

MEMORANDUM

Date: November 07, 2006
To: Water Right File 87-7197
From: Shelley Keer 
Re: Licensing Review

IRRIGATION SEASON -- The current standard irrigation season for this area is 3/15 to 10/31, or 231 days. The irrigation diversion rate of 0.03 cfs will produce only 13.7 AF if diverted constantly over 231 days.

OVERLAP REVIEW -- Permit 87-10037 was issued to Lisa Greenville for use of water from her own well for Lot 1, Block 2, of Canterwood Estates. She stated at that time that she had disconnected from the subdivision system. Nevertheless, I included her lot in the POU for the subdivision because proof of beneficial use for Permit 87-7197 was submitted a few years before Permit 87-10037, which means that she must have been connected to the subdivision system during its development phase.
