Re: Water Right 96-08625

Dear Ms. Curtis:

In response to your letter of November 13, 1998, requesting additional information, we are pleased to supply the following information.

The well is used for other purposes than in-house use. The well is used for the irrigation of private lawns and some common areas. The lot sizes are relatively small and the irrigation season extremely short, and therefore there are no restrictions on the size of lawns and gardens or water use for irrigation.

Most of the common area and the Golf Course itself are irrigated with surface water supplied from the Pack River.

Thank you for your assistance with this process, and if you require any additional information, please do not hesitate to contact me at your convenience.

Sincerely,

Bob Hansen

Re: Water Right 96-08625

Dear Sir:

We are in the process of reviewing your permit for issuance of a license. However, we need some additional information about the subdivision. Is the well used for any other purpose than in-house use? If the well is not used for irrigation of lawns, common areas, etc. is that accomplished with a surface water supply, perhaps Pack River? Or does the well serve lawn irrigation too? If the well is used for lawns, what restrictions are there, i.e. how much of a lawn is allowed?

Your prompt attention of this matter will be appreciated. If I have not heard from you by Dec. 7, 1998, the license will be prepared for domestic use only, and the annual volume listed on the license will include ½ acre lawn/garden irrigation with each home.

Sincerely,

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (18.0)(3.0) = 54.0$
 $V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (.10)(245)(1.9835) = 48.6$
 $V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 48.6 \text{ ACRE FEET}$

2. Volume Calculations for Other Uses:

70 Lots + Club House and Maintenance Building
 $(72)(0.6) = 43.2 \text{ ACRE FEET}$

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 96-08625

Dear Permit Holder:

The Department acknowledges receipt of the correspondence and assignment of permit form transferring ownership of the above referenced water right to you. We have modified our computer records to reflect this change in ownership.

Additionally, the department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Enclosed is an order reinstating your permit since proof of beneficial use was received after the proof due date of February 1, 1996. Please note that the priority date has been advanced to December 23, 1990.

If you have any questions concerning field examination, please contact the NORTHERN Regional Office in Coeur d'Alene at (208) 769-1450.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

LAPSE NOTICE

RE: PERMIT NO. 96-08625

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated November 30, 1995. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 96-08625

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

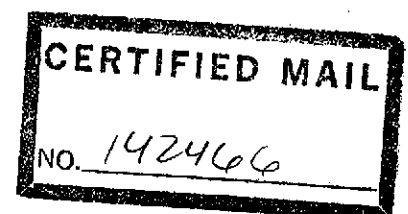

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 96-08625

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

APPROPRIATION APPLICATION ACKNOWLEDGEMENT

Re: Water Appropriation Application

#

76-8625

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application For Permit To appropriate the Public Waters Of The State Of Idaho, as well as the required appropriation filing fee, for which your Receipt is enclosed. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

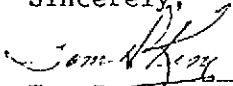

If the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. You will be notified by mail of the Directors decision.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent

Re: Water Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your Application For Permit To Appropriate The Public Waters Of The State Of Idaho. However I regret to inform you that the application is not acceptable in its present form, so I am returning it to allow you to \ clarify or complete the following:

Item #4: Domestic irrigation for more than ten households can mean irrigation of five acres. This makes it necessary to itemize irrigation as a separate use in items #4 and also in item #9, or by stating in item #12 that there is to be no irrigation of lawns or gardens.

The Application must be completed and returned to this office with any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent
