CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs nor more than 1.5 afa for the land described above.

RE: Point of diversion description

Although the field examiner determined subsequent to the license that the point of diversion can be more accurately described as the Lot 2 (*SENW*), S13, T49N, R4W, the govt. lot designation is the true legal description. Therefore, the point of diversion description on the license, which indicates Lot 2 (*SWNE*), is correct.

RE: License # 95-08846

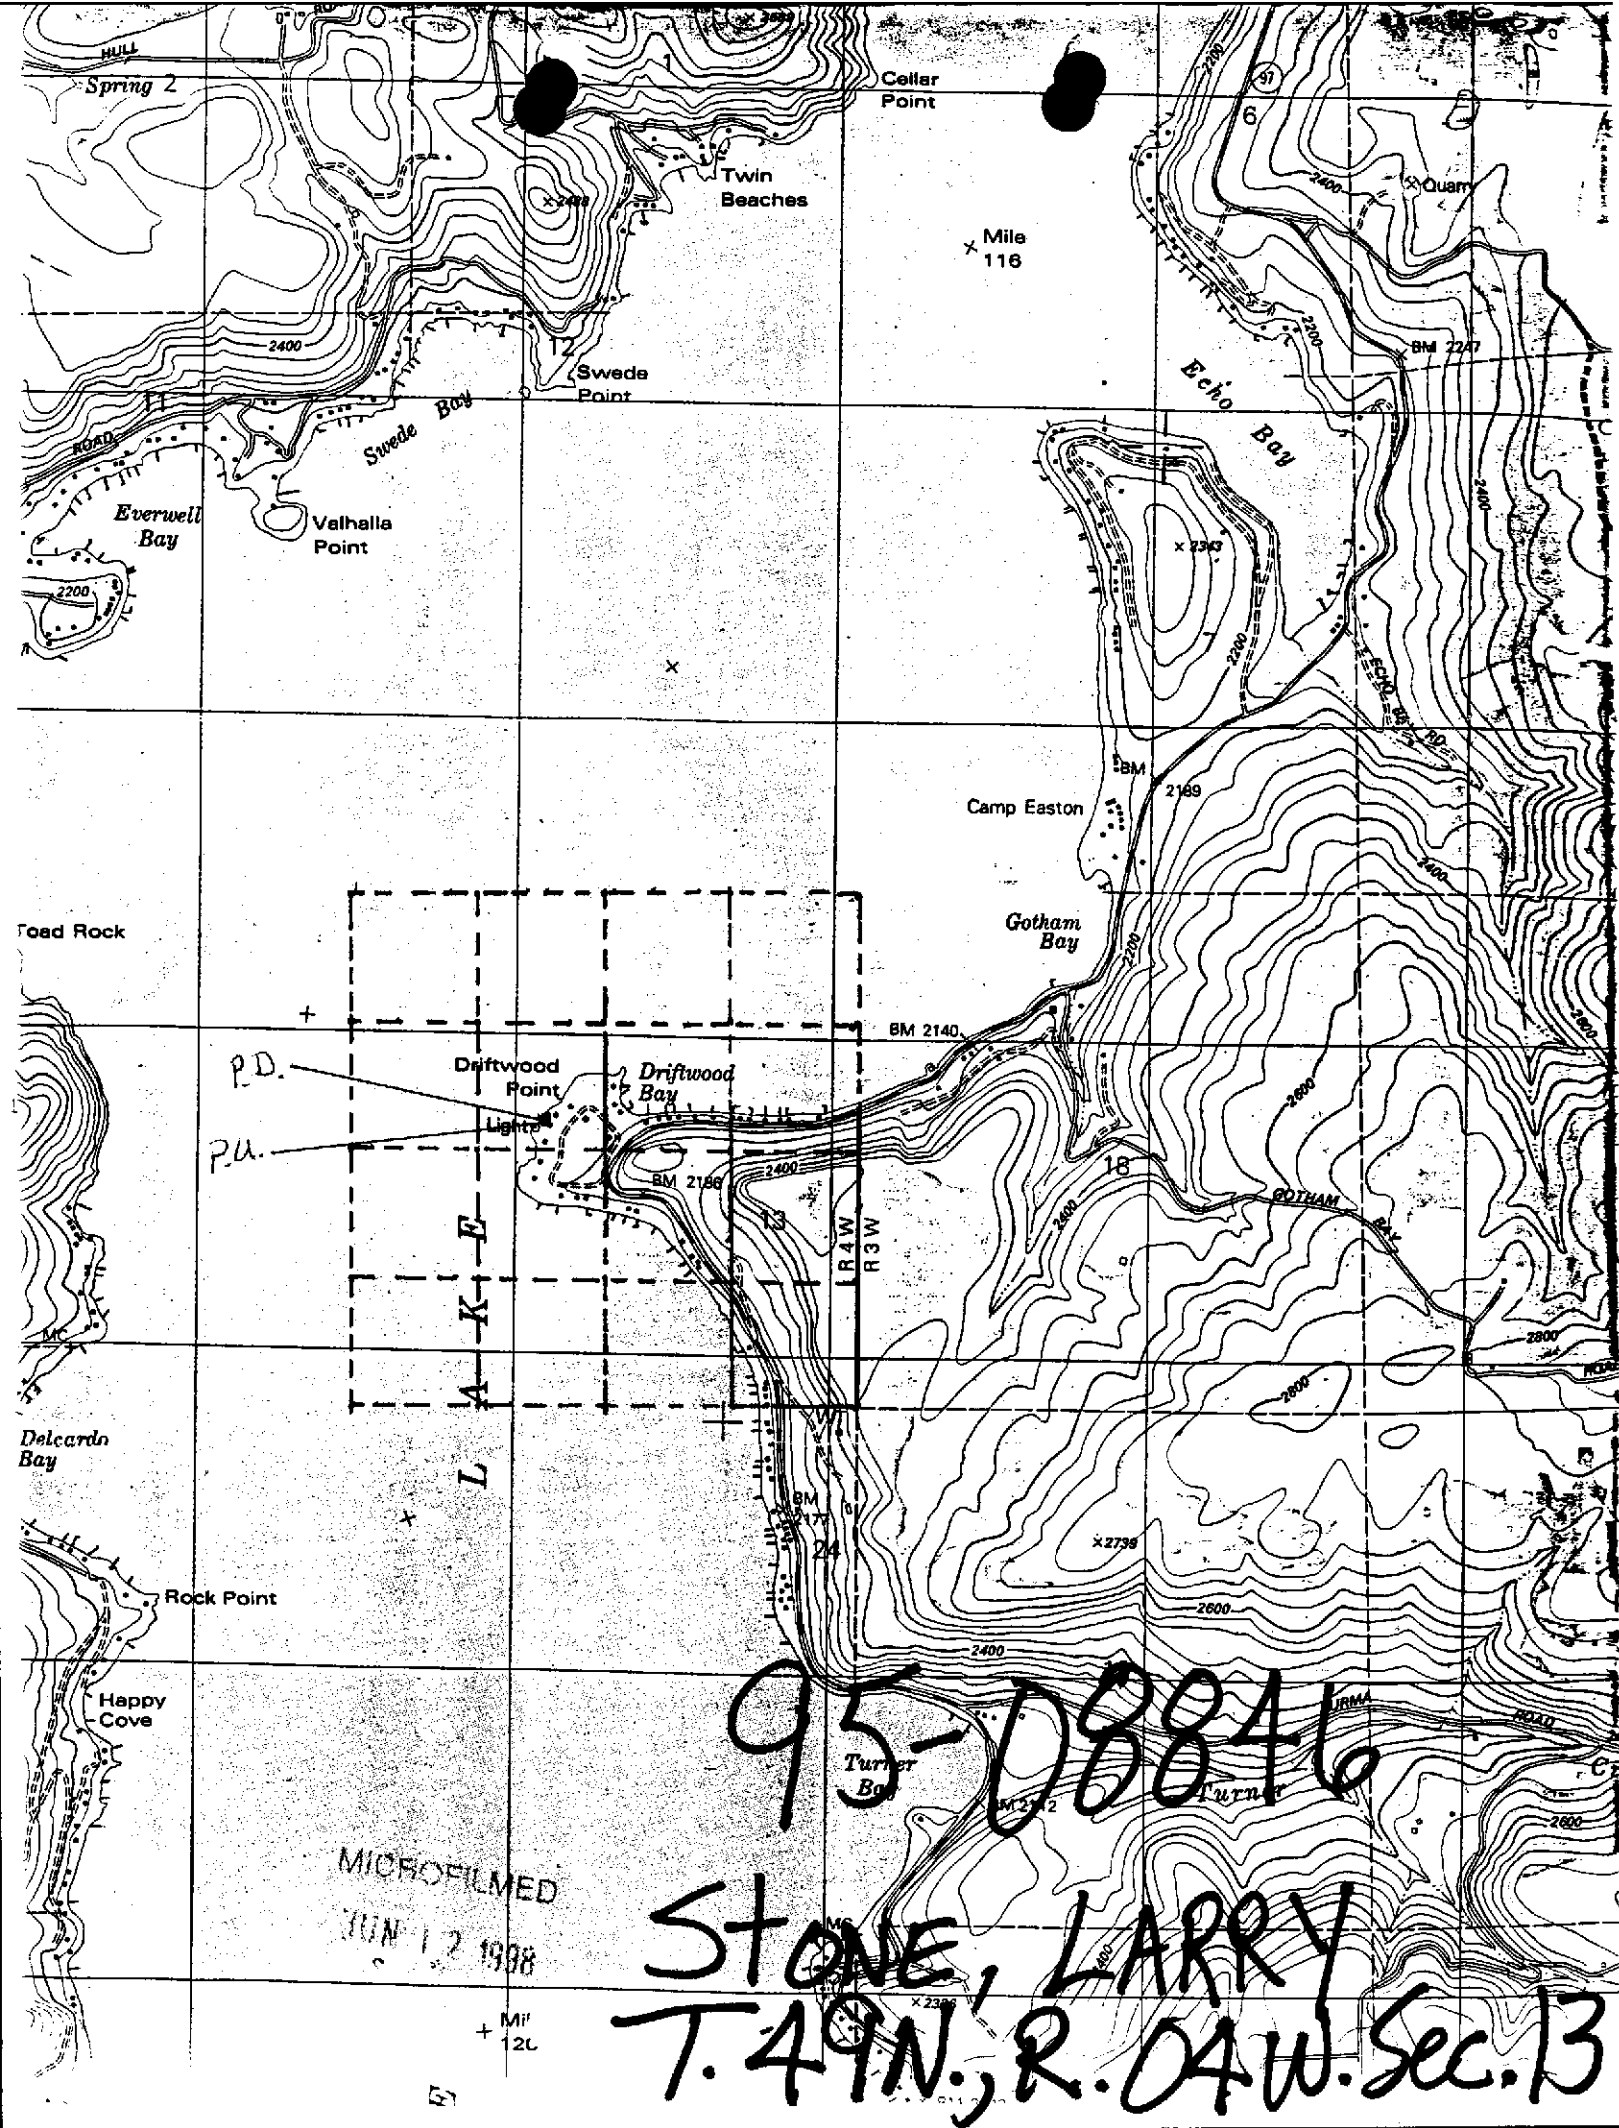

I met with Doug Allman at 10:00 a.m. this morning to do the Proof of Beneficial Use Exam for the property owned by Larry and Nancy Stone. I had been at this location before so when I returned to the office I brought up this permit # on the database to verify the status. Also when I was talking with Mr. Allman we determined that the legal description of the point of diversion is incorrect.

This permit was licensed 12/13/1996, the exam was completed on 8/22/1996. Mr. Allman verified that this property and the point of diversion are located within 100 feet, north, of the signal light that is on the USGS 7.5' Quadrangle map. This would verify that the PD that is listed on the license as T49N R4W Sec. 13 Lot 2 (SWNE) is incorrect. The proper legal description of the PD is T49N R4W Sec. 13 Lot 2 (SENE) as indicated on the enclosed map. This is also the same as the place of use.

DATE: November 6/December 13, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Right 95-08846 are based on the following:

C. DIVERSION AND DELIVERY SYSTEM

Gov. Lot 2 (SWNE), S13, T49N, R4W

H. RECOMMENDATIONS

1. Recommended Amounts

Irrigation	3/15 - 11/15	0.02 cfs	1. 5afa
------------	--------------	----------	---------

There are several variations in the legal descriptions for this right identified on numerous maps. I contacted the Kootenai County Assessor's office to see if they could narrow down the identification for me, however, they do not show Larry or Nancy Stone owning any property in the entire section. Using the subdivision plat attached to the field exam and the government plat from our microfilm, the description for both the point of diversion and place of use will be listed on the license as Gov. Lot 2, SWNE. *List POW as SENW as recommended by the examiner. No amendment necessary. S.W. Keen 12/13/96*

An amendment will not be solicited because the map attached to the original application for permit identified Gov. Lot 2 as part of the legal description.

The original application was filed for irrigation of 1/2 acre; the license will be issued accordingly, thereby removing the need for an amendment.

In response to my letter, Larry contacted me on December 13 and confirmed that use of water from the lake is for irrigation of landscape; a well serves the in-house needs. He also stated that the property is still owned by him, thus the license will be issued in his name.

RE: Permit No. 95-08846

Dear Mr. and Mrs. Stone:

We are in the process of reviewing the above referenced permit for licensing. The permit was filed for the irrigation of approximately ½ acre. In the photographs taken by our field examiner in August and from his system diagram, it is uncertain as to whether the use of water from Coeur d'Alene Lake is irrigation or in-house use. Could you please clarify this for me.

The Kootenai County assessor's office indicated to me that the property in question is not shown in their records as being in your names. If you have sold the property and wish to have the water right license issued in the name of the new owners, you can use the enclosed assignment form for that purpose.

Please give me a call if you have any questions. As soon as I receive your response, license issuance can proceed.

Sincerely,

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 95-08846

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208) 769-1450.

Sincerely,

PROOF DUE NOTICE

RE: PERMIT NO. 95-08846

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

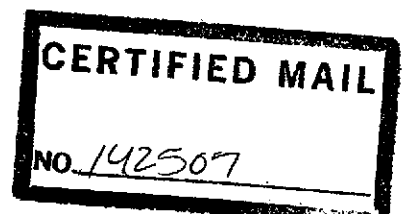

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Dear Julie:

This follows my telephone conversation of February 27 with you regarding my permit number 95-08846 and the letter from Jim Johnson of March 10, 1994 regarding my permit approval notice. I overlooked the fact that apparently work should have begun on the lake extraction unit prior to March 10, 1995. I had noticed the March 10, 1996 date and thought that was the pertinent deadline. I therefore wanted to call you immediately and let you know that I had not started work and would not be able to get anything done by the March 10th 1995 date. You suggested that I just write a letter for the file, and you said no work had to be done until next year anyway. By that time I will have accomplished the task.

Thank you so much for your understanding and, please accept this letter (as you suggested) as an addition to the file if there is ever any question.

Sincerely,

J. Lawrence Stone

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 95-08846

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Dear Mr. and Mrs. Stone:

Subject: Water Application for Permit Number 95-8846.

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to Appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N7298. Please refer to your Application for Permit Number in future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the application is not protested. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
