**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF PERMIT NO.)
96-09055 IN THE NAME OF RAMONA)
CROZIER)
_____)

ORDER OF REINSTATEMENT

FINDINGS OF FACT

1. On December 8, 2000, the Department of Water Resources ("Department") issued Permit No. 96-09055 to Ramona Crozier ("permit holder") with a condition of approval requiring the permit holder to submit proof of construction of works and application of water to beneficial use ("proof") to the Department on or before December 1, 2002.
2. On September 30, 2002, the Department sent a "proof due notice" to the permit holder.
3. On December 6, 2002, the Department sent a "lapse notice" to the permit holder, since the permit holder had not submitted proof to the Department or a Request for Extension of Time ("extension request") in which to submit the proof.
4. On February 5, 2003, the permit holder submitted an extension request in which to submit the required proof. Since the extension request was received more than 60 days after the proof due date, the department requested additional information from the permit holder including an explanation of why the permit holder believed the notices had not been timely sent or that submittals mailed by the permit holder had not been timely delivered to the Department.
5. On February 24, 2003, the permit holder submitted a written explanation to the Department of the late submittal.

CONCLUSIONS OF LAW

1. Section 42-218a.1, Idaho Code, provides that upon a showing of reasonable cause, the Department may reinstate a permit after it has lapsed and may advance the priority a time equal to the number of days that the required submittal was late.

MICROFILMED
APR 6 5 2004

2. The permit holder has shown reasonable cause why the Department should reinstate the permit.

3. The Department should reinstate the permit but should advance the priority by the number of days that the proof submittal was late.

ORDER

IT IS HEREBY ORDERED that Permit No. 96-09055 is **REINSTATED** and the priority is advanced to September 30, 2000.

DATED this 5th day of March, 2003.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 96-9055

Dear Permit Holder:

I acknowledge receipt of the Proof of Beneficial Use you filed in connection with the above referenced permit. Enclosed is an order reinstating the permit without advancement of the priority based on department error. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Northern** Regional Office of the department in Coeur d'Alene at (208) 769-1450.

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the time within which to submit proof of beneficial use of water to **December 1, 2003**.

Please note that the department granted this extension based on **due diligence**. It is important that you work diligently toward the completion of this project during the construction period allowed since the department **may not** be able to grant additional extensions based on due diligence.

Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please feel free to contact the department if you have questions.

RE: Permit No. 96-9055

Dear Mr. Young,

I am writing after our conversation on Monday, Feb. 17, 2003. We were confused with the original letter asking for proof of beneficial use. The form itself does say it must be accompanied by a license exam fee, when necessary, or completed field examination report. In talking to the office in Couer D'Alene, I must have misunderstood them, but thought we would have an examination of the water system before we sent in the form.

When we received the Lapse Notice, we decided to apply for an extension of time, as the system is not completed. By December, there was not any way for us to complete that portion of the sprinkler system. We sent to \$50.00 fee as asked for, and now have been denied due to a 1 day lap of time within the 60 day stated limit for receipt by your office. The check, by the way, was cashed.

By her admission, Deborah Gibson said the letter was not mailed until the 6th of December. If it was mailed after 5pm, it is doubtful that it went out until the 7th. I am not sure when our payment was mailed, but it may have taken a day too long. This is a technicality that should not receive quite as severe a punishment as has been dealt.

We do have the system in use during the summer. It is very important for our farm, even more important due to fire danger. We live on a hillside that was all but strip logged and it becomes extremely dry in July and August.

It is our hope that you can re-open our permit – we will be glad to follow whatever steps you recommend.

Thank you in advance for your consideration of this matter,

Sincerely,

Ramona Crozier

Dear Ms. Crozier:

Returned is the Request for Extension of Time you filed with the department on February 5, 2003. The department is not authorized to accept the request, since the request was submitted after the permit had lapsed and become of no force nor effect. In order to continue the development of a water right in connection with your project, you will need to submit a new application to the department's regional office in Coeur d'Alene and start the process over again.

Enclosed for your consideration and use is a blank application for permit form and instructions for this completion.

LAPSE NOTICE

RE: PERMIT NO. 96-9055

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in the proof due notice dated September 30, 2002. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

Sincerely,

L. Glen Saxton, Chief
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 96-9055

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 01, 2002. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Admin. Assistant

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 96-09055

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control on your diversion.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

MICROFILMED

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
OCT 13 2001

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Greetings, gentlemen,

Because the water rights are always listed numerically, you will need, again, to go to the end of the attached list.

There are four (4) surface water rights for your review and comment, Gregg, all under the name of Ann Marie Nilsson, numbered 86-07375, 86-07376, 86-07377 and 86-07378.

There are two (2) surface water rights for your review and comment, Chip; they are 96-09055 for Crozier, and 97-07401 for Aerocell.

We need to have your input EITHER WAY on these on or before SEPTEMBER 25, 2000.

THANKS EVER SO MUCH, and have a great day. Dianne Ball - IDWR - Northern Region, Cd'A

Re: Water Appropriation Application No. 96-09055

Dear Ms. Crozier:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the local county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. State office personnel will then conduct a complete review, and you will be notified by mail of the outcome. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State office in Boise.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
