CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 11TH

Re: Permit No. 96-08761

Dear Permit Holder :

Returned is the Proof of Beneficial Use form submitted to this office in connection with the above referenced permit. Unfortunately, it is unacceptable as filed. It indicates the total rate of diversion of water to be 0.04 cfs from a surface water source (creek).

When the total maximum rate of diversion is greater than 0.04 cfs, or any diversion amount from a surface water source, a license examination fee is required to be submitted with the proof. A license examination fee based on a rate of flow of 0.04 cfs is \$50. Note the back of the enclosed instruction sheet/fee schedule.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Mr. Michael Souders
P.O. Box 81
Kootenai, Id. 83840

Dear Mr. Souders:

Subject: Water Application for Permit Number 96-8761.

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to Appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N6546. The filing fee is only \$30.00 so you will be receiving a \$5.00 refund directly from our state office. Please refer to your Application for Permit Number in future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the application is not protested. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resource Agent
