Dear Mr. Ran:

On January 11, 1994, I returned your Proof of Beneficial Use form and requested you submit a \$50.00 license exam fee before the proof would be acceptable. To this date I have not received the required fee or the original proof.

Please remit the fee to this office within 15 days from the date of this letter. If you have sent the fee and the proof, please disregard this letter.

If you have any questions, please do not hesitate to contact the department.

RE: Permit No. 96-08715

Dear Permit Holder:

Returned is the Proof of Beneficial Use form submitted to this office in connection with the above referenced permit. Unfortunately, it is unacceptable as filed. It indicates the total rate of diversion of water to be 0.04 cfs from a surface water source (spring).

When the total maximum rate of diversion is greater than 0.04 cfs, or any diversion amount from a surface water source, a license examination fee is required to be submitted with the proof. A license examination fee based on a rate of flow of 0.04 cfs is \$50.00.

The department lapsed the permit in error on January 6, 1994. Your permit will be reinstated with no advance in priority but not before you return the original proof with the required license examination fee

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 96-08715

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

Re: Water Right Application Nos. 96-8714 and 96-8715

Dear Mr. Ryan:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Applications For Permit To appropriate the Public Waters Of The State Of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced numbers in all future matters concerning these water right applications.

Your appropriation applications is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the applications are not protested they will be forwarded to Boise to be considered for approval by the Director. However, if the applications are protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the applications can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your applications are for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation applications. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
