Jim,

Thanks for keeping me informed of your progress. IDWR is anxious to issue the license so that it can be the basis of the SRBA recommendation. It would be helpful if you could submit the map and calculations by November 10, 2006.

Shelley,

Confirming our telephone conversation last week I will be submitting to you, as soon as I receive it, a map and calculation of irrigated areas prepared by my client's engineers. Please give us a little more time to get this done. Thank you for all your help on this one.

Jim
