CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 32 homes.
6. Place of use known as Lots 1-24, Paradise View Estates and 8 other lots not originally part of this subdivision plat but are part of the Paradise View Estates Home Owners Association and are served by this water system.

### ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. \_\_\_\_\_, and said application is hereby \_\_\_\_\_.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before \_\_\_\_\_, 19 \_\_\_\_.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

## MEMORANDUM

**TO: File 96-08799**

**FROM: Sharla**

**DATE: November 13, 1996**

**RE: Recommendation Adjustment(s)**

The final license recommendations for Right 96-08799 are based on the following:

### H. RECOMMENDATIONS

#### 1. Recommended Amounts

|          |             |          |          |
|----------|-------------|----------|----------|
| Domestic | 1/1 - 12/31 | 0.05 cfs | 36.1 afa |
|----------|-------------|----------|----------|

The total diversion volume is limited by the rate of flow ( $0.05 \text{ cfs} \times 365 \text{ days} \times 1.98 = 36.10 \text{ af}$ ). The normal volume based on 1.2 af/home would exceed this limitation.

On November 15, 1996 I spoke with Barbara Olson, treasurer of the Home Owners Association. She verified that there are 32 lots stubbed for domestic use although not all lots yet have homes. In addition to the 24 lots identified on the subdivision plat, there are 8 additional lots which I have marked on the plat map with yellow stickies according to the descriptions given to me by Mrs. Olson. I explained to her that I needed verification of the number of lots stubbed and wanted to tie down a description as to Lots, Blocks, etc. for license issuance, if possible. The other 8 lots have no such description and when I told her that the license would contain a remark to the effect that the "place of use is known as lots 1-24, Paradise View Estates and 8 other lots not originally part of this subdivision plat but are part of the Home Owners Association and are served by this water system", she agreed that such a remark would be satisfactory. She also stated that the association's by-laws limit the number of homes to 32, so there wouldn't be any problem in the future with expansion.

Finally, the conditions regarding limitations of 13,000 gpd/home and irrigation of  $\frac{1}{2}$  acre within each platted subdivision lot upon which a home has been built have been removed from the license. These conditions are not applicable to this right because it's not located within a moratorium area or other restricted area and should not have been applied to the permit.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 96-08799

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208) 769-1450.

Sincerely,

JULIE L. YARBROUGH  
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 96-08799

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

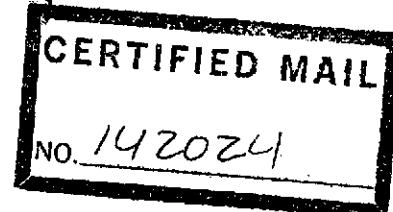

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH  
Senior Secretary

### PERMIT APPROVAL NOTICE

RE: PERMIT NO. 96-08799

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Johnson', written over the typed name and title.

Gentlemen:

Subject: Water Appropriation Application for Permit Number 96-8799.

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N7533. Please refer to your Application for Permit Number in future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the application is not protested. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
