has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated October 22, 1990; and
has submitted Proof of Beneficial Use on January 26, 1994. An examination indicates
that the works have a diversion capacity of .080 cfs of water from a GROUNDWATER
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	2.4 AF

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The issuance of this right in no way grants any right-of-way or easement across the land of another.
6. The total combined rate of diversion under this right and Right 96-07372 shall not exceed 0.08 cfs.
7. Domestic use is for 4 homes.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 18TH
day of SEPTEMBER, 1994.

THIS IS TO CERTIFY, that L. A. Dunston
of Sagle, Idaho, has complied with the terms and conditions of Permit
No. 96-7372 issued pursuant to Application for Permit dated May 19, 1975
and has submitted proof to the Department of Water Resources on April 30, 1980
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.08 cfs of water from a groundwater source
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

RE: Permit No. 96-08626

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

You indicate on the proof the total rate of diversion to be 0.04 cfs. You also indicate the source of water as a groundwater or well source. If the source of water is groundwater (well) and the diversion is 0.04 cfs or less, a license examination fee is not required. You are, therefore, entitled to a \$50.00 refund. I have enclosed a copy of the fee schedule for your reference.

I have begun the process to refund the \$50.00 exam fee. The process takes approximately one (1) week and will arrive under separate cover.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 96-08626

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

REF: Permit Nos. 96-7372 and 96-08626

Dear Mr. Johnson:

I have recently received Permit to Appropriate Water #96-08626. It would appear that this is a permit for a new well and diverting works. There has apparently been a misunderstanding. Item number 10 on the application for permit states, (as filled in by Tom King in Coeur d'Alene): "This application is for *additional 0.04 cfs & additional four homes* on existing permit 96-7372.

The well, 6000 gallon reservoir and all water lines are already in existence, having been completed by the land owner, Mr. Dunston, prior to transferring the system to TumbleRock Resources in December 1990.

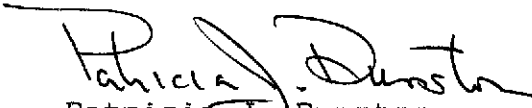

Please note attached copies of letters: (1) dated February 4, 1983 from your office establishing 0.08 cfs for four homes under permit 96-7372 and (2) dated February 9, 1983 from Mr. Dunston requesting an increase to nine homes (which was never answered).

When Mr. Dunston approached Mr. King in November 1990, preparatory to transferring the water system, Mr. King advised that the application for permit be filled out as you received it.

We do not need to drill another well--is it necessary to have another permit? We would simply like to increase the number of households allowed under permit 96-7372 from 4 to 8 (or maximum of 9). There are currently eight lots either connected to or ready-to-be-connected to the water system.

If the second permit is necessary, even though we will not be drilling another well, then please send the "Proof Due Notice" immediately, as the entire project is completed.

Sincerely yours,

Patricia J. Dunston

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 96-08626

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Dear Mr. King:

RE: Permit to Appropriate Public Waters

My apologies for taking so long to respond to your letter of October 30. I had to be in Virginia for three weeks due to a death in my family.

In answer to your request for the names and addresses of the Board of Directors of TumbleRock Resources, Inc., the following is supplied:

President:	Robert S. Clark N 9923 Excell Dr. Spokane, WA 99218
Vice President:	Guy H. Hearon 2458 Wooded Acres Sagle, ID 83860
Sec/Treas:	Patricia J. Dunston HCR 31, Box 452 Sandy Valley, NV 89019

If you need any further information, I can be reached more quickly through my Nevada address for the next three months. After that I will be moving to Ephrata, WA. However, I can always be reached through the corporation address (on the letterhead). I will be secretary/treasurer at least through August 31, 1993.

Sincerely,

Patricia J. Dunston

Re: Water Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources acknowledges receipt of your Application For Permit To appropriate the Public Waters Of The State Of Idaho and your filing fee in the amount of \$30.00 for which your Receipt #C-018664 is enclosed.

Your appropriation application is currently being processed for advertisement in the county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before the application can be approved or denied, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If the application is not protested it would normally be forwarded to the main office in Boise for a complete review and approval or denial. However before the application can be forwarded to Boise, you must supply this department with the following additional information:

Item #1: You must provide this department with a list of names and addresses of the partners, board of directors, or other governing officials of the organization.

This information must be submitted to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application. The time limit may be extended upon request and showing of good cause that additional time is required for submittal of the information.

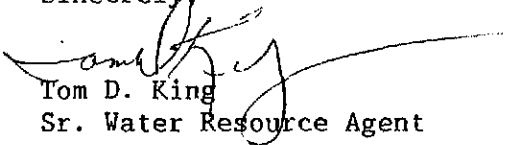

As for your question concerning the disposition of License #96-07372, you should seek legal counsel, since I am not sure that Mr. Dunston is the sole owner of that license. Water rights are owned by the users of the water, except in the case of associations or other legal water delivery companies.

REF: Water Right License 96-7372

Dear Department Director:

Enclosed please find an Application for Permit to Appropriate Public Waters, and a check in the amount of \$30.00 as fee for same.

As noted in the application, the Water Right License is retained by the property owner, L.A. Dunston, but title to the land is being transferred by him to TumbleRock Resources, Inc., [a Water User's Association, incorporated September 21, 1990] via a Deed in Trust.

The Board of Directors of TumbleRock Resources, Inc. would like to know what happens to the Water Right License upon the death of Mr. Dunston and if or how this license might be transferred to our corporation, the members of which are the sole users of the water from this well.

Sincerely,

Patricia J. Dunston
Secretary
