CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

TO: File 96-08791

FROM: Sharla

DATE: October 29, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Right 96-08791 are based on the following:

H. RECOMMENDATIONS

1. Recommended Amounts

Stockwater	1/1 - 12/31	0.02 cfs	0.1 afa
Domestic	1/1 - 12/31	0.02 cfs	0.6 afa

The examiner recommends a volume of 0.6 af (outside use only). The rate of diversion for domestic use has been reduced accordingly. This right was permitted for stockwatering of 10 horses. The examiner also found 300 hogs, however, these cannot be covered under this right. The rate and volume for stockwater has been reduced accordingly.

PROOF DUE NOTICE

RE: PERMIT NO. 96-08791

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

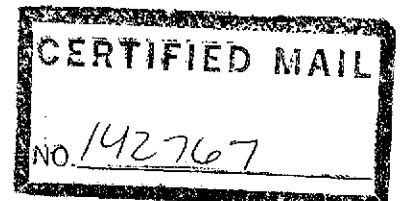

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit No. 96-08791

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to **July 1, 1996**. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department will not be able to grant additional requests based on due diligence.

Please be advised that since the extension was received after the proof due date of July 1, 1995, it was necessary for the department to reinstate your permit and advance your priority date to March 23, 1994.

If you have any questions or if I can be of any assistance, please feel free to contact me at (208)327-7900.

LAPSE NOTICE

RE: PERMIT NO. 96-08791

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated April 30, 1995. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

Dear Pat:

As per our telephone conversation this afternoon, the Department of Lands does hereby file a protest on the recently filed Water Right No. 96-08791 by William H. Dorn.

This protest is contingent upon the accuracy of the legal description of the Point of Diversion as shown on the application. The point of diversion shown as Section 36, Township 54 North, Range 4 West is state land. If the actual diversion is located in Section 36, Township 54 North, Range 5 West, then no state land is involved and this protest may be considered invalid.

Please keep me informed on the status of this application and protest.

Dear Mr. Dorn:

Re: Water Appropriation Application No. 96-8791.

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
