WATER RIGHT LICENSE

WATER RIGHT NO. 96-08591

Priority: May 11, 1994

Maximum Diversion Rate:

0.03 CFS

Maximum Diversion Volume:

20.4 AF

This is to certify, that PINE BLUFFS WATER SYSTEM

PO BOX 168

SAGLE ID 83860

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated March 28, 1990; and has submitted Proof of Beneficial Use on May 11, 1994. An examination indicates that the works have a diversion capacity of 0.030 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.03 CFS	20.4 AF

LOCATION OF POINT(S) OF DIVERSION:

NENE, Sec. 21, Township 56N, Range 01W
BONNER County

PLACE OF USE: DOMESTIC

TWN RGE SEC

56N 01W 21

NENE

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Place of use is also known as Pine Bluffs Subdivision, 1st Addition to Pine Bluffs & Ponderosa Homesites.
6. Domestic use is for 17 homes.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 26TH day of JUNE, 1996.

Acting for

KARL J. DREHER, Director

AUG 22 1996

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 96-08591	)	
	)	ORDER OF
IN THE NAME OF PINE BLUFFS WATER SYSTEM	)	REINSTATEMENT
	)	

This matter having come before the Idaho Department of Water Resources (Department), the Department makes the following FINDINGS OF FACT, CONCLUSIONS OF LAW and ORDER:

FINDINGS OF FACT

1. On May 24, 1990, the Department issued Permit No. 96-08591 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before June 1, 1993.

2. On March 31, 1993, the Department sent a proof due notice to the permit holder by certified mail but the notice was returned unclaimed on April 19, 1993.

3. On June 8, 1993, the Department sent a lapse notice to the permit holder.

4. On November 29, 1993, the permit holder submitted an unacceptable proof along with a letter explaining that the proof had been overlooked.

5. On December 3, 1993, the Department informed the permit holder that two (2) pieces of evidence (showing development and a reason why the proof was filed late) would need to be submitted with the proof.

6. Section 42-218a.2., Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

7. On April 5, 1994, the permit holder submitted proof without the evidence required to reinstate the permit.

SEP 22 1994

8. On May 11, 1994, the permit holder submitted a letter explaining that the proof had been overlooked and that the water had been in use during the authorized development period. The Department of Health and Welfare was testing the water from the well during the development period and could attest to the well's use.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used within the authorized development period.

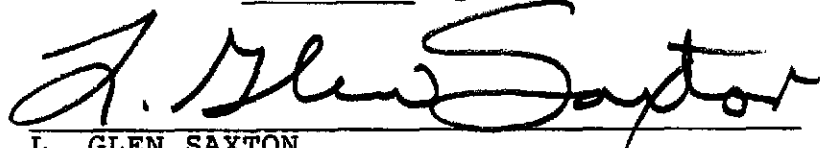

2. The permit holder has shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The department should reinstate the permit with the date of priority advanced to the date proof of beneficial use and supporting information was received by the Department.

ORDER

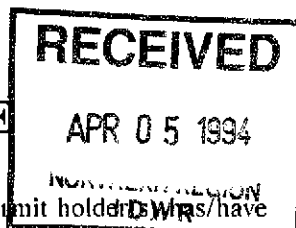

IT IS HEREBY ORDERED that Permit No. 96-08591 is REINSTATED and the priority is advanced to May 11, 1994.

Dated this 13th day of May, 1994.

L. GLEN SAXTON
Chief, Water Allocation Bureau

SEP 22 1994

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources will consider this form as a statement that the permit holder has completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 96-8591 Telephone No. 772-9607

2. Name(s) of Permit Holder(s): SCOTT M. RASOR

3. Post Office Address: P.O. BOX 168 SAGLE, IDAHO 83860

4. Source of Water: DEEP WELL

a. If ground water, well driller's name: AQUA DRILLING Date drilled: 3/22/90

b. Pump horsepower: 5 Pressure (psi): 80 Dynamic pumping level (ft.): 85

5. Extent of Use:

Domestic 17 (No. of households) Irrigation _____ (No. of acres)

Stockwater _____ (No. and type of stock) Other _____

6. Total rate and/or volume for which proof is submitted .025 cfs _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? Yes ☒ No Installed? ☒ Yes No

OR

Flow Measurement Port: Required? Yes ☒ No Installed? Yes ☒ No

8. Fee Enclosed: \$ 50.00 (See License Examination Fee Schedule)

9. Person to contact to accompany the Department representative during the field examination:

SCOTT M. RASOR

Name

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 96-08591

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order reinstating your permit since the Proof of Beneficial Use form was submitted after the proof due date. Please note that the priority date has been advanced to May 11, 1994.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

A license exam fee is not required for groundwater uses of 0.04 cfs or less. Therefore, I have begun the process to refund the \$50.00 you submitted in connection with the above referenced permit.

Additionally, you inquired about the status of permit no. 96-08159. You stated that it will continue to be used for fire protection, emergency use and personal use. Please be advised the permit no. 96-08159 lapsed May 16, 1988, and since that time has been of no further force nor effect. If you are diverting surface water, you are doing so without a valid water right. It is possible to reinstate the lapsed permit by submitting a proof form, evidence of use of the water during the authorized development period, and a statement as to why proof was not filed on or before the proof due date.

RE: LAPSED PERMIT NUMBERS 96-08591 AND 96-08159

Dear Ms. Yarbrough:

In response to your letter dated April 14, 1994, requesting an explanation as to why proof of beneficial use was not submitted within the time frame outlined by your department's regulations, I submit the following:

Permit Number 96-08159 was issued on an existing surface water system built by my father to take water from Lake Pend O'Reille. He subdivided a portion of the land he owned into residential building sites and was required by county ordinance to supply water to the lots and also owned a summer resort which needed an upgraded water supply. This system was completed in 1974. I took over operation and maintenance of the system in 1979 as a favor to my father and the other users on the system.

Things were going along okay, except an occasional bad water sample, until the mid 1980's when the Department of Health and Welfare began stricter enforcement of their regulations regarding public drinking water systems using surface water as their source. Near the end of 1980 our system was disapproved due to failure to comply with certain regulations that were too costly for us to comply with. Between 1985 and 1990, negotiations were ongoing between myself and the users on the system, to either meet the treatment requirements of the Health Department or find a new source. It was decided after much research that treatment of surface water in the volume we were using would be too costly. Therefore, it was decided that we should develop a ground water source. The users agreed to pay equally for the new well if I would transfer ownership to them when complete.

RECEIVED

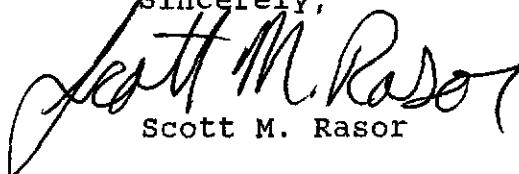

SEP 22 1994

The well was drilled in 1990 and as fate would have it, we had to drill 800' and only got 10 G.P.M. This created new problems to deal with. The lake system was delivering 20 G.P.M. and we had hoped to get 20 G.P.M. at 400' at a cost of \$10,000.00. We had double the cost and only 1/2 of the G.P.M. needed. Now we had to consider a second well or increase storage and/or limit future hookups, etc.

This is a brief outline of the ongoing problems facing the users on the system. I have explained this situation several times to members of your department on the phone and it appears that no flexibility exists in the regulations. We have now decided to stay with the 10 G.P.M. well, add storage and limit future hookups, unless they are willing to bear the cost of drilling another well. The old lake system will be kept active for emergency use, fire protection and personal use. I have tried to faithfully follow your regulations, however, circumstances have made it difficult to meet the deadlines for certain questions that you want answers to.

I am now asking for reinstatement due to the circumstances outlined above. I would ask that you contact Gary Gaffney with the Department of Health and Welfare-Division of Environment in Coeur d'Alene for verification of these facts or any of the users on the system (a list was provided earlier). Thank you for your favorable consideration of this matter. If further explanation is needed, please let me know.

Sincerely,

Scott M. Rasor

RE: LAPSED PERMITS 96-08591 AND 96-08159

Dear Mr. Rasor:

I have reviewed your letter dated November 22, 1993 and the proof of beneficial use form you submitted in connection with lapsed permit no. 96-08591.

Both permits are lapsed and are of no further force nor effect. The following paragraphs will further discuss the lapsed permits and alternative actions for the water users.

PERMIT NO. 96-08591

- Permit was issued on May 24, 1990
- Proof of beneficial use was due on June 1, 1993
- Use: Domestic for 20 homes
- Source of water: Groundwater (a well)
- Place of use Pine Bluffs Subd., 1st Addition to Pine Bluffs and Ponderosa Homesites.

