THAN 0.04 CFS AND MORE THAN 2500 GALLONS PER DAY, YOU WILL NEED TO OBTAIN A PERMIT FOR OTHER THAN DOMESTIC USAGE. THE TOTAL FEE FOR SUCH A PERMIT IS \$200.00. IF YOU HAVE ALREADY OBTAINED A DOMESTIC PERMIT, YOU WILL NEED TO UPGRADE YOUR PERMIT AND THE FEE FOR UPGRADING IS \$165.00.

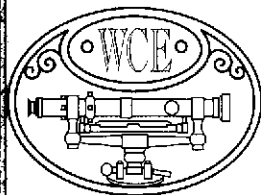

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

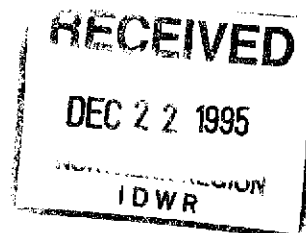

12-28-95

Thank you for supplying the information regarding the number of acres of irrigation for this filing. The map that was submitted with the Application for Permit shows the boundary of the place of use also including a portion of the SE 1/4 of section 3, T.51N., R.3W. This area was not included as part of the Place of Use. Should it be? And if it is, please advise as to the uses and number of acres of irrigation will occur there.

RE: REQUEST FOR ADDITIONAL INFORMATION ON APPLICATION FOR PERMIT  
FOR HAYDEN LAKE RECREATIONAL WATER & SEWER DIST.

~~~~~  
As per our phone conversation, please review the following items
which we discussed on the above filing:

Item No. 2. Please list the tributary as "SINKS"

Item No. 4. Irrigation use with a period of 3/15 to 11/15 should
be listed. A typical diversion rate is 0.02 CFS per
acre of irrigation.

Item No. 9. Please indicate domestic use by placing a "D" in each
40 acre tracts where domestic use will occur. Also,
the number of acres of lawn and garden irrigation
should be placed within the same corresponding 40 acre
tracts.

Another item we will need in addition to the above information is
a list of the officers of the District, which has been requested
from Sheila, of their office.

We will hold this filing until we receive a revised Application for
Permit from you.

If you have any questions, please feel free to contact me at this
office.

Thank you,

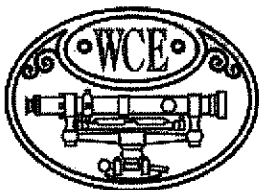

Al Beardslee
