Dear Mr. Taylor:

I have reviewed your letter dated July 18, 2002 in which you requested a waiver of the measuring device requirements for the above referenced permits.

Since your actual use of water is substantially less than approved in the permits and there presently is not a need for regulation of the amount of water diverted, please consider that the measuring device requirement on both permits are waived.

Re: Permit No: 96-08685 & 96-08686

Dear Deborah Gibson:

I just spoke with Bob Haynes, Northern Regional Manager, regarding water flow metering devices for the above permits. One of the permits is for a recreational pond, which is spring fed but needs supplemental source in the summer months. This is accomplished with a $\frac{3}{4}$ hp household sump pump that diverts water from Hellroaring Creek to the pond through a 1.5" pipe. The overflow diverts back into the Pack River.

The other permit is primarily for irrigation. The size of the property is 24 acres so the permit included the full 24 acres. In actuality I am pulling water out of Hellroaring Creek using an old 5hp pump, my neighbor gave me, with a 1.5" pipe and a total of 5 rainbird type sprinkler heads.

We currently use the property for recreation but eventually plan to retire there. Mr. Haynes suggested I contact you to request a flow meter wavier.

Thank you for your consideration.

Best regards,

Thomas Taylor

PROOF ACKNOWLEDGMENT LETTER

RE: Permit Nos. 96-08685 & 96-08686

Dear Permit Holder:

The department acknowledges receipt of the proofs of beneficial use forms submitted for the above referenced permits. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water of these permits.

Upon my review of your water right permits, I find according to the section called Conditions/Remarks, specifically paragraph number 3, states: "A flow measurement port or other device as specified by the Department shall be installed by the right holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department." I recommend that this condition be completed prior to the field examination in order to avoid delay of the licensing of these rights. You may contact the regional office in Coeur d'Alene if you have any questions about this matter. If you have complied with this requirement, please disregarding this mention.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have any questions regarding this letter, please contact me at (208) 327-7953. If you have questions concerning the field examination or the measurement port condition, please contact the **Northern** Regional Office of the department in Coeur d'Alene at (208) 769-1450.

PROOF DUE NOTICE

RE: PERMIT NO. 96-8685

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 02, 2002. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

RE: Permit No. 96-08685

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the time within which to submit proof of beneficial use of water to **July 1, 2002**. Please note that the department granted this extension due to circumstances beyond your control which kept you from developing the permit. It is important that you work diligently toward the completion of this project during the construction period allowed since the department **will not** be able to grant additional extension requests.

Please be advised that Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

If you have any questions regarding this matter, please contact me at (208)327-7953.

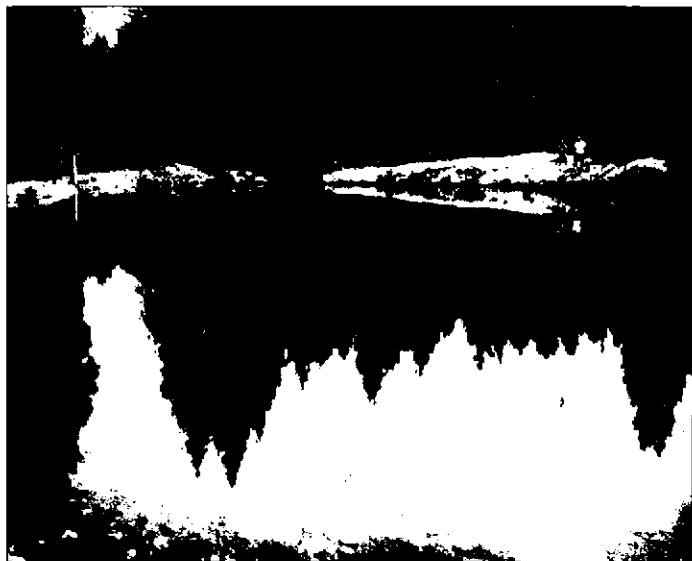

Sincerely,

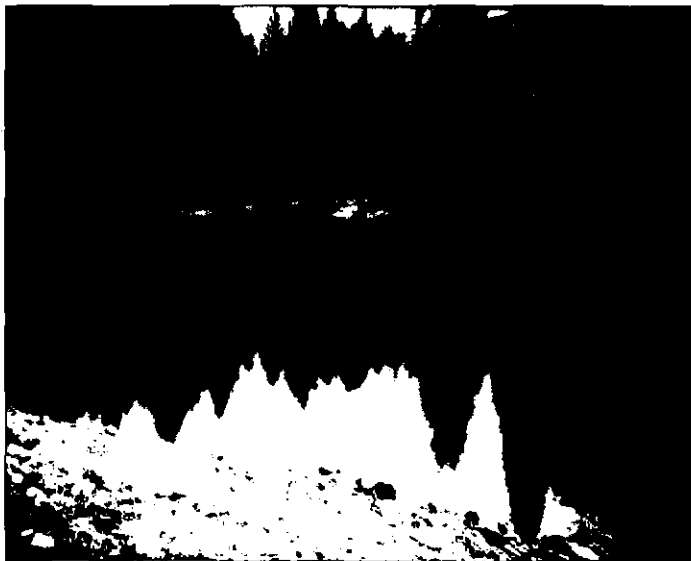

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 96-08685

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

From: L. Glen Saxton 

RE: TELEPHONE CALL

Date: April 27, 1998

On this date, the permit holder called in connection with the permits to inquire about submitting an additional extension of time request. He said that the floods last spring and renovation of the stream channels prevented completion of his projects. I advised him to describe this in the extension of time requests and that the department likely would approve the requests.

Re: Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your two Applications For Permit To Appropriate The Public Waters Of The State Of Idaho and your filing fee in the amount of \$90.00 for which receipt #N-005181 is enclosed. However I regret to inform you that the applications are not acceptable in their present form, so I am returning them to you for clarification or completion of the following:

Item #9: This item must be completed by listing the location of all proposed water uses to the nearest 40 acre tract. This may be done by following these steps: First insert Township (Twp.) Ranges (Rge.), Sections (Sec); next, identify each use and location of that use within the section by placing the indicated symbol in the appropriate box as shown below.

STOCKWATER = S; DOMESTIC = D; COOLING = L; FISH PROPAGATION = H;
RECREATION = R; COMMERCIAL = C; FIRE PROTECTION = F; INDUSTRIAL = I;
IRRIGATION = (NUMBER OF ACRES TO BE IRRIGATED IN EACH 40 ACRE TRACT);

Twp.	Rge.	Sec	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
50N	04W	3	S	D	L	I	20	10	6										36

This example shows that within Township 50 North, Range 4 West, Section 3, there is Stockwater use in the NE1/4 NE1/4; Domestic use in the NW1/4 NE1/4; Cooling (L) in the SW1/4 NE1/4; Industrial in the SE1/4 NE1/4; and irrigation of 20 acres in the NE1/4 NW1/4, 10 acres in the NW1/4 NW1/4 and 6 acres in the SW1/4 NW1/4, for a total of 36 irrigated acres.

The property listed in this item must be the same property as shown on the map. If you can not complete item #9, I may be able to do so upon your request, if the required information is on the map (location of home and of stock).

Item #13. The map appears to show irrigation within the SWNE and the NENW, Sec. 3. I attempted to call you on the telephone, but could not connect with you.

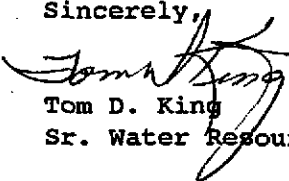

The Application must be completed and returned to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of the application.
