CHECKED BY: CMW
FILE No.: 000103-100-00-00
DATA No.:

SHEET 1 OF 1

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 96-09129

Priority: February 27, 2003

Maximum Diversion Rate: 1.30 CFS

This is to certify, that RESORT WATER CO INC
165 VILLAGE LN STE A
SANDPOINT ID 83864

has applied for a permit to appropriate water from:

Source: GROUND WATER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
MUNICIPAL	01/01 to 12/31	1.30 CFS

LOCATION OF POINTS OF DIVERSION:

GROUND WATER	NW¼SW¼	Sec. 20, Twp 58N, Rge 02W, B.M., BONNER County
GROUND WATER	SW¼NW¼	Sec. 20, Twp 58N, Rge 02W, B.M., BONNER County
GROUND WATER	SW¼NW¼	Sec. 20, Twp 58N, Rge 02W, B.M., BONNER County

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **September 01, 2008**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
5. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
6. Place of use is within the area served by the public water supply system of Resort Water Co. Inc. The place of use is generally located within Section 20, Township 58N, Range 2W.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 25th day of September, 2003.

RE: Permit No. 96-9129

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

MICROFILMED

SEP 30 2004

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

for Shelley W. Keen
Water Rights Supervisor

SANDPOINT ID 83864**

**Kari Lynn Townsend
Secretary**

MICROFILMED

JUN 15 2004

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED

JUN 15 2004

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE Water Rights Application, Resort Water Company, Schweitzer Mountain Resort

Dear Mr. Lackey:

This letter is in response to your request that DEQ provide written confirmation of the status of the various water sources and of Resort Water Company (RWC) water system at Schweitzer. We understand that RWC has filed an application with the Idaho Department of Water Resources (DWR) to renew or establish water rights on your existing three wells (Wells #4, #5, and #6) and one spring source. These sources supply or are intended to supply the (non-transient non-community) public drinking water system (PWS # 1090123) owned by RWC and providing drinking water to 100+ customers in the Schweitzer Mountain Resort area.

The RWC drinking water system is currently in compliance with the Idaho Rules for Public Drinking Water Systems. We understand that the existing spring and wells # 4 and 5 currently are in use to supply drinking water to the RWC system and well #6 has been drilled as approved by DEQ but has not yet been equipped with pumps or connected into the existing water system. This well will be put into service when RWC needs additional water supply capacity.

A well identified as Well #3 was previously used to supply water into the RWC system but is no longer approved by DEQ for use as a drinking water source because the well location does not comply with drinking water rules.

Sincerely,

Gary J. Gaffney, P.E.

Re: Application for Permit No. 96-9129

Dear Applicants:

We are reviewing the above referenced application for final action and find we need to request additional information from you. In order for the department to issue a permit for municipal use the permit must be in the name of an association, a city or a corporation that is authorized to do business in the State of Idaho. We request that you assign this application to a qualified business or homeowner's association, and include a listing of the corporate officers, unless you wish to qualify your current name with the secretary of state, so that we can proceed with processing the permit. I have included a blank assignment of application for permit form for your convenience.

We also need something to show that the association that you name on the assignment form is qualified to do business in Idaho. We have looked at the Secretary of State's listing of businesses qualified and find no listing for Resort Water Company. Attached is a portion of Section 42-202B which describes the need for this documentation.

TITLE 42
IRRIGATION AND DRAINAGE -- WATER
RIGHTS AND RECLAMATION
CHAPTER 2

APPROPRIATION OF WATER -- PERMITS,
CERTIFICATES, AND LICENSES -- SURVEY

42-202B. DEFINITIONS. Whenever used in this title, the term:

(4) "Municipality" means a city incorporated under section 50-102, Idaho Code, a county, or the state of Idaho acting through a department or institution.

(5) "Municipal provider" means:

- (a) A municipality that provides water for municipal purposes to its residents and other users within its service area;
- (b) Any corporation or association holding a franchise to supply water for municipal purposes, or a political subdivision of the state of Idaho authorized to supply water for municipal purposes, and which does supply water, for municipal purposes to users within its service area; or
- (c) A corporation or association which supplies water for municipal purposes through a water system regulated by the state of Idaho.

MAILED
JUN 4 5 2004

"public water supply" as described in section 39-103(10), Idaho Code.

(6) "Municipal purposes" refers to water for residential, commercial, industrial, irrigation of parks and open space, and related purposes, excluding use of water from geothermal sources for heating, which a municipal provider is entitled or obligated to supply to all those users within a service area, including those located outside the boundaries of a municipality served by a municipal provider.

We also need a copy of correspondence that shows you have been in contact with the Idaho Department of Environmental Quality (IDEQ) regarding this application. Since this application is for municipal purposes we need to know that IDEQ has been notified that this project is being developed and that they are asserting jurisdiction over the well site, and engineering plans. A copy of correspondence between IDEQ and you will be sufficient for us to document our files.

Please return the assignment form, unless you wish to qualify your current name with the secretary of state, with a copy of a current document showing that the assignee is qualified to do business in this state, and your correspondence with IDEQ **within 30 days of the date of this letter** and we will process the application for permit.

The Department will hold further processing of this application for the 30-day period mentioned above. The Department may grant additional time if it is requested and you have sufficient justification for an extension of the 30-day period. After that time, if adequate information is not received, the Department will issue a preliminary order to reject or deny the application.

If you have any questions in regard to this matter, please feel free to contact me at (208)327-7944 or our office in Coeur d'Alene.

Sincerely,

KAY WALKER

And a good morning to you, Sheri,

Dear heart, ♥ it is not the end of the world. If it were, it wouldn't matter anyway, would it?

Now, here is what we can do: - Within the body of the legal, we can change the date near the bottom setting the date on or before when protests can be made from, **05/19/2003 to 06/02/2003**. Then we can **change the publication dates at the very bottom next to your Legal SNP#4263 to read May 15 and 22, 2003**, and let it run on those dates. How does that sound to you?

I have changed the dates in the legal notice in my computer, and am sending it for you to use, as an **attachment below**. That should take care of the matter.

Breathe easy, have a wonderful day, and remember to smile because a smile is a light in the window of your face that shows that your heart is home.

♥ Dianne

~~~~~

Good morning Dianne,  
 I made an error on one of your legals. It is app #96-9129. Somehow it didn't get scheduled. It was set up & typeset, but it was never put in the computer so it never ran in the paper. It was supposed to end today. How can I fix this? I'm really sorry about this. I'm not sure how this happened.  
 So sorry,  
 Sheri Jones

RE: Application for Permit No 96-9129

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Bonner County Daily Bee on June 1 and 8, 2003. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

**Cc:** Eric Eldenburg (E-mail); Carlos Suarez (E-mail); 'jackey@schweitzer.com'  
**Subject:** RE: Schweitzer

Hello Al,

A description of the diverting works is as follows:

Well #4 has a 3 hp pump with a 2" line carrying the water from well #4 to the vault for Reservoir #2 (60,000 gallon storage tank) and to Reservoir #1 (45,000 gallon storage tank).

Well #5 has a 5 hp pump with a 3" line carrying water from well #5 to the vault for Reservoir #2.

Well #6 does not have a pump at this time, but we hope to install one this summer. The pump size has not yet been determined. There is no existing piping from the well.

This summer, we hope to install Reservoir #3, which will have storage capacity for an additional 200,000 gallons. We hope to eliminate Well #5's 3" line to Reservoir #2 and a separate 3" from both Well #5 & Well #6 will be installed to Reservoir #3. An 8" line will then be installed from Reservoir #3 to Reservoir #2.

We would like to apply for .4 cfs from well #4 & 5 and <sup>.5</sup>.45 cfs from well #6. According to my calculations, .4 cfs works out to be approximately 179.5 gpm and .5 cfs works out to be 224 gpm. Well #4 currently discharges 60 gpm. Well #5 currently discharges 160 gpm. Well #6 is expected to discharge 200 gpm.

The wells are located on property owned by New Schweitzer LLC.

Did you say that you have revised only one of the filings to show Municipal use? They're all on the same system so wouldn't we want all of them to be Municipal? Please let me know your thoughts on that.

If you have any additional questions, please feel free to call me. Thanks!

CarrieAnn

Hey CarrieAnn,

Thanks for the map for Recreations' Utility.

Originally, there were three filings submitted, each listing .40 cfs as a diversion rate. I have modified one of the filings to show Municipal use. And added the legal descriptions for the 3 points of diversions as shown on your map.

In order to complete the filing, we will need a description of the diverting works. It can be fairly general, but include information on pump size,

1  
3/13/03

piping and storage.

Is .40 cfs the total rate you wish to apply for?

And finally, who owns the property where the wells are located.

I am glad that you are working on this project. Call if you have any questions.

Al

**RE: Resort Water Company, PWS #1090123 – Application for Permits**

Dear Al:

Please find enclosed a map showing the points of diversion and places of use for Schweitzer Mountain's Water System owned by Resort Water Company. Carlos Suarez is the Public Works Director and Jim Lackey is the System's Operator for the water system.

We would like to request on behalf of Resort Water Company that their Application for Permit be submitted for municipal uses rather than the domestic, commercial, and irrigation uses shown on their application submitted on September 21, 1999.

If you have any questions or need any additional information, please call me at (208)263-4160. Thank you!

Sincerely,

JAMES A. SEWELL & ASSOCIATES
