CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.

SUBJECT: Review of Beneficial Use Field Report

=====

The following adjustments were made on the field report:

1. Rate of Diversion.
 - a. Irrigation use = 5 acres x 0.02 cfs/acre
= 0.10 cfs.
 - b. Domestic use for 2 homes (IDWR standards) = 0.06 cfs.
 - c. Maximum rate of diversion = a + b
= 0.10 + 0.06
= 0.16 cfs.
2. Annual Volume.
 - a. Irrigation use = 5 acres x 3.0 AF/acre
= 15.0 AF.
 - b. Domestic use (in-house) = 2 homes x 0.6 AF/home
= 1.2 AF.
 - c. Maximum annual volume = a + b
= 15.0 + 1.2
= 16.2 AFA.

PROOF DUE NOTICE

RE: PERMIT NO. 96-08616

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

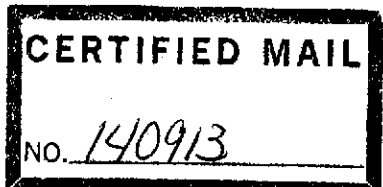

SINCERELY,

Karen L. Gustafson

Dear Sir:

SUBJECT: PERMIT NO. 96-08616

In compliance with the conditions outlined in your letter dated December 28, 1990, and attached to our **PERMIT TO APPROPRIATE WATER**, we began work on installing the pipeline during the third week of July, 1991. During the summer and fall, we were able to finish approximately ninety per cent of the job before the weather shut us down. We intend to begin again in the spring or early summer of 1992 whenever the weather allows. It is our expectation to finish completely by September of 1992.

Sincerely,

Glen A. Ford

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

APPROPRIATION APPLICATION ACKNOWLEDGEMENT

Re: Water Appropriation Application # 96-08616

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application For Permit To appropriate the Public Waters Of The State Of Idaho. To assist us in providing you with prompt, accurate service, please refer to this number in all future matters concerning this water right application.

We also acknowledge receipt of the required appropriation filing fee, the accompanying your drilling permit application and your drilling permit filing fee, for which your Receipt is enclosed.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

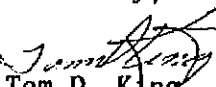

If the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. You will be notified by mail of the Directors decision.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent
