PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 95-08909

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

During my review of your proof I note that you presently claim 2,125 households under your domestic use. However, according to your permit domestic use is authorized for 2,067 households. Issuance of the license can not exceed the number of authorized homes as presently permitted. I suggest that you check to determine that the additional homes are authorized by some other water right. If not, I suggest you contact our Northern Regional Office in Coeur d'Alene.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

PROOF DUE NOTICE

RE: PERMIT NO. 95-08909

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 2000. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

DEBORAH DREW-ELLIS

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

That portion of the Place of Use located
within Twp 51N R04W Section 13 was
incorrectly advertised as NENE,
N1/2NW, SWNW and S 1/2SE, whereas
correctly it should read NENW, NWNE,
NENE, SWNE, SESE AND SWSE.

Additionally, total acres irrigated was
omitted from original advertising, where-
as correctly it should show 1270.0 ACRES
TOTAL.

(For additional information concerning
the property location, call the Northern
Regional Office at 769-1450.)

Any protests against the approval of the
above-referenced correction must be filed
with the applicant and with the Director,
Dept. of Water Resources, 1910 North-
west Blvd., Suite 210, Coeur d'Alene, Id.

DATE: June 28, 1995
TO: Bob Haynes, Northern Region
THRU: Shelley Keen *SWK*
FROM: Cindy Zimmerman
SUBJECT: Review of Application for Permit No. 95-08909

=====

During the review of this application, I noted that the land list and mapping included places of use located within **NWNE** & **SWNE**, S13, T51N, R04W which were not included in the database or advertisement.

Also, the database and advertisement identified places of use within **NWNW** & **SWNW**, S13, T51N, R04W which are not identified on the land list or mapping.

Per Al's request, I am returning this application for confirmation of my review, and whatever action you wish to take.

Thanks,

Cindy

Re: Water Appropriation Application No. 95-08909

Dear Avondale Irrigation District:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
