SESE , Sec. 24, Township 54N, Range 06W
BONNER County

PLACE OF USE: STOCKWATER
TWN RGE SEC

54N 06W 24 SESE

PLACE OF USE: DOMESTIC, same as STOCKWATER use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Stockwater use is for 15 horses.
6. Domestic use is for 1 home.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 96-08582

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Rita Fleck

ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is Approved.

If approved, this permit authorizes the construction of a well subject to the following conditions:

GENERAL CONDITIONS

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

SPECIFIC CONDITIONS

Dated this 17 day of August, 1989.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P96-08582

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Re: Water Appropriation Application # 96-08582

Dear Applicant:

This department acknowledges receipt of your Application For Permit To Appropriate The Public Waters Of The State Of Idaho, which has been assigned the above referenced number, to assist us in providing you with prompt, accurate service, please refer to this number in all future correspondence.

Your application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If the application is not protested it will be forwarded to Boise, where departmental staff will conduct a more in depth review of the application, to determine if there is a need for further information that will facilitate the Directors decision on the application. You will be notified by mail of this decision.

Unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance, please feel free to contact me at this office.

Sincerely,

Tom D. King

Re: Water Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your Application For Permit To appropriate The Public Waters Of The State Of Idaho and your filing fee of \$30.00 for which receipt #N-003488 is enclosed. However I regret to inform you that the application is not acceptable in its present form, so I am returning it to allow you to clarify / complete the following:

Item #3: The legal description of the point of diversion must be described by 40 acre parcel (for example ... NE $\frac{1}{4}$ SW $\frac{1}{4}$) Section, Township and Range as established by the public land survey. The map you provided shows the "well site" within the NE NE Sec. 24.

Item #4 and Item #5: You must list the diversion rate in cfs (acre feet are used only when storage is being applied for). A diversion rate of 0.04 cfs (approximately 20 gal/minute) is considered to be sufficient for one home.

Item #9: This item must be completed by listing the location of all water uses to the nearest 40 acre tract. This may be done by following these steps: First insert Township (Twp.) Ranges (Rge.), Sections (Sec); next, identify each use and location of that use within the section by placing the indicated symbol in the appropriate box as shown below.

STOCKWATER = S; DOMESTIC = D; COOLING = L; FISH PROPAGATION = H;
RECREATION = R; COMMERCIAL = C; FIRE PROTECTION = F; INDUSTRIAL = I;
MINING = X; AESTHETICS = J; GROUNDWATER RECHARGE = E; WILDLIFE = W;
HEATING = G; MUNICIPAL = M; POWER = P; IRRIGATION = (NUMBER OF ACREAGE TO
BE IRRIGATED IN EACH 40 ACRE TRACT);

Twp.	Rge.	Sec	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
50N	04W	3	S	D	L	I	20	10	6										

This example shows that within Township 50 North, Range 4 West, Section 3, there is Stockwater use in the NE $\frac{1}{4}$ NE $\frac{1}{4}$; Domestic use in the NW $\frac{1}{4}$ NE $\frac{1}{4}$; Cooling (L) in the SW $\frac{1}{4}$ NE $\frac{1}{4}$; Industrial in the SE $\frac{1}{4}$ NE $\frac{1}{4}$; and irrigation of 20 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, 10 acres in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and 6 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$.

The map you provided shows the property to be within the NE NE and the SE NE if the square within the outlined property represents the home then it is within the NE NE.
