CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 20TH day of DECEMBER, 1994.

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur or have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7947.

Re: Permit No. 96-08707

Dear Mr. Davis:

The Department is in receipt of your explanation concerning the source of water used in reference to the above mentioned permit. We are also in receipt of the proof of beneficial use filed in connection with the same permit. We are returning the proof of beneficial use at this time.

This permit authorizes the diversion and use of a spring which is considered surface water. However, from your description, the Department has determined that you have developed a groundwater source. Water appropriation rules and regulations do not allow us to change the source of water on a permit. Therefore, we cannot change this permit from a spring to a groundwater source.

You are not required by law to obtain a water right permit to develop a groundwater source for domestic purposes. Therefore, you can continue to use the water already developed even though it will not be represented by a valid water right permit.

Should you wish to develop the surface water source (spring) authorized under this permit, you must complete development and be beneficially using the water on or before December 1, 1993. The Department will advise you 60 days prior to that date so that you will have the opportunity to submit proof of beneficial use on the spring.

MICROFILMED

JUL 07 1993

In conclusion, the Department has determined that you are not beneficially using water from the spring authorized on this permit. Therefore, we cannot accept the proof of beneficial use as filed. However, you have until December 1, 1993 to develop and beneficially use the water from the spring associated with this permit. The Department has also determined that you have properly developed a groundwater source for domestic purposes and can continue to use the water without a valid water right permit.

If you have any questions or if we can be of any further assistance, please feel free to contact the Department.

Sincerely,

Karen L. Gustafson

On November 23, 1992, the Department returned the proof of beneficial use submitted in connection with the above referenced permit. At that time, we explained the need to submit a \$50 license exam fee.

As of this date the Department has not received the original proof or \$50 license exam fee. Since proof is not officially due until December 1, 1993, the Department will assume that you wish to wait and submit the proof and fee and that time. The Department will notify you 60 days prior to that date.

In the mean time, if you have any questions or if we can be of any further assistance, please feel free to contact me.

Sincerely,

Re: Permit No. 86-08707

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. Unfortunately, it is unacceptable as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater (well) source.
2. The rate of diversion must be .04 cfs or 4.0 AF or less.

As you can see, you do not meet requirement #1 since you use a spring (surface) for your source. Therefore, a license examination fee of \$50 applies to your permit. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Karen L. Gustafson

Re: 96-8707

Dear Mr. Davis:

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to Appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N5817. Please refer to your Application for Permit Number in future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resource Agent
