DATE: November 7, 1996

RE: Nature of Use Description

The original application for permit was filed for 20.0 af with the use listed as aesthetic rather than aesthetic storage. Data entry standards, if applied, would have listed the use on the permit when approved as aesthetic storage - a request in acre feet denotes storage. For some reason, this correction was not made on the permit. Storage has been confirmed by the field examiner and a license can be issued for aesthetic storage. No amendment should be requested to make the correction in nature of use to storage.
