has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated November 19, 1992; and
has submitted Proof of Beneficial Use on June 14, 1996. An examination indicates
that the works have a diversion capacity of 0.040 cfs of water from:

PEND OREILLE LAKE tributary to PEND OREILLE RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home located on Warren Island.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

FINDINGS OF FACT

- MAY 28 1997

6. On August 8, 1994, and September 13, 1994, the department corresponded with the permit holder to advise that an additional \$35.00 license examination fee would need to be submitted before the department could accept the proof statement. The permit holder did not respond, and on October 27, 1994, the department refunded the \$15.00 fee which was submitted with the proof and informed the permit holder that the permit was lapsed.

7. On June 14, 1996, a representative of the permit holder submitted a proof statement along with the required \$50.00 license examination fee. Additionally, an invoice for the water system dated December 11, 1992, which shows that the system was installed prior to the permit lapsing, was submitted. The representative of the permit holder further stated that the permit holder travels extensively, and was confused about how to properly fill out the proof statement.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used within the authorized development period.

2. The permit holder has shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The department should reinstate the permit with the date of priority advanced to the date proof of beneficial use and supporting information was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 96-08729 is **REINSTATED**.

IT IS FURTHER ORDERED that the priority date is advanced to June 14, 1996.

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

APR 10 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

MICROFILMED

APR 10 1988

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 96-08729

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since proof was submitted after the proof due date of June 1, 1994. Please note that the priority date has been advanced to June 14, 1996.

Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, contact the **NORTHERN** Regional Office in Coeur d'Alene at (208)769-1450.

Sincerely,

RE: Permit # 96-08729 (Valorie Wood)

Dear Ms. Yarbrough

Enclosed please find beneficial use form along with Check #603 in the amount of \$50.00 for exam fee.

The reason this permit was filed late was that the proof was sent to Ms. Wood, rather than to myself. Ms. Wood travels extensively, spending very little time at her home in Hope, Idaho. This along with her having very little knowledge about the water system, lead to some confusion on her part as to how to fill out this form. She made a couple of attempts, but was unable to fill out the form properly.

She has asked me to assist her in completing this application. Also find enclosed a copy of page 2 of our invoice to her, invoice # 1210, showing the water system installation.

Thank you in advance for your help in this matter.

RE: Permit No. 96-08729

Dear Ms. Wood:

On September 13, 1994, I sent you a letter requesting you submit an additional \$35.00 fee to file for proof of beneficial use. To this date I have not received the additional fee nor any kind of response from you.

I am refunding the \$15.00 submitted for the proof. The refund should arrive in seven (7) to ten (10) days under separate cover.

Be advised that Permit No. 96-08729 is lapsed and is of no further force nor effect.

If you have any questions or I can be of any assistance, please contact me directly at (208) 327-7953.

Dear Ms. Wood:

On August 8, 1994, I sent you a letter requesting you submit an additional \$35.00 fee to file for proof of beneficial use. To this date I have not received the additional fee.

Since your water right permit lapsed on June 1, 1994, it is imperative that you submit the additional fee in order to keep your permit alive.

I will hold your file for an additional fifteen (15) days to allow you time to submit the additional fee. Please address any correspondence directly to my attention.

RE: Permit No. 96-08729

Dear Ms. Wood:

I am in receipt of the Proof of Beneficial Use and Extension of Time Request you submitted to this office on July 26, 1994. I think there might have been some confusion during our conversation, which led you to submit both the proof and extension request.

Since the water is currently being put to beneficial use, it is not necessary to submit an Extension of Time Request. An extension is only required when the water has not yet been developed or put to use. I will disregard the extension and process the Proof of Beneficial Use form. There is however, a \$50.00 license examination fee associated with the proof. Since you have already submitted \$15.00 for the extension, I will apply that to the exam fee for the proof and you will need to submit an additional \$35.00 before the department can acknowledge the proof.

Please submit the additional \$35.00 within thirty (30) days of receipt of this mailing. Please address any correspondence directly to my attention.

If you have any questions or I can be of any assistance, please contact me directly at (208)327-7953.

LAPSE NOTICE

RE: PERMIT NO. 96-08729

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1994. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 96-08729

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH

Dear Ms. Wood:

Re: Water Appropriation Application No. 96-8729.

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to Appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