The department sent a Proof Due Notice by certified mail on March 31, 1993 to the permit holder of record, Pine Bluffs Water System. Since the permit holder did not respond, on June 8, 1993, the department sent a lapse notice. Sixty (60) days subsequent to the June 8, 1993 mailing the permit became of no force nor effect.

There are a couple of alternatives that the water users can now follow. One is to start the water right development process over by filing a new application for permit even though the water system and use of water may already exist. The other is to start a process to attempt to get the lapsed permit reinstated.

To start the process over, someone merely needs to visit our office in Coeur d'Alene and file an application for permit. In order for the department to consider reinstating the lapsed permit, the following matters need to be completed:

- The lapsed permit needs to be assigned to Pine Bluffs Mutual

RECEIVED
SEP 22 1994

SEP 22 1994

Water Co. Inc. by the lapsed permit holder, Pine Bluffs Water System and the assignment needs to be filed with the department. An assignment changes the owner of a permit.

- The permit holder needs to file the proof of beneficial use form with the department and to provide two different forms of evidence to show that the water was diverted and beneficially used within the authorized development period (from May 24, 1990 to June 1, 1993). In addition the permit holder needs to show reasonable cause why the proof was not timely filed. Upon such a showing, the department can reinstate the permit and advance the priority of the permit to the date the proof was finally received.

The department is returning the proof form which you filed on November 29, 1993 since it is not acceptable as filed.

PERMIT NO. 96-08159

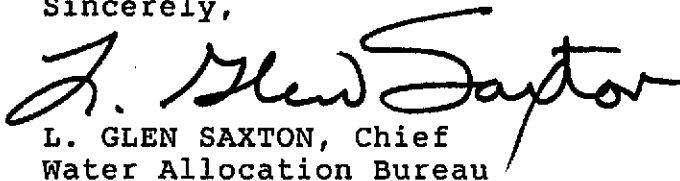

The source of water for this lapsed permit was Lake Pend Oreille and provided for the use of 0.23 cfs of water for domestic use for 25 homes and for 0.20 cfs of water for irrigation.

The department approved the permit on May 6, 1983. The proof of beneficial use was due on May 1, 1988. The proof of beneficial use was submitted to the department on June 3, 1988. The department returned the proof since it had not been accompanied by the required license examination fee and hence was not acceptable. The permit holder then did not resubmit the proof and the required fee to the department.

The refiling option or reinstatement steps described above also apply to this lapsed permit. Please note that someone needs to pursue the water rights, since the uses of water are unauthorized unless represented by valid water right permits or licenses.

Please feel free to contact the department if you have questions. Our office in Coeur d'Alene can be reached at 765-4639.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

ACTION OF IDWR

(X) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

Dated this 16th day of March, 1990.

RE: Permit No's. 96-08591 and 96-8159 ↓

Dear Mr. Saxton,

In reviewing some of my affairs I came across a "Lapse Notice" forwarded to me from your office Dated June 8, 1993. This was quite confusing to me at first as I had assumed this to have been taken care of at an earlier date. Also the similar Numbers in the two permits created additional confusion. I personally hold permit No. 96-8159 in my name. However, permit NO. 96-08591 or 96-8591 should be in the name of Pine Bluffs Mutual Water Co., INC. In the transfer we did not take into account the need to notify your department of a change from my name to the corporation. Any way I filled out the proof of Beneficial use form and signed the same as a board member for the corporation. I hope you will make allowances for this oversight and accept this enclosed application to perfect the Corporations water rights. **RECEIVED**

SEP 22 1994

I would also like to inquire as to the status of permit No. 96-8159 which I am still the sole owner

(2)

If there is further information you require from me to separate and finalize these two permits please contact me immediately and I will forward any required information to your office at once. Thank you

LAPSE NOTICE

RE: PERMIT NO. 96-08591

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 96-08591

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: PERMIT NO. P96-08591

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

MICROFILMED

JUL 30 1990

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

RE: Pine Bluffs Water System

Dear Mr. Rasor:

As you know, a pre-enforcement conference was held with you here at our office on August 28, 1989 to discuss your plans for bringing the Pine Bluffs drinking water system into full compliance with Idaho Regulations for Public Drinking Water Systems.

Since this drinking water system continues to lack daily turbidity monitoring and daily chlorine residual measurements, it is hereby designated DISAPPROVED in accordance with Section 01.8200 of the Regulations. Until necessary improvements are made to upgrade the Pine Bluffs water system, it will retain a disapproved designation.

As the first step in achieving an approved designation, please sign and return the enclosed informal compliance agreement which we discussed during the pre-enforcement conference. One copy is enclosed for your reference. Most of the items in the agreement require that you provide us with some evidence that the task has been completed. Before July 15, 1990, we expect your system to be upgraded.

If you find you cannot accomplish any task in the agreement on time, you need to notify us of the problem and propose a justifiable change to the agreement.

Failure to comply with the agreement will result in referral of the issue to Boise for formal enforcement action by this department. We will anticipate return of the enclosed signed agreement before October 1, 1989.

COMPLIANCE AGREEMENT

Compliance Agreement between Idaho Division of Environmental Quality (DEQ) and SCOTT RASOR, owner of PINE BLUFFS WATER SYSTEM:

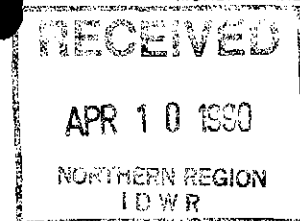

<u>Task</u>	<u>Completion Prior To:</u>
1. Sign and return to DEQ this informal compliance agreement:	October 1, 1989
2. Issue written Boil Water advisory to all users and submit copy to DEQ:	October 15, 1989
3. Initiate formation of Pine Bluffs Water Association to collect commitments to fund improvements and assume eventual system ownership:	November 1, 1989
4. Complete formation of Pine Bluffs Water Association, submit copy of Association's By-Laws and Articles of Incorporation to DEQ:	February 1, 1990
5. Secure written well lot approval from DEQ:	March 1, 1990
6. Begin well drilling on approved well lot:	April 1, 1990
7. Complete well drilling; submit copy of well log to DEQ:	May 15, 1990
8. Submit copy of well test pumping data to DEQ:	June 1, 1990
9. Submit to DEQ evidence of sampling for bacteriological and chemical quality from the well:	June 1, 1990
10. Submit for DEQ approval engineered plans and specifications for connection of the new well to existing system:	June 15, 1990
11. Submit to DEQ as-built plans showing connection of new well to the existing water system, including evidence of physical disconnection of the lake source:	July 15, 1990
12. Arrange with DEQ for a sanitary survey of the Pine Bluffs Water System to update the disapproval designation:	August 1, 1990

To the best of my ability, I hereby agree to accomplish the tasks listed above prior to the dates indicated for each task.

Scott M. Rasor, owner
Pine Bluffs Water System

TO PROSPECTIVE SUBSCRIBERS:

It is difficult to answer all possible questions that might be made regarding the water system, but this letter is an effort to clarify the agreements you have been asked to enter.

The Subscription Agreement is a promise to pay \$1,000.00 before February 28, 1990. Then only if Scott has received \$10,000.00 in promissory notes before February 28, 1990, will the Subscription Agreement be binding upon you.

As each \$1,000.00 is received on the promissory notes, it will be set aside in a special account, and you will receive an accounting of your \$1,000.00 no matter what happens. Checks should be made payable to "Attorneys Bookkeeping Service."

If \$10,000.00 is raised by February 28, 1990, Scott will do those acts described in the Trust Assumption and Agreement, which he has signed and given to you upon his receipt of your signed Subscription Agreement and Promissory Note.

It is important to realize that if you sign the Subscription Agreement, and Scott has received \$10,000.00, either in cash or written promissory notes, you will be obligated to pay the \$1,000.00, on or before February 28, 1990, and that sum can be collected by legal action if required, plus the costs in bringing the legal action.

The general purposes are to have Scott sell the water system to the users, and to use the money to improve the system first. If there are not enough subscribers, or the subscribers fail to sign promissory notes totalling \$10,000.00 by February 28, 1990, then the users will not purchase the system.

SCOTT RASOR

EVERETT D. HOFMEISTER

TRUST ASSUMPTION AND AGREEMENT

FOR AND IN CONSIDERATION of that Subscription Agreement and Promissory Note dated by me on the _____ day of _____, 1990, I, Scott Rasor, agree as follows:

(1) That upon receipt of the sum of \$10,000.00, due on or before the 28th day of February, 1990, the sum so received having been deposited in a separate trust account, said sums so received will be expended by me for the benefit of the water system exclusively, including but not limited to:

- (a) obtaining, digging and construction of a well;
- (b) water witching;
- (c) costs of attorney and other professional services;
- (d) collection of unpaid subscription promises.

(2) To fully account for all said sums, income and expenditures to the subscribers, owners and water users, including refunds in the event the foregoing subscription amount is not received.

(3) To convey said system to the organization or entity organized by said owners and water users, including all easements and appurtenances thereto on or before the _____ day of _____, 1990.

(4) As consideration for said conveyance, the seller, Scott Rasor, shall receive the right to 6 hookups to said water system, or in the alternative, 6 memberships to said system as organized by the owners and water users, at the same subscription rate of \$1,000.00 as paid by them; subject to availability of such volume of water for domestic use that would not deprive other owners and users of sufficient volume of water.

(5) To transfer to the organization or entity organized by said owners and water users any excess funds remaining from the subscriptions, if any, after the above work has been completed and the organization properly formed.

DATED this _____ day of _____, 1990.

SCOTT RASOR, Trustee/Seller.

MICROFILMED

JUL 30 1990

SUBSCRIPTION AGREEMENT

WHEREAS, the property owners and users of a domestic water system, now owned and operated by Scott Rasor, intend to acquire the ownership, operation, care, improvement, and maintenance of said water system, and the water sources for the same, and organize, form, and establish a governing body, organization, by-laws, and all acts incident to the ownership and operation of said water system, and,

WHEREAS, the said Scott Rasor has agreed to sell, transfer and convey said water system, and all appurtenances thereto, to the organization, NOW THEREFORE;

The undersigned subscriber(s) shall pay the sum of One Thousand (\$1,000.00) Dollars on or before the 28th day of February, 1990, to Scott Rasor, as trustee of said sum, said sum to be deposited in an account exclusively for the purposes herein contained.

This Agreement shall not be binding until said trustee, Scott Rasor, has received a TOTAL sum of Ten Thousand (\$10,000.00) Dollars, either in cash or promissory notes, from the owners and users of said water system. In the event said sum of \$10,000.00 is not received on or before the 28th day of February, 1990, the said Scott Rasor, as trustee, shall refund all sums received to the payors and subscribers, together with this Promissory Note and Agreement.

PROMISSORY NOTE

In the event that (1) the undersigned subscriber has not paid \$1,000.00, and (2) other subscribers have paid, or give written promise to pay, a total of \$10,000.00, the undersigned subscriber promises to pay the sum of One Thousand (\$1,000.00) Dollars to Scott Rasor, trustee, on or before February 28, 1990.

In the event this promissory note is not paid by February 28, 1990, interest shall accrue at the rate of ~~10%~~ ^{12%} percent per annum commencing on the 28th day of February, 1990.

RECORDED
JUL 30 1990

SUBSCRIPTION AGREEMENT & PROMISSORY NOTE - Page 1

In the event suit or action is brought to enforce payment hereof, the undersigned subscriber shall pay all court costs and reasonable attorney fees for collection of said sums.

DATED this 9th day of January, 1990

Scott M. Rasor
SCOTT RASOR, Trustee/Seller.

Re: Water Appropriation Application # 96-08591

Dear Applicant:

The Idaho Department of Water Resources acknowledges receipt of your Application For Permit To appropriate the Public Waters Of The State Of Idaho and have assigned to it the above referenced number. To assist us in providing you with prompt, accurate service, please refer to this number in all future matters concerning this application. We have also received your filing fee in the amount of \$30.00 for which your Receipt #N-003635 is enclosed.

Your appropriation application is currently in the process of being advertised in the county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before the application can be approved or denied, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If the application is not protested it would normally be forwarded to the main office in Boise for a complete review and approval or denial. However before the application can be forwarded to Boise, you must supply this department with the following additional information:

Item #1: You must provide this department with a list of names and address of the partners, board of directors, or other governing officials, as well as your title. and signed by an officer of the company. corporation.

This information must be submitted to this office with any other information you deem appropriate within 30 days of the date. Failure to communicate with this office within that time may result in the voiding of your application. The time limit may be extended upon request and showing of good cause that additional time is required for submission of the information.

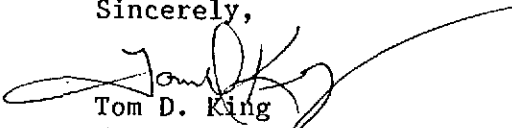

MICROFILMED

March 29, 1990

Unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for well drilling permit if the appropriation application is approved. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent
