RE: Water Right 97-7453
Drilling Permit 971993N0011000 (New DP # 761756)

Dear Ms. Lang:

This letter is in response to your conversation with Linda Tracy on November 20, 2006 in which you state that you consider the well use to be domestic (well used only for 1 household and stockwater for 10 horses/goats) and, therefore, should not be required to pay the \$165 difference in Drilling Permit fees.

In accordance with your conversation and review of the water right file with water right personnel, it has been determined that your usage of the well does fall under the definition of domestic use. Therefore, you are not required to pay the \$165 difference (between Drilling Permit domestic fee and non-domestic fee).

Be aware, however, that if the usage of the well changes in the future to be non-domestic, the difference in fees may be required. Also if the well is modified sometime in the future (e.g. deepened, enlarged), a drilling permit and fee will be required.

If you have any additional questions, please feel free to contact this office.

Sincerely,

THOMAS F. NEACE, P.G.
Manager, Groundwater Protection Section
