CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.
6. Domestic use is for 1 home.

RE: Irrigated acres on license 96-08568

=====

This morning I received a sketched map from Patti Naccarato. The map shows about 1.7 acres of irrigation around her home. Because of its rough nature, the map is not convincing evidence that our field exam was in error. Therefore, I called Al Beardslee in Northern Region to discuss the situation with him. Al agreed that additional information is required before we can consider amending the license. He volunteered to call Mrs. Naccarato to ask for additional information or to set up a time for another field check.

Dear Mr. Keen,

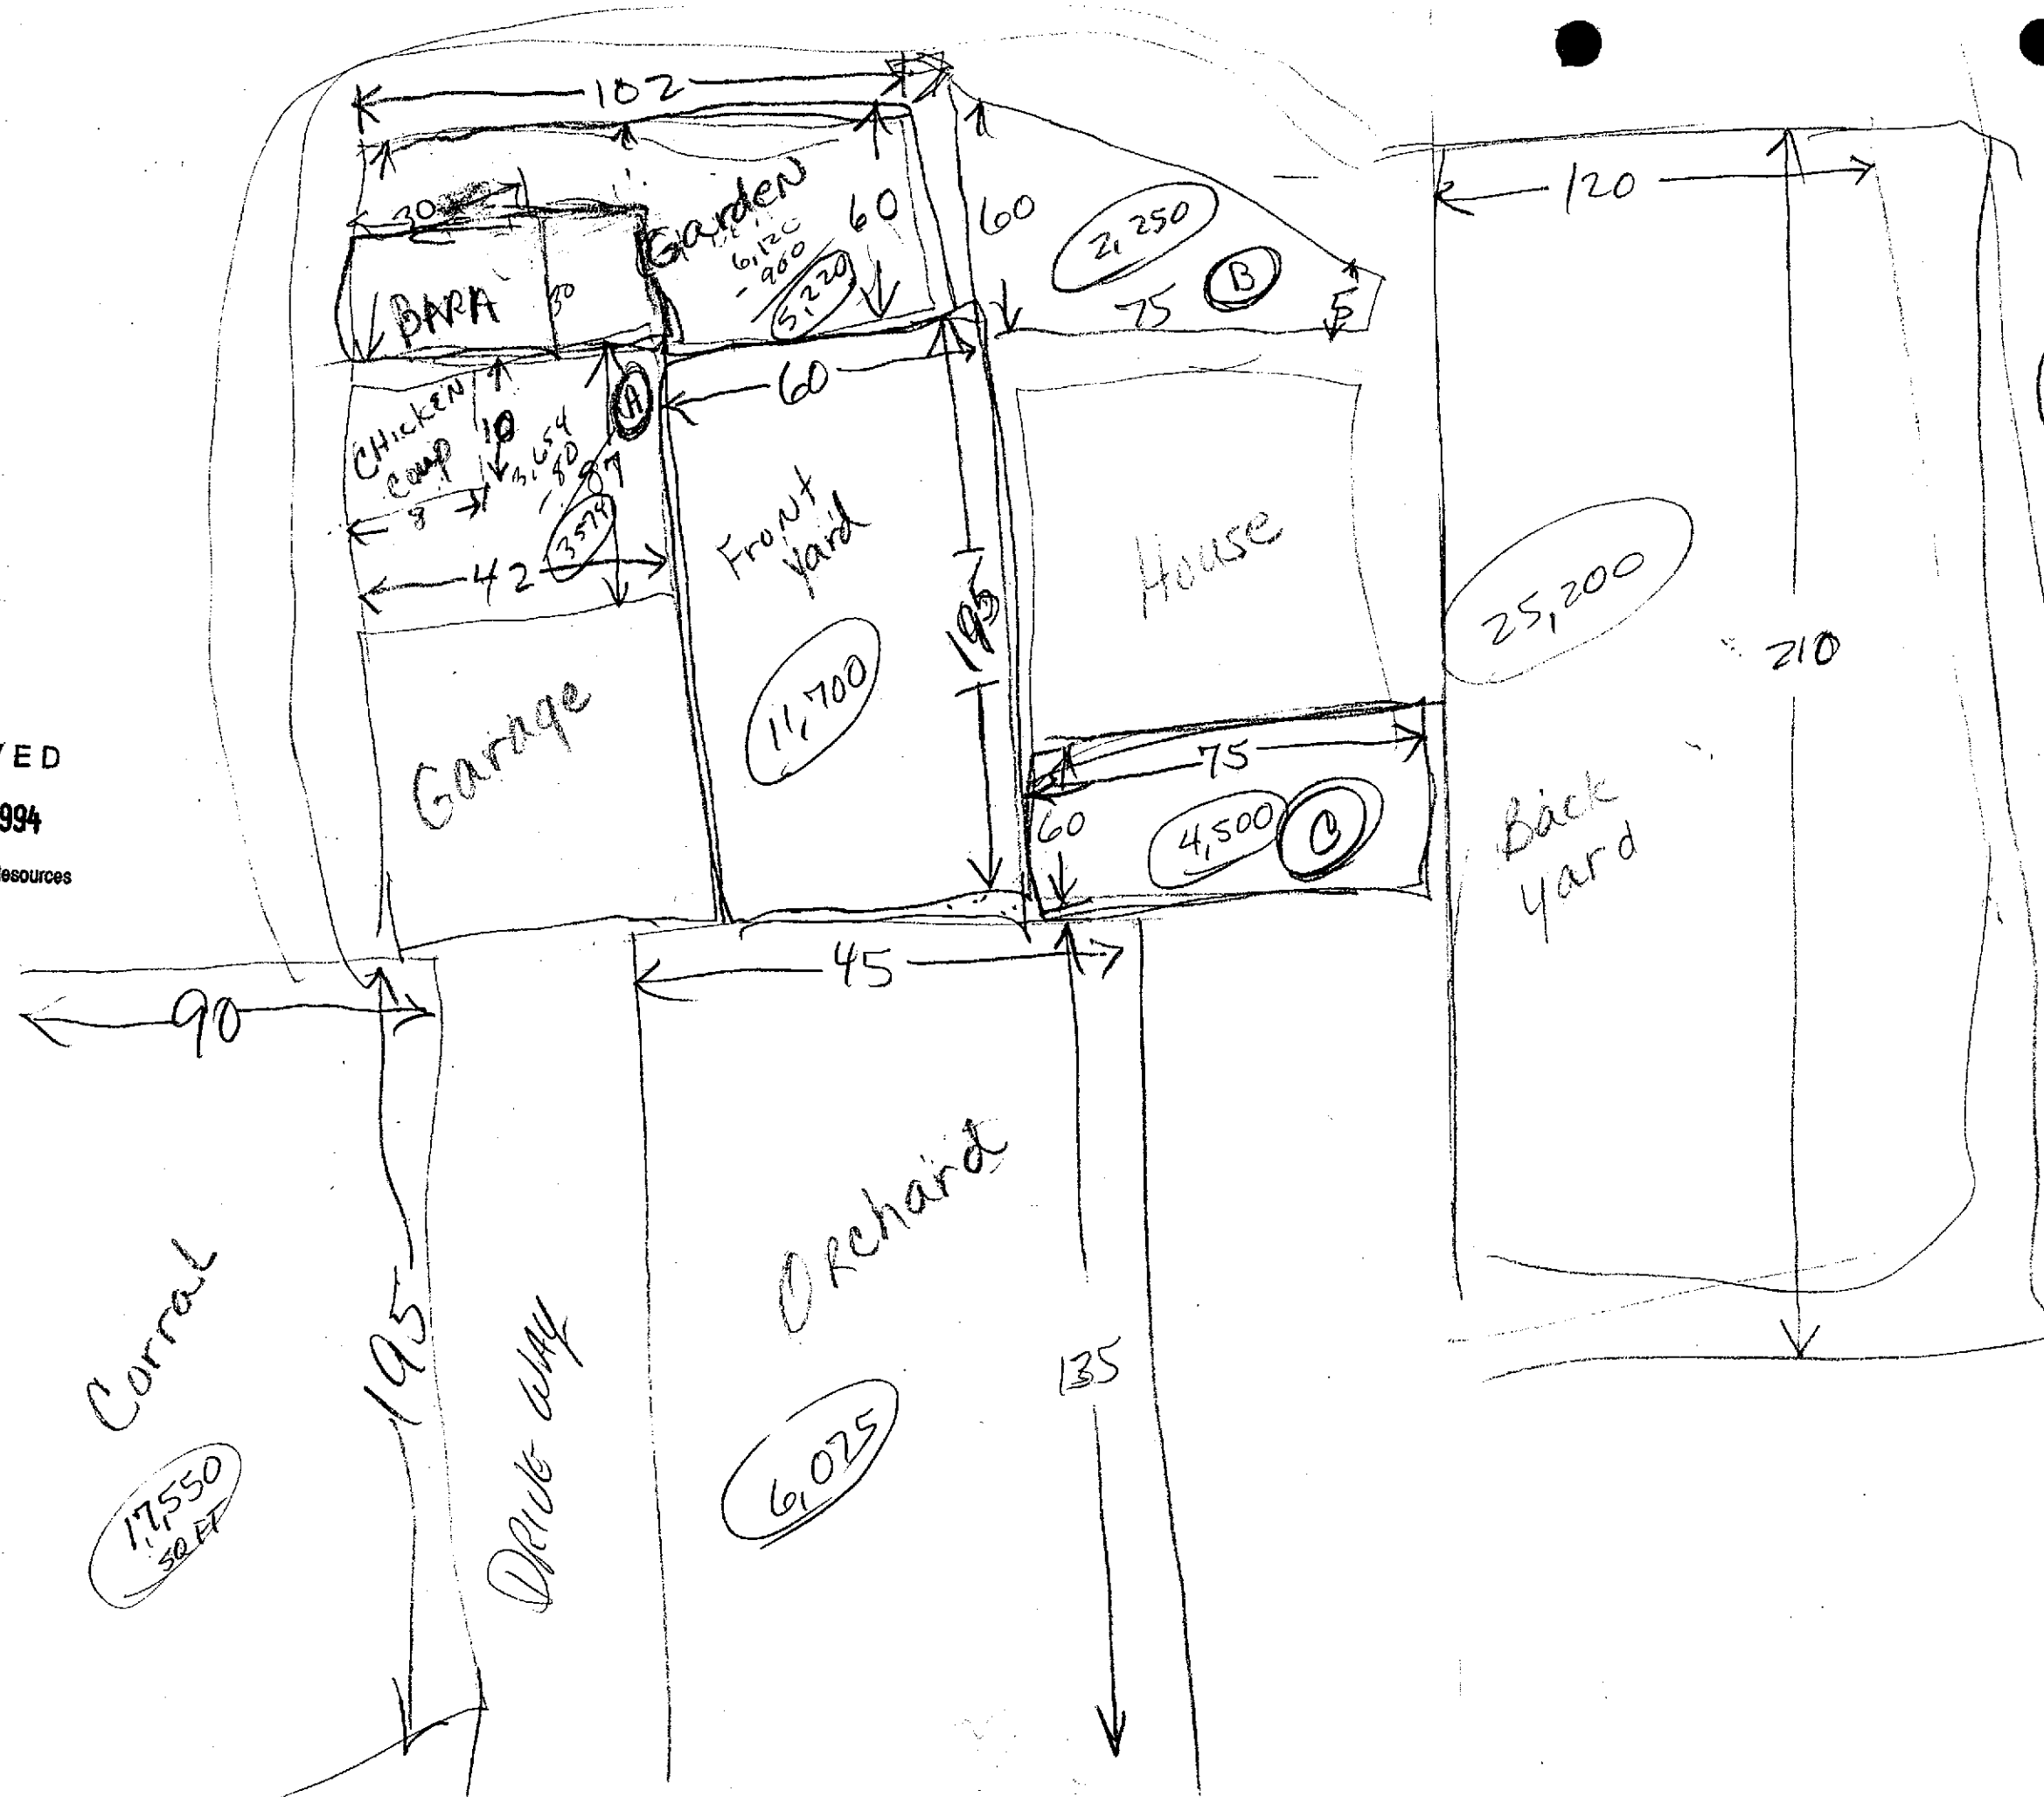

This letter is in regards to our phone call on the 12th of December concerning the acreage being irrigated at the Hornley Creek location. The difference between your department's assessment and ours is due to the less than accurate information given to your agent by our renters.

Enclosed you will find a very rough map of the property.

If a reevaluation by your agent is necessary please give us sufficient notice so that one or both of us can meet with you or your agent to provide more accurate information.

Sincerely

This morning I spoke with Patti Naccarato at (509)467-7722. She said that she and Mr. Naccarato visited their property in Idaho and measured an irrigated area of 1.7 acres. License 96-08568 currently lists 0.7 acres. I asked her to send to me a copy of her diagram of the irrigated area along with any other related information she has. I also suggested that she include a written request for the department to amend license 96-08568.

This morning I spoke with Mrs. Naccarato at (509)467-7722. She said that Mr. Naccarato has been unable to schedule time to visit his property in Idaho pursuant to our conversation on October 12, 1994. (Please see my previous memo). I asked Mrs. Naccarato to leave a message for her husband that I would put this file on 15-day call-up and that I would look forward to his response during that time period. I told Mrs. Naccarato that I can be reached at (208)327-7946 if her husband has additional questions or concerns.

=====

This morning Roland Naccarato called from (509)467-7722 to say that he thinks he irrigates more than 0.7 acres with the system licensed on 96-08568. His permit was for 5.0 acres, and he indicated 5.0 acres on his proof of beneficial use. In July of 1994 our field examiner found 0.7 acres.

Mr. Naccarato said that within the next two weeks he will visit his property to measure the irrigated area. I asked Mr. Naccarato to diagram his findings and to send them in a letter to me. When I receive his letter and diagram, we can discuss what course of action to take.

ACTION OF IDWR

☒ Approved ☐ Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

Dated this 7 day of February, 19 89.

PROOF DUE NOTICE

RE: PERMIT NO. 96-08568

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 96-08568

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Re: 96-08568

Dear Mr. and Mrs. Naccarato:

We have received a statement from W.N. Sherwood withdrawing his objection to your permit. When your well was drilled, the well drilling permit issued for it was for a well to be used for domestic purposes only. Before we can take action to approve your water right, which as you know includes irrigation, the well drilling permit needs to be upgraded to non-domestic purposes. The additional fee for this is \$190. As soon as we receive it we will forward your application to our state office for approval.

If you have any questions, please contact us.

The parties to this proceeding, having met at a prehearing conference for the purpose of defining the issues, informally presenting the facts, and discussing their respective positions before a hearing officer of the Idaho Department of Water Resources (department), hereby stipulate and agree as follows:

1. The hearing officer may consider information presented at the prehearing conference, information obtained through a field investigation by department personnel, and other facts available in the files and records of the department in preparing a proposed decision and order.

2. Each party shall have the opportunity, pursuant to Idaho Code Sections 42-1701A and 67-5211, to file exceptions to the proposed decision and order by filing written exceptions thereto within 15 days after service of the proposed decision and order by the department. If a timely exception is not received, the department Director will enter an order adopting a final decision.

3. Each party shall have the opportunity, pursuant to Rule 11 of the Practice and Procedure Rules and Regulations of the department, to file a petition for rehearing within 20 days after service of the final decision. If the department determines that a formal hearing is required, notice will be sent to all parties.

4. Pursuant to Idaho Code Sections 42-1701A and 67-5215, any party may initiate a proceeding for judicial review by filing a petition in the

IN THE MATTER OF PROTESTS AGAINST	)	
APPROVAL OF APPLICATION FOR PERMIT	)	NOTICE OF
NO. 96-8568 IN THE NAME OF ROLAND D.	)	CONFERENCE
AND/OR PATTI R. NACCARATO	)	

On August 14, 1989, Roland D. &/or Patti R. Naccarato filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On September 11, 1989, the Department received a protest against approval of said application from W. N. Sherwood.

The Department has set the matter of protest for a conference for Thursday, July 5, 1990, at 9:30 a.m., in the Conference Room of the Sandpoint Federal Building, 1500 Highway 2, Sandpoint, Idaho. The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42 and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Practice and Procedure of the Department of Water Resources, and Rules 4 and 5 of the adopted Rules and Regulations of Water Appropriation of the Department of Water Resources.

The following issues are involved in the consideration of the application and protest(s):

RECEIVED
APR 23 1991

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Dated this 15th day of June, 1990.

Re: 96-8568

Dear Mr. and Mrs. Naccarato:

Enclosed is a copy of a protest filed against the approval of the above-referenced application for permit to appropriate the public waters of the State of Idaho. The Department suggests you contact the protestants directly in an effort to determine the nature of the protest and attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculation?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

You will be notified at a later date of the time and place of the conference and/or hearing. If we can be of any assistance, please contact us.

Re: Water Appropriation Application # 96-08658

Dear Applicant:

Your Application For Permit To appropriate The Public Waters Of The State Of Idaho, which has been assigned the above referenced number. To assist us in providing you with accurate, speedy service, please refer to this number in all future correspondence.

Your appropriation application is currently in the process of being advertised in the county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before the application can be approved or denied, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If the application is not protested it will be forwarded to the main office in Boise in about five weeks. State Office personnel will then conduct a complete review and the application will either be approved or denied. You will be notified by mail of the outcome.

/// Unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit if the appropriation application is approved. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
