Total number of acres irrigated: 18

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.

RE: WATER RIGHT NO. 96-08584

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

NOV 27 1998

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley Walter Keen".

E. NARRATIVE/REMARKS/COMMENTS

The total area of this property is approximately 19.45 acres, less 1.67 acres accounted for as house, barn, shop, driveway. The total area for irrigation is 17.78 acres.

The measured output of this system is 130 gpm (.29 cfs)

In conjunction with the recommendation by Wayne Baldwin, I recommend irrigation for 18 acres at the rate of .29 cfs (130 gpm)

Based on the Govt lot map (included) I questioned this property location in Govt. lot 6. I talked with Ron at the Banner County assessors office. He explained that the G.L. extends down below the RR tracks into including the S.E. NW 1/4, 1/4.

Have conditions of permit approval been met? ☒ yes ☐ no

MEMORANDUM

TO: Al Beardslee

FROM: Shelley Keen *SWK*

DATE: June 25, 1998

RE: Exam Returned to Region (96-08584)

RECEIVED
JUL 02 1998
NORTHERN REGION
IDWR

Al, this exam is being returned to the region for further information concerning the place of use. The aerial photo and application submitted to the department in 1990 showed a place of use of 18 acres. There was no aerial photo submitted with the exam report. A 1989 photo was obtained from the Bonner County Soil Conservation Service which appears to have several buildings located in what was described for irrigation.

Further, the topo map containing the examiner's markings for point(s) of diversion and place(s) of use appear to reduce the irrigated area from what was permitted, but the recommendations are for a full 18 acres as permitted.

Al,

This is the one we discussed this morning. I have an idea that you might want to take a second look at the diversion capacity too. Thanks.

RECORDED

NOV 27 1998

E. NARRATIVE/REMARKS/COMMENTS

Domestic use did not include household uses i.e. drinking, bathing etc. The outside domestic uses are included in the irrigation figures.

at the time of exam the entire system was not set up. The hired man told me they don't usually have the entire system running at once. They move portions of it to desired areas. I informed him that I could not recommend the .36 cfs or permit unless I could see them divert this amount. I also told him that I was in this area a lot and would have no problem stopping back with the Poly sonic meter if they want to set up the entire system. They never got back to me, therefore a year later I have to go with .12 cfs.

Have conditions of permit approval been met? ☒ yes ☐ no

RECORDED

MAY 27 1998

F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method:

5 gal Bucket

#1 5 gal in 50 sec = 6 gpm
.01 cfs

#2 5 gal in 50 sec = 6 gpm
.01 cfs

#3 5 gal in 48 sec
.01 cfs

11/64 9 heads at 6 gpm 54 gpm
 $\frac{54 \times .133681}{60} = .12 \text{ cfs}$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 18 \times 3 = 54$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .12 \times 245 \times 1.9835 = 58.3$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{D.R.} = 54$$

2. Volume Calculations for Other Uses:

H. RECOMMENDATIONS

1. Recommended Amounts

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 96-08584

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P96-08584

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

Re: Water Appropriation Application # 9608584

Dear Applicant:

This department acknowledges receipt of your Application For Permit To Appropriate The Public Waters Of The State Of Idaho and your filing fee in the amount of \$45.00 for which your Receipt #N-003564 is enclosed.

Your appropriation application has been assigned the above referenced number. To assist us in providing you with prompt, accurate service, in all future correspondence please refer this number.

Your application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If the application is not protested it will be forwarded to Boise, where departmental staff will conduct a more in depth review of the application, to determine if there is a need for further information that will facilitate the Directors decision on the application. You will be notified by mail of this decision.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent
