BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION RECEIVED**MAR 23 2004**

IN THE MATTER OF THE APPLICATION OF	)	CASE NO. SPL-W-04-1	Department of Water Resources
SPIRIT LAKE EAST WATER COMPANY	)		
REQUESTING AUTHORITY TO INCREASE	)	NOTICE OF APPLICATION	
ITS HOOK UP FEES FOR WATER SERVICE	)		
	)	NOTICE OF MODIFIED	
	)	PROCEDURE	
	)		
<u>WR 96-8830</u>	)	ORDER NO. 29451	

NOTICE OF APPLICATION

YOU ARE HEREBY NOTIFIED that on January 14, 2004, Spirit Lake East Water Company filed an Application requesting that the Commission authorize it to increase the hook up fee it charges new customers connecting to its water system from \$650 to \$2,500.

YOU ARE FURTHER NOTIFIED that the Company contends that this increase is necessary because: 1) the Company has not increased its hook up fee since 1983; and 2) the Company currently pays more than \$650 to perform water system hook ups as shown by its average costs for hook up fees for the last two years, 2002-2003, which are \$2,100 per hook up. In addition, the Company has included a 20% contingency to its actual costs to provide security against future unanticipated costs and increased costs to materials and services. The Company alleges that its actual costs with the contingency equal approximately \$2,500 per hook up.

NOTICE OF MODIFIED PROCEDURE

YOU ARE FURTHER NOTIFIED that the Commission has determined that the public interest may not require a formal hearing in this matter and will proceed under Modified Procedure pursuant to Rules 201 through 204 of the Idaho Public Utilities Commission's Rules of Procedure, IDAPA 31.01.01.201 through .204.

YOU ARE FURTHER NOTIFIED that any person desiring to state a position on this Application may file a written comment in support or opposition with the Commission on or before **April 30, 2004**. The comment must contain a statement of reasons supporting the comment. Persons desiring a hearing must specifically request a hearing in their written comments. In addition, Spirit Lake may file reply comments with the Commission on or before

These comments must also be sent to the Applicant at the e-mail address listed above.

YOU ARE FURTHER NOTIFIED that if no written comments or protests are received within the time limit set, the Commission will consider this matter on its merits and enter its Order without a formal hearing. If written comments are received within the time limit set, the Commission will consider them and, in its discretion, may set the same for formal hearing.

YOU ARE FURTHER NOTIFIED that the Application, together with supporting workpapers and exhibits, have been filed with the Commission and are available for public inspection during regular business hours at the Commission offices.

YOU ARE FURTHER NOTIFIED that all proceedings in this case will be held pursuant to the Commission's jurisdiction under Title 61 of the Idaho Code and that the Commission may enter any final Order consistent with its authority under Title 61.

YOU ARE FURTHER NOTIFIED that all proceedings in this matter will be conducted pursuant to the Commission's Rules of Procedure, IDAPA 31.01.01.000 *et seq.*

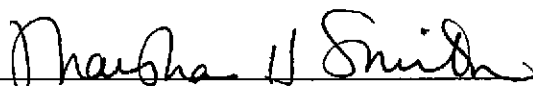

ORDER

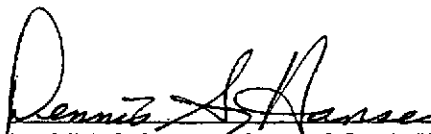

IT IS HEREBY ORDERED that the Application of Spirit Lake East Water Company shall be processed by Modified Procedure, IDAPA 31.01.01.201-.204. Persons interested in submitting written comments in this matter should do so on or before April 30, 2004.

IT IS FURTHER ORDERED that Spirit Lake East Water Company may file reply comments on or before May 7, 2004.

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **January 2, 1997**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
5. A well drilled pursuant to this permit must be located at least 500 feet from any existing well. Well spacing closer than 500 feet must be approved by the Department of Water Resources.
6. Construction of the well must comply with Idaho well construction standards.
7. The issuance of this right in no way grants any right-of-way or easement across the land of another.
8. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
9. Domestic use is for 380 homes.
10. Place of use is located within Spirit Lake East Subdivision.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

RE: WATER RIGHT NO. 96-08830

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

APR 15 1999

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

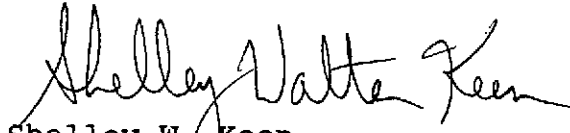

APR 15 1999

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: WATER RIGHT NO. 96-08830

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that your place(s) of use is in a location other than what was described on your permit. Therefore, before a license can be issued, the permit must be amended to depict your water right as it was actually developed.

The enclosed Application for Amendment form depicts the place(s) of use and other information as it will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208)327-7946.

Sincerely,

C. DIVERSION AND DELIVERY SYSTEM

2. Place(s) of Use -- additional places of use which were not listed by examiner:

T53N, R4W, S10 - SWSW (0.5 acres)

S8 - NENE (0.5 acres)

TOTAL = 49.5 acres

The examiner states that each lot has irrigation of approximately 5,625 sq.ft. which equals 0.13 acres/home. Rounded to the nearest tenth, 0.1 acre/home broken down by the number of lots/homes within each 1/4 would come close to a land list shown below. Each 1/4 will be licensed for 0.5 acres as permitted

H. RECOMMENDATIONS

Irrigation	3/15 - 11/15	0.80 cfs	148.5 afa*
Domestic	1/1 - 12/31	0.80 cfs	219.6 afa*

*These figures are listed in the remarks section of the license in combination with the overlapping license 96-07849. Irrigation: 49.5 X 3 = 148.5 af
Domestic: 366 X .6 (in-house use only) = 219.6 af

E. NARRATIVE/REMARKS/COMMENTS

Groundwater is being diverted through a 6.68 inch (id.) pipe into a 200,000 gallon reservoir using a 100 horsepower submersible pump.

From storage water is supplied to 167 existing homes (365 total lots) ~~projected~~ development for irrigation and domestic use.

The flow measurement taken using the Polysonic Flow meter verified pump output to be 740 gal/min. From the well to storage. I was unable to obtain a printout of the measurement results, the printer was not working.

Based on a visual inspection of the lots that are developed, I estimate that the average lot size is $75 \text{ ft} \times 75 \text{ ft} = 5625 \text{ ft}^2$

F. FLOW CALCULATIONS

Measured Method:

$$740 \text{ gpm} = 1.65 \text{ cfs}$$

☒ Additional Computation Sheets Attached
see Theoretical Calculation

$$\frac{740 \text{ gpm}}{448.83 \text{ gpm}} = 1.65 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$(75 \text{ Ft})^2 (365 \text{ homes}) = 2053125 \text{ ft}^2 / 43560 \text{ ft}^2 = 47.13 \text{ acres}$$

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 47.13 \text{ acres} \times 3.5 \text{ af/acre/season} = 165 \text{ afa}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.8 \text{ cfs} \times 245 \text{ days} \times 1.9835 = 389 \text{ afa}$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{D.R.} = 165 \text{ afa}$$

2. Volume Calculations for Other Uses:

$$365 \text{ homes} \times 1.2 \text{ afa} = 438 \text{ afa}$$

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 96-08830

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208) 769-1450.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 96-08830

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Dear Mr. King,

We have not heard from you since we sent you on 20 May 1992 the necessary material you requested in your letter of April 13, 1992 to our APPLICATION FOR PERMIT for the Spirit Lake East Water Company.

It has now been four months since we sent the application in. Your earlier estimate of the work you needed to do to grant us the new permit was around 60 days. Would you please let me know when we might expect said permit.

Sincerely,

Spirit Lake East Water Company

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 95-08753

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

BRENDA L. MILLER
Water Resource Agent

MEMORANDUM

Date: October 21, 1992
From: Jim Johnson
To: Bob Haynes
Subject: Application for permit 95-8753

=====

Bob, per our telephone conversation today, I am preparing this memo summarizing my review of the above referenced application.

Place of use; The subdivision maps do not show that N1/2 of section 35 is included in the subdivision but the application lists this land. Also the SE1/4 of Section 2 is not included in the Subdivision.

Rate of diversion; The rate listed is 0.80 cfs for irrigation. I don't believe this realistic amount for the number of acres identified on the application. I suggest getting additional information.

12-04-92

Each Lot is 50×50 (irrigated sq') = 2500

$2500 \div 43560 = .057$ or .06 acre

$380 \text{ homes} \times .06 \text{ acre} = 22 \text{ acres to be irrigated}$

$22 \times .02 \text{ per acre} = .44 \text{ cfs for irrigation.}$

Bjm

12-7-92

Change to .5 acres per 40 tract & allow
.80 for irrigation per firm.

Re: Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your Application For Permit To Appropriate The Public Waters Of The State Of Idaho and your filing fee in the amount of \$45.00 for which receipt #N-005351 is enclosed. However I regret to inform you that the application is not acceptable in its present form, so I am returning it to you for clarification or completion of the following:

Item #1: You must provide this department with a list of names and addresses of the managing partner of the partnership, or the directors and officers, of the corporation, or other governing officials of the organization.

Item #9: Domestic irrigation for more than ten households can mean five acres or more of irrigation. This makes it necessary to itemize irrigation as a separate use in items #4 and also in item #9, or by stating in item #12 that there is to be no irrigation of lawns or gardens.

Item #13: An application is not acceptable without a map or plat of sufficient scale (not less than two inches equal to one mile) to show the proposed project. You must either draw a map using the section layout provided, or you must provide a separate map. Either map must show the property in relation to the Section, Township and Range as established by the Public Land Survey. The map must have a North arrow and the scale must be shown. The point of diversion must be labeled and the place of use must be outlined and labeled. The point of diversion and place of use must agree with items #3 and #9.

Applications made by corporations, companies, municipalities or other organizations must be signed by an officer of the corporation/company or an elected official of the municipality or an individual authorized by the organization to sign the application and the signator's title shall be shown with the signature.

The Application must be completed and returned to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application.
